Statistical Annual Report

For the Year Ended June 30, 2024

Prepared by the Controller's Office

Office of the Controller

October 1, 2024

The Controller's Office Annual Report for the University of South Carolina, fiscal year ended June 30, 2024, is a statistical overview that reflects the extensive activities conducted by the staff of the Controller's Office on an annual basis. It provides a comprehensive overview of all information and statistics related to the different areas managed by the Controller's Office.

Each year, the Controller's Office is confronted with a growing number of compliance and regulatory demands. In addition, the office is actively engaging in new initiatives to uphold the highest standards of financial integrity in our reporting and processes. The Controller's Office is committed to advancing the interests of the university's students, faculty, and staff by aligning with the mission of the University system, and we function as a fully centralized entity serving all campuses and the two medical schools. The Controller's Office staff works tirelessly for the University and its students, faculty, and staff to ensure the highest level of customer focus and financial integrity in our reporting and processes.

The intention of this report is to establish a connection between the Controller's Office and our dedication to supporting this exceptional University.

Forever to Thee,

A handwritten signature in cursive script that reads "Mandy M. Kibler".

Mandy M. Kibler
Associate Vice President and University Controller

THE CONTROLLER'S OFFICE

Our Mission Statement

The Office of the Controller is dedicated to supporting the mission of the University of South Carolina by creating and maintaining a financial framework that ensures the responsible stewardship of university resources with accuracy, effectiveness, and transparency. We provide our stakeholders, both internal and external, with reliable financial expertise, information, solutions, and insights. Our purpose is to enable our stakeholders—students, educators, researchers, and administrators—to be their best in a challenging educational and research environment.

Our Vision Statement

The Office of the Controller is a valued and trusted financial partner for the University, with a vision that encompasses five core values: collaboration, strategic continuous improvement, excellence in service, provision of impeccable information sources, and the highest standards of financial integrity and reporting.

Our Goals

- We deliver information that is both accurate and consistent, ensuring reliability while upholding the highest level of integrity.
- We provide outstanding service and support to all stakeholders.
- We develop cutting-edge solutions and strive for ongoing enhancement.
- We foster partnerships that are both collaborative and built on trust.
- We recognize the importance of our colleagues and treat them with utmost respect.
- We provide training, foster development, and offer rewards and recognition to both our teammates and partners.

Some interesting facts about our office:

We are one of the only completely centralized offices across the University system.

We have received the Certification of Achievement for Excellence in Financial Reporting 13 years in a row.

The Controller's Office makes up less than 1% of the University's operating budget.

\$1.68 billion in university transactions processed annually through the Controller's Office to include AP, Payroll, Scholarships, Utilities, and Depreciation.

We have 84 employees compared to approximately 100 employees at our SEC peer universities.

SUPPORTING THE UNIVERSITY'S STRATEGIC PRIORITIES

Strategic Priority

Increasing Research and Scholarship to Drive Community and Economic Impact

University Objective: We aim to increase impactful research to advance knowledge-creation, spur workforce development, and address socioeconomic challenges in South Carolina and beyond by supporting and empowering USC's diverse researchers and scholars.

The Controller's Office supports this effort:

The Controller's Office supports the strategic priority of increasing research through effective grant management and application of quality compliance standards. Effective grant management encourages new and increased grant awards as sponsors can trust that their funds are being spent according to grant terms. The reporting tools that the Controller's Office builds and maintains also allows the PIs and business managers to see grant expenditures and remaining grant funds in real time. Principal Investigators (PIs) can immediately see if an expenditure is budgeted or processed. Real time knowledge of grant expenditures help PIs not go overbudget and therefore save money. Sponsors have been so pleased with these reporting tools that they have frequently requested less invoice backup.

Strategic Priority

Transforming Service Delivery and Promoting Operational Excellence

University Objective: We create and sustain a user-friendly environment for students, faculty, staff, and other stakeholders by strengthening engagement and accessibility, increasing process efficiency and effectiveness, and delivering outstanding service.

The Controller's Office supports this effort:

The Controller's Office fosters the strategic priority of transforming service delivery and promoting operational excellence through its implementation of efficiencies in account set up, transaction processing, and reporting. Departments can focus on entrepreneurial ventures and community outreach in greater volume and accuracy instead of spending time on paperwork. Implementation of PeopleSoft, workflow processes, real-time reporting, and the implementation of the Accounts Receivable module/process in PeopleSoft for customer billing make working with business and community easier. In addition, the Controller's Office reviews contract terms to ensure the department's accounts are set up appropriately and accurately at the start to help the venture succeed.

GENERAL CONTROLLER

University of South Carolina
