

# Short-Term Rental Fire Safety

**Many people enjoy renting homes or apartments for vacation. These rentals are not regulated like hotels and motels. Practice home safety in rentals just like you do at home.**

Be sure:

- Everyone knows the address of the rental.
- Everyone knows two ways out of every room and out of the rental if there is an emergency.
- There are working smoke alarms in every sleeping room, outside each separate sleeping area and on every level of the rental.
- There are working carbon monoxide alarms on every level of the rental.
- You can open all doors and windows that lead outside.
- You choose an outside meeting place a safe distance from the rental.
- Everyone knows where to find a first-aid kit.
