

How to Apply Online for Medicare Only

It's so easy! Go to www.ssa.gov

Welcome to the Social Security Benefit Application

1. Start your new Medicare application by selecting "Sign up for Medicare."
2. On the next page, select "Apply online."
3. Review and agree to the Terms of Service, then select "Next."
4. On the next screen, select "Start a new application."

Create or sign in to your personal *my* Social Security account

Once you start a new application online, you will be directed to create or sign in to your personal *my* Social Security account. You will need a valid email address to create your account. All new *my* Social Security customers will create a credential with one of our two credential service providers, Login.gov or ID.me. If you don't have a Login.gov or ID.me account, select the "Create an Account" link to start this one-time registration process. If you create a new Login.gov credential, we will still complete the identity verification part. You will need to provide some personal information to us.

If you are unable to create a personal *my* Social Security account, you can continue your application online. We will contact you after we receive and review your application.

Re-entry Number

If you signed in to your personal *my* Social Security account when you began your claim, you will be able to save and exit your application after the Re-entry Number screen. You can return to your application by signing in to your personal *my* Social Security account.

If you started your application without creating a personal *my* Social Security account, you may want to print your re-entry number. This will let you quickly continue a saved application later.
