A. Reference Information

1. Legal Name of Applicant: _____
2. Is the applicant the owner of the operation or facility? Yes No
3. Legal Status of Applicant: Federal State Public Private Other: _____
4. Name of Facility (if different than legal name): _____
5. Facility SIC Code: _____ or NAICS Code: _____

B. Facility Location

1. Physical Street Address: _____
City: _____ State: _____ Zip Code: _____ County: _____
2.

Latitude:	Deg.		Min.		Sec.	
Longitude:	Deg.		Min.		Sec.	
3. Township: _____ Section: _____ Range: _____ Tax Lot#: _____

C. Facility Contacts

1. **Responsible Official**
Full Name: _____ Telephone #: _____
Mailing Address: _____ City: _____ State: _____ Zip Code: _____
Email Address: _____
2. **Facility Contact**
Full Name: _____ Telephone #: _____
Mailing Address: _____ City: _____ State: _____ Zip Code: _____
Email Address: _____
3. **Invoice Contact**
Full Name: _____ Telephone #: _____
Billing Address: _____ City: _____ State: _____ Zip Code: _____
Email Address: _____

D. General Information

1. Briefly describe the proposed facility, type of wastewater, and primary method of wastewater treatment and disposal:

2. Does the proposed facility include a graywater reuse and disposal system?
 Yes No
3. Is the proposed facility located within the service boundary of a municipal sanitary sewerage system?
 *Yes No
*If “Yes”, explain why this discharge is not being connected to a sanitary sewer.

4. Does the proposed facility described in D.1, discharge wastewater to an Underground Injection Control (UIC) System?
 Yes No
5. Is there any other wash water or wastewater that will be or is being discharged to a UIC system not described in D.1?
 *Yes No
*If “Yes”, also provide the information required in Section C, Preliminary Engineering Report / Facility Plan for each UIC.
6. Does or will stormwater at the facility be drained to a UIC system other than described by this application?
 *Yes No
*If “Yes”, also complete UIC Registration Form: Stormwater Drainage Systems (enclosed with this application.

E. Other DEQ or Public Agency Permits

List all other DEQ or public agency permits issued to or applied for this project:

F. Preliminary Engineering Report / Facility Plan

Attach two copies of a Preliminary Engineering Report or Facility Plan Report that fully describes the proposed project using written discussion, maps, diagrams, and any other necessary materials. The report must contain the following information (see [instructions](#) for more detail):

1. Complete description of the proposal.
2. Location of the project, adjacent facilities, and waterways on a USGS topographic map. Including the location and latitude / longitude for all UIS wastewater systems on this map. Also, provide a tax lot map for this project.
3. Schedule for development, including future expansion plan if applicable.
4. Schematic diagrams of waste streams and treatment / disposal facilities. Include the source and quantity of draining water and water used for processing or manufacturing.
5. Wastewater characterization.
6. Plans for disposal of solid waste and sledges.
7. Site evaluation report prepared as outlined by OAR 340-071-0150 (on-site sewage disposal systems only).
8. Groundwater information for all areas where wastewater or sludge will be stored or disposed.

- 9. Evaluation of groundwater and surface water impacts and the steps that will be taken to prevent impacts from occurring
- 10. Operation and maintenance plan that specifies the normal operation parameters of the system.

G. Land Use Compatibility Statement

Attach a complete Land Use Compatibility Statement (LUCS) signed by the local land use authority. The application will not be processed without evidence that the proposal is approved by the local land use authority and meets statewide planning goals.

H. Underground Injection Control (UIC) Registration

Federal and state regulations require that all UIC systems be registered with DEQ. By completing this application, your wastewater UIC systems (UIC) will be registered with the DEQ and you will be sent a UIC registration conformation letter to be maintained at the facility. You will be informed by DEQ of any additional UIC regulations that are applicable to your UIC system once this application has been reviewed.

I. Signature Of Legally Authorized Representative

I hereby certify that the information contained in the application is true and correct to the best of my knowledge and belief. In addition, I agree to pay all permit fees required by Oregon Administrative rules 340-045 and/or 340-071. This includes a new application fee to obtain the permit and a compliance determination fee invoiced annually by DEQ to maintain the permit.

Application Instructions For New WPCF Individual Permit Oregon Department of Environmental Quality

- **Please answer all questions and submit with the required application fees.**
- **An incomplete application or application with incorrect fees will not be processed.**
- **If the information requested is not applicable, please indicate as such.**

A. Reference Information

1. Enter the legal name of the applicant. The permit will be issued to this entity. This is the person, business, public organization, or other entity that controls the facility described in this application and will be responsible for complying with the conditions of the permit. This must be the legal Oregon name (i.e., Acme Products, Inc.) or the legal representative of the company if it operates under an assumed business name (i.e. John Smith, dba Acme Products). The name must be a legal active name registered with the Oregon Department of Commerce, Corporation Division (503-378-4752), unless otherwise exempted by their regulations
2. Indicate if the applicant is the owner of the facility.
3. Provide the legal status of the applicant. Indicate "public" for a facility solely owned by local government.
4. Enter the common name of the facility or operation if different than the legal name of the applicant.
5. Enter the Standard Industrial Classification (SIC) four-digit code or North American Industry Classification System five or six-digit code (NAICS) for the facility. These codes are used to describe the primary activity at the facility and may be found on fire marshal reports, insurance papers, or tax forms. The NAICS codes replaced the SIC system in 1997, however, it is usually easy to convert between the two systems so either code is acceptable. SIC or NAICS information is also available from the U.S. Census Bureau at 1-888-756-2427 or at <http://www.naics.com/search.htm>.

B. Facility Location

1. Enter the physical location of the facility (street address, not mailing address), including city, state, zip code, and county.
2. Enter the latitude and longitude of the approximate center of the facility or site in degrees/minutes/seconds. Latitude and longitude can be obtained from DEQ's location finder web site at <https://www.oregon.gov/deq/wq/wqpermits/Pages/Tools-and-Data.aspx> or from United States Geological Survey (USGS) quadrangle topographic maps by calling toll-free at 1-888-ASK-USGS (1-888-275-8747). For obtaining latitude and longitude from USGS maps, instructions may be obtained from DEQ's web site at <http://www.oregon.gov/deq/FilterDocs/latlonginstr.pdf>.
3. Enter the Township, Range, Section, and Tax Lot numbers for the regulated site.

C. Facility Contacts

1. Enter the name, telephone number, and mailing address of the Responsible Official. The Responsible Official is the person that receives official correspondence from DEQ, such as renewal notices or notices of noncompliance, and may be contacted if there are questions about this application.
2. Enter the name, telephone number and mailing address of the Facility Contact if different from the Responsible Official. The Facility Contact is the person located at the facility that has specific knowledge of the facility or operation under permit (e.g., the treatment plant operator), and may be contacted if there are specific questions about this application.
3. Enter invoicing information for billing purposes if different from the Responsible Official (e.g., "Invoice To: Business Office - Accounts Payable").

**Application Instructions For New WPCF Individual Permit
Oregon Department of Environmental Quality**

D. General Information

1. Briefly describe the proposed facility, type of wastewater (industrial, sewage or both), and primary method of wastewater treatment and disposal. For example, "2 MGD domestic sewage treatment plant consisting of non-discharging, evaporative lagoons" or "Seasonal jelly processing facility with land irrigation of process wastewater."
2. Indicate if a sanitary sewer system is available to receive this wastewater. If "yes," explain why this discharge is not being connected to sanitary sewer.
3. Indicate if the facility includes a graywater reuse disposal system.
4. Indicate if an Underground Injection Control (UIC) system will be used or is currently used to dispose of wastewater for the proposed facility described in D.1. Wastewater includes wash water, process wastewater, and/or sewage. The following wastewater disposal systems are considered UICs:
 - Non-residential onsite sewage system with a design flow of 2,5000 gallons per day or designed to serve 20 or more people a day (excluding single-family residential systems)
 - Multi-family residential onsite sewage systems regardless of size.
 - Any onsite sewage system, regardless of size, that receives industrial wastewater
 - Dry wells or sumps
 - Infiltration trenches
 - French drains
 - Industrial wastewater drain hose
 - Cesspools / sewage drain holes
5. Indicate if there is any other wash water or wastewater at the regulated site that will be or is being discharged to a UIC system not included in the proposed facility description found in D.1. If "yes," also provide the information required in Section F, Preliminary Engineering Report/Facility Plan for each UIC.
6. Indicate if a UIC system other than the one described in this application will be used or is currently used to drain storm water. If "yes," complete the UIC Registration Form: Storm Water Drainage Systems enclosed with this application. The following storm drainage systems are considered UICs:
 - Any UIC wastewater system also used for storm drain
 - Dry wells or sumps
 - Infiltration trenches
 - French drains
 - Storm drain holes

E. Other DEQ or Public Agency Permits

In order for DEQ to coordinate with other DEQ divisions and public agencies, list all permits issued to or applied for this project.

F. Preliminary Engineering Report / Facility Plan

Two copies of a Preliminary Engineering Report or Facility Plan Report must accompany this application and contain the following minimum information:

[**Note:** When constructing community sewage treatment facilities, also refer to DEQ's Guidelines for Planning Community Wastewater Projects (January 1998) for assistance on developing a facility plan.]

1. A description that includes all aspects of the facility, including services to be provided and activities to be conducted.
2. A USGS topography map that shows the location and scope of the project, locations of adjacent facilities, waterways, wetlands, drainage ways, residential areas, industrial facilities, and commercial areas, including the location and latitude/longitude for all UIC wastewater systems. Also provide a tax lot map for the project.
3. The proposed development and construction schedule. Also include future expansion plans or potential plans.
4. Schematic diagrams that include each waste stream, collection facilities, treatment and control facilities, and ultimate disposal methods for each waste product or wastewater effluent. Include a water balance for each waste stream. If alternatives for treatment are also being considered, they should be included as well. Also include the source and quantity of drinking water and water used for processing or manufacturing if different from drinking water supply.
5. A characterization of the quantity and quality of each waste stream.
6. Plans for collection, storage, and disposal of any sludges generated by the treatment process, including a characterization of volume and quality.

Application Instructions For New WPCF Individual Permit Oregon Department of Environmental Quality

7. For on-site sewage systems only, a site evaluation report prepared as outlined in OAR 340-071-0150 by an Agent of the Department or qualified consultant. The report shall contain, at a minimum, a site diagram and observations of the site characteristics.
8. Groundwater information for all areas where wastewater or sludge will be stored or disposed. The following minimum information is required:
 - Climatic information
 - Topography and soil profile description
 - Flood and erosion potential
 - Ground water aquifer characteristics, including quality and gradient
 - Location of all wells and springs within a ½ mile radius
9. A description of the groundwater and surface water impacts that may occur during construction and operation of the facility. Also details the steps that will be taken to prevent such impacts from occurring.
10. An operation and maintenance plan that specifies the normal operating parameters of the system(s). Include, for example, the length and spacing of dose cycles, gallonage of a dose cycle, and calibration of flow meters or elapsed time meters. The maintenance schedule should address ALL components to be inspected and maintained, together with procedures for doing so. For each item, include the frequency for inspecting it and the maintenance procedure. If available, include the manufacturer's operation and maintenance literature for system components.

G. Land Use Compatibility Statement

A completed Land Use Compatibility Statement (LUCS) signed by the local land use authority must be submitted with this application. The application will not be processed without evidence that the proposal is approved by the local land use authority and meets statewide planning goals. A LUCS form is enclosed with this application.

H. Signature of Legally Authorized Representative

The signature of a legally authorized representative must be provided in order to process this application. See the table below for more information.

Definition of Legally Authorized Representative Please also provide the information requested in brackets []
--

- | |
|--|
| <ul style="list-style-type: none"> • Corporation: President, Secretary, Treasure, Vice-President, or any person who performs principal business functions; or a manager of one or more facilities that is authorized in accordance to corporate procedure to sign such documents • Partnership: General partner [list of general partners, their addresses, telephone numbers, and email address. • City, County, State, Federal, or other Public Facility: Principal executive office or ranking elected official. • Limited Liability Company: Member [articles of organization] • Trusts: Acting trustee [list of trustees, their addresses, telephones numbers, and email address. |
|--|

Fee and Application Submittal

Please see the cover letter enclosed with this application form or call the appropriate regional office below for fee information and to determine where to send this application. Send this form and fee to the following regional office. Make your check payable to the Department of Environmental Quality.

For Onsite Sewage Systems in Northwest and Western Region

	DEQ Western Region Attn: WPCF-OS 165 East 7th Avenue, Suite 100 Eugene, OR 97401-3049 541-686-7838 or 1-800-844-8467
