Summer Community Assistant 2025

Job Information

JOB OVERVIEW

UVic Residence Services is seeking students interested in fostering supportive relationships with students living in residence and engaging in personal growth and development for the position of Summer Community Assistant (SCA) in the summer of 2025. The foundation of this position is to develop a supportive, inclusive, and safe community for summer residents and assist the Residence Services department with strategic projects and initiatives to improve the Residence Life program.

Residence Services is a unit within the division of Student Affairs that provides accommodation, programming, support, and education to the on-campus student community as well as a summer conferences operation for off-campus customers. Residence Life & Education, the department within Residence Services for which SCAs work, aims to support the academic and personal development of all residents within a safe and welcoming community.

The SCA is a part-time live-in student leadership position integral to building community within UVic student residences. The SCA position is a four-month appointment from early May 2025 to mid August 2025, working approximately 12 hours each week. SCAs report to the Neighbourhood Manager (NM) and act as the primary peer support to assist summer residents' academic and social transitions to and through the summer term at UVic. This role involves facilitating frequent in-person programming, developing community building initiatives and peer support, and may also serve as the first point of contact during critical incident and/or crisis situations. SCAs apply their training from previous Residence Life & Education positions and receive additional training in line with the unique SCA expectations.

Summer term residents often live in residence for a short amount of time as they complete condensed courses, meaning that the turnover rate is quite high. These residents have also typically completed their first year of courses and may have lived in Residence previously. As a result, this role focuses more on programming, community building and peer support than the CL position.

DESIRED QUALIFICATIONS

- Shown strong commitment to building a safe and supportive community among residents
- Proven ability to manage multiple priorities and flexibility working in a dynamic environment
- Proven ability to understand and follow departmental policies and procedures in emergent and crisis situations
