

# Austin/San Antonio Weather Forecast Office WEATHER EVENT SUMMARY

## Hurricane Harvey – South Central Texas

25 - 29 August 2017

Harvey strengthens as it approaches the Texas coast on August 25, 2017.

# Hurricane Harvey – South Central Texas

25 - 29 AUGUST 2017

## EVENT SUMMARY

Harvey began on Sunday August 13th, 2017 as a tropical wave off the west coast of Africa, eventually merging with a broad area of low pressure near the Cabo Verde Islands. At first, it was thought the wave and the low pressure area would have a more west-northwest track, threatening the Lesser Antilles. However, this low stayed more on a westward course as it moved over the open Atlantic Ocean toward the Eastern Caribbean Sea. For a few days on its westward track, Harvey remained disorganized, and there was some uncertainty whether the low would become a tropical cyclone. However, by Thursday August 17th, the National Hurricane Center began issuing advisories and forecasts on Potential Tropical Cyclone Nine on Thursday morning, and Tropical Storm Harvey on Thursday afternoon. Tropical Storm Warnings were issued that afternoon for Martinique, St. Lucia, Barbados, and St. Vincent and the Grenadines. Tropical Storm Harvey impacted the Windward Islands on Friday, August 18th, entering the Eastern Caribbean Sea as a minimal tropical storm, and eventually weakening to a tropical wave late Saturday evening. Although there was some potential for the remnants of Harvey to reorganize into a tropical cyclone, a tropical cyclone failed to form as the remnants of Harvey moved into the Yucatan Peninsula on Tuesday morning, August 22nd.

As Harvey crossed back into the open waters of the Bay of Campeche and eventually the Gulf of Mexico, it began to increase in strength and became a hurricane due to warm surface ocean temperatures and weakening wind shear. Harvey underwent rapid intensification as it approached the Texas Gulf Coast. It was upgraded to a Category 4 Hurricane only hours before making landfall near Rockport, Texas on Friday night, August 25th. Massive wind damage occurred in Rockport and surrounding areas, with winds near the eyewall measured up to 130 mph. Harvey was the first major hurricane to make landfall in the continental United States since Wilma in 2005, and the first major hurricane to strike Texas since Bret in 1999. It was also the first hurricane to strike Texas since Ike in 2008.

Harvey continued to move northward, weakening and slowing as it went, with the center of the circulation passing just east of Refugio, then up between Goliad and Victoria, making it as far inland as just north of Cuero in DeWitt County, having weakened to a tropical storm by this time. Harvey then headed off to the southeast, returning to the Gulf of Mexico before making another landfall near Cameron, Louisiana, bringing catastrophic flooding to Houston and Beaumont, Texas and into southwestern Louisiana.

Light-to-moderate rain fell continuously across areas east of the Interstate 35 corridor from Friday night through Monday evening, leading to massive amounts of accumulated rainfall. Portions of Bastrop, Fayette, Lee, Lavaca and Gonzales counties received over 20 inches of rain from Harvey. The highest measured rainfall amount was 9 miles east of Smithville in Fayette County, where 29.09" of rain fell. Major flooding occurred within the Colorado and the Guadalupe River basins. The Colorado River at La Grange crested at 54.18 feet, making it the third highest crest on record

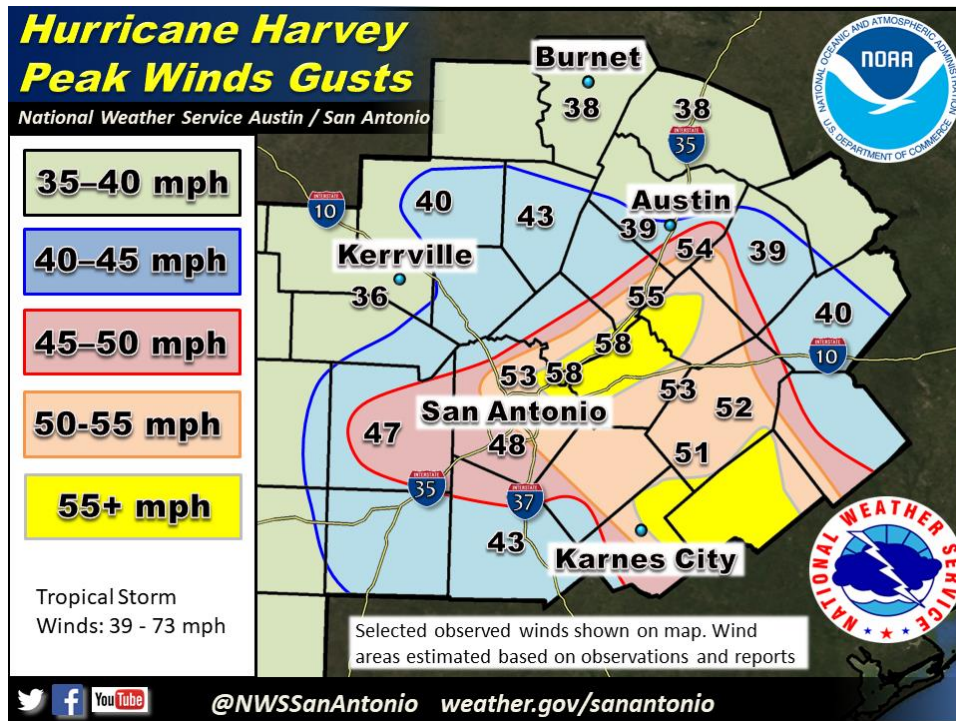

and the highest crest in 104 years, causing major flooding in portions of the town. The Guadalupe River at Cuero crested at 44.36 feet, good for the second highest crest on record, and causing major flooding in lower-lying areas near Cuero. Fortunately, the I-35 corridor, including the cities of Austin and San Antonio, avoided the catastrophic flooding that befell Houston and elsewhere. A tight rainfall gradient set up on the western edge of Harvey, with some drier air being entrained in from southwestern Texas and northern Mexico. San Antonio International only received 1.94” of rain from Harvey. Austin received substantial rain amounts, with Camp Mabry receiving 7.94” and Austin Bergstrom International Airport receiving 10.07” of rain, but the rain fell over a long enough period of time to avoid any major flooding issues. The Onion Creek at US 183 crested at 19.16 feet in minor flood stage, but did not cause any significant impacts.

Hurricane-force wind gusts possibly occurred in DeWitt County, but a lack of observation sites made it not possible to confirm this. Wind gusts of 58 mph were recorded at New Braunfels

Regional Airport and at Randolph Air Force Base in northeastern Bexar County. 55 mph wind gusts occurred at San Marcos Airport, with 54 mph and 53 mph peak wind gusts measured at Austin Bergstrom International Airport and San Antonio International Airport, respectively.

REMARKS:

D. INLAND FLOODING...

BASTROP...NUMEROUS LOW WATER CROSSINGS UNDERWATER LEADING TO MULTIPLE WATER RESCUES. SEVERAL HOMES HAD WATER DAMAGE. SEE SECTION G - STORM IMPACTS FOR FURTHER DETAILS.

BEXAR...A FEW LOW WATER CROSSINGS WERE FLOODING. SEE SECTION G - STORM IMPACTS FOR FURTHER DETAILS.

CALDWELL...NUMEROUS FLOODED AND DAMAGED ROADS ACROSS THE COUNTY. DAMAGE TO SEVERAL DAMS AND HOMES. SEE SECTION G - STORM IMPACTS FOR FURTHER DETAILS.

COMAL...SEVERAL LOW WATER CROSSINGS WERE FLOODED ACROSS THE COUNTY. SEE SECTION G - STORM IMPACTS FOR FURTHER DETAILS.

DEWITT...MAJOR FLOODING FROM THE GUADALUPE RIVER CAUSED MULTIPLE HOMES TO FLOOD IN CUERO. THE GUADALUPE RIVER NEAR CUERO CRESTED AT ITS SECOND HIGHEST CREST ON RECORD. NUMEROUS HOMES MAY HAVE ALSO BEEN FLOODED DOWNSTREAM OF CUERO. SEE SECTION G - STORM IMPACTS FOR FURTHER DETAILS.

FAYETTE...THE COLORADO RIVER ABOVE LA GRANGE CRESTED AT ITS 3RD HIGHEST CREST EVER AND THE HIGHEST SINCE 1913. NUMEROUS HOMES WERE IMPACTED BY FLOODING ACROSS THE COUNTY, ALONG WITH SEVERAL DESTROYED. SEE SECTION G - STORM IMPACTS FOR FURTHER DETAILS.

GONZALES...FLOOD DAMAGE TO HOMES WAS LIMITED. SEVERAL ROADS WERE FLOODED IN THE COUNTY. SEE SECTION G - STORM IMPACTS FOR FURTHER DETAILS.

HAYS... MANY LOW WATER CROSSINGS FLOODED DURING THE EVENT. SEE SECTION G - STORM IMPACTS FOR FURTHER DETAILS.

LAVACA...THE NAVIDAD RIVER REACHED RECORD HEIGHTS AT BOTH SUBLIME AND NEAR SPEAKS TX. SOME IMPACT TO AREA ROADS DUE TO HIGH WATER. SEE SECTION G - STORM IMPACTS FOR FURTHER DETAILS.

LEE...SEVERAL HOMES IMPACTED BY FLOODING WITH A HANDFULL DESTROYED. SEE SECTION G - STORM IMPACTS FOR FURTHER DETAILS.

WILSON...EAST SIDE OF THE COUNTY HAD THE MOST RAINFALL AND A FEW ROAD ISSUES OCCURRED AS A RESULT. SEE SECTION G - STORM IMPACTS FOR FURTHER DETAILS.

GUADALUPE...SOME ROADS AND LOW WATER CROSSINGS WERE FLOODED. SEE SECTION G - STORM IMPACTS FOR FURTHER DETAILS.

```

```

ATASCOSA          0                0                0
BASTROP           0                0                100

```

100 PEOPLE EVACUATED. WIDESPREAD 15+ INCHES OF RAIN FELL AND PUT OVER 150 LOW WATER CROSSINGS UNDERWATER AT ONE POINT. THIS HAS LIKELY DAMAGED OVER 50 ROADS. EARLY INDICATIONS SHOW 40 HOMES PROBABLY HAVE WATER DAMAGE BUT ASSESSMENT TEAMS ARE STILL GETTING PUT TOGETHER. SOME TREES WERE DOWNED ACROSS THE COUNTY AND LED TO SOME POWER OUTAGES. MULTIPLE WATER RESCUES WERE MADE.

```

BEXAR             0                0                0

```

A FEW TREES DOWNED ON THE EAST SIDE OF THE COUNTY. NO MAJOR WATER ISSUES EXPCPT FOR A FEW LOW WATER CROSSINGS THAT WERE FLOODED FROM SEVERAL INCHES OF RAIN. A FEW ROADS WERE CLOSED DUE TO HIGH WATER.

```

CALDWELL          0                0                8

```

8 PEOPLE EVACUATED DOWNSTREAM OF A DAM. 100S OF ROADS CLOSED ACROSS THE COUNTY DUE TO FLOODING WITH ESTIMATES OF MILLIONS OF DOLLARS IN DAMAGE TO THE ROAD INFRASTRUCTURE. THERE WAS DAMAGE TO 10 DAMS. WIND DAMAGE WAS REPORTED ACROSS THE COUNTY MAINLY TO TREES AND SMALL STRUCTURES AS WIND GUSTED WELL OVER 50 MPH. EARLY ESTIMATES INDICATED AS MANY AS 50 HOMES EXPERIENCED FLOOD DAMAGE. MULTIPLE WATER RESCUES WERE MADE.

```

COMAL             0                0                0

```

WIND GUSTS WELL OVER 50 MPH BROUGHT MULTIPLE TREES DOWN ACROSS THE COUNTY AND LED TO SCATTERED POWER OUTAGES. AT ONE POINT 15K CUSTOMERS WERE WITHOUT POWER BUT THE OUTAGES WERE SPORADIC AND DIDN`T LAST VERY LONG. SEVERAL LOW WATER CROSSINGS WERE FLOODED ACROSS THE COUNTY THAT LASTED FOR A FEW DAYS AS THE WATERS WERE SLOW TO RECEDE. ONE COUNTY BUILDING SUSTAINED WATER DAMAGE DUE TO THE WIND-BLOWN RAIN. ESTIMATES OF DAMAGE TO THE BUILDING IS 10K. AT ONE POINT COMAL COUNTY DID HOST 268 EVACUEES FROM THE MIDDLE TEXAS COAST.

```

DEWITT            0                0                300

```

300 PEOPLE EVACUATED. LARGE TREES DOWNED ACROSS THE COUNTY WITH SOME STRUCTURAL DAMAGE ALSO NOTED ON SOME BUILDINGS AND HOMES. WINDS GUSTED WELL OVER 60 MPH ACROSS MUCH OF THE COUNTY AS THE CENTER OF HARVEY MOVED OVER AND NEAR THE CITY OF CUERO. FLOODING FROM THE GUADALUPE RIVER CAUSED MULTIPLE HOMES TO FLOOD IN CUERO AS WELL AS

10 MILES DOWNSTREAM OF CUERO. AS MANY AS 100 HOMES WERE AFFECTED BY HIGH WATER. THE GUADALUPE RIVER NEAR CUERO CRESTED AT 44.36 FEET, ITS SECOND HIGHEST CREST ON RECORD.

FAYETTE 0 0 400

400 PEOPLE EVACUATED. WIDESPREAD 20+ INCHES OF RAIN FELL ACROSS MOST OF FAYETTE COUNTY. THE COLORADO RIVER CRESTED AT JUST OVER 54 FEET MAKING IT THE 3RD HIGHEST CREST EVER AND THE HIGHEST SINCE 1913. THERE ARE LIKELY 500 IMPACTED HOMES ACROSS THE COUNTY WITH SEVERAL DESTROYED ALONG THE COLORADO RIVER AT LA GRANGE AND ALONG BUCKNER'S CREEK IN FRISCH AUF VALLEY COUNTRY CLUB. FLOODED ROADS ARE EXTENSIVE ACROSS THE COUNTY WITH LIKELY AT LEAST 500K IN DAMAGE TO ROAD INFRASTRUCTURE. POWER AND CELL SERVICE IN LA GRANGE WERE IMPACTED. MULTIPLE BUSINESSES ALONG THE RIVER BELOW WATER STREET IN LAGRANGE TOOK ON WATER AND ARE EITHER DESTROYED OR HAVE MAJOR DAMAGE.

GONZALES 0 0 0

SIGNIFICANT FLOODING OCCURRED ON PEACH CREEK WHERE WIDESPREAD 10-15 INCHES OF RAIN FELL, BUT OVERALL FLOOD DAMAGE WAS LIMITED TO 2 HOUSES. OVER 20 ROADS WERE FLOODED. WIDESPREAD WIND DAMAGE TO MAINLY TREES WAS REPORTED WITH MANY TREES UPROOTED ACROSS THE ENTIRE COUNTY. WIND GUSTS OVER 50 MPH WERE REPORTED.

HAYS 0 0 100

100 PEOPLE EVACUATED. THERE WAS A SINKHOLE ON HIGHWAY 21 ON THE CALDWELL/HAYS COUNTY LINE BUT NO OTHER ROAD ISSUES REPORTED EXCEPT FOR MANY LOW WATER CROSSINGS FLOODED DURING THE EVENT. THERE WERE SEVERAL AREAS THAT EXPERIENCED POWER OUTAGES DUE TO DOWNED TREES, LIMBS, AND POWERLINES.

KARNES 0 0 0

SEVERAL TREES DOWNED ACROSS THE EASTERN HALF OF THE COUNTY BUT OVERALL IMPACTS WERE LIGHT.

LAVACA 0 0 0

SEVERAL TREES DOWNED ACROSS THE COUNTY AS WELL AS SOME MINOR STRUCTURAL DAMAGE NOTED IN YOAKUM AND SHINER. THE NAVIDAD RIVER REACHED RECORD HEIGHTS AT BOTH SUBLIME AND NEAR SPEAKS TX. THE HIGH WATER MAINLY AFFECTED MOSTLY FLOODPLAIN AREAS AND NO STRUCTURES WERE DIRECTLY IMPACTED. SOME IMPACT TO AREA ROADS DUE TO HIGH WATER.

LEE 0 0 0

THE HEAVY RAINFALL ACROSS ESPECIALLY THE SOUTHERN HALF OF THE COUNTY HAS LIKELY BROUGHT IMPACTS TO AT LEAST 30 HOMES WITH AS MANY AS 25 POSSIBLY DESTROYED. SOME TREES DOWN ACROSS THE COUNTY.

WILSON 0 0 0

EAST SIDE OF THE COUNTY HAD THE MOST RAINFALL AND A FEW ROAD ISSUES OCCURRED AS A RESULT. OVERALL IMPACTS WERE LIGHT ALTHOUGH ONE WATER RESCUE DID TAKE PLACE ON THE FAR EAST SIDE OF THE COUNTY.

GUADALUPE 0 0 0

CENTRAL AND EASTERN AREAS OF THE COUNTY HAD THE MOST RAIN, WHERE

BETWEEN 6 AND 12 INCHES OF RAIN FELL. SOME ROADS AND LOW WATER  
CROSSINGS WERE FLOODED. WIND GUSTS UP TO 60 MPH PRODUCED SCATTERED  
TREE DAMAGE AND POWER OUTAGES.
