From: Kimberly McMahon, Acting Chief
 Severe, Fire, Public and Winter Weather Services Branch

Subject: Implementing Improved Public and Fire Weather Forecast Zone
Coverage for WFO Brownsville/Rio Grande Valley, TX: Effective March 22,
2022

Effective on or about Tuesday, March 22, 2022, at 3:00 PM Central Daylight
Time (CDT), 2000 Coordinated Universal Time (UTC), the NWS will realign
and re-number coastal public and fire weather forecast zones within the
Weather Forecast Office (WFO) Brownsville/Rio Grande Valley area of
responsibility.

If March 22, 2022 is declared a Critical Weather Day, this implementation
will be postponed to Tuesday, March 29, 2022.

Three current zones will be converted into six separate zones. These new
zones are being divided to optimize issuance of hazard products for
conditions that vary significantly within the coastal and barrier island
environment:

TXZ351 (Coastal Kenedy County) will be divided into two segments: Coastal
Kenedy County (TXZ351) and Kenedy Island (TXZ451).

TXZ256 (Coastal Willacy County) will be renumbered and divided into two
segments: Coastal Willacy County (TXZ354) and Willacy Island (TXZ454).
The zone number TXZ256 will be retired.

TXZ257 (Coastal Cameron County) will be renumbered and divided into two
segments: Coastal Cameron County (TXZ355) and Cameron Island (TXZ455).
The zone number TXZ-257 will be retired.

Table 1: Current Coastal Public Zones and Corresponding Universal
Geographic Codes (UGCs) for WFO Brownsville/Rio Grande Valley, TX

UGC: Current Public/Fire Zone Name

TXZ351: Coastal Kenedy
TXZ256: Coastal Willacy
