From: Stephen Bieda III, Ph.D, Chief
 Severe, Fire, Public, and Winter Weather Services Branch

Subject: Discontinuation of the Temperature and Precipitation Summary for
Deep South Texas: Effective January 9, 2024

Effective Tuesday, January 9, 2024, the NWS Brownsville Weather Forecast
Office (WFO) will discontinue issuance of the Temperature and
Precipitation Summary Product (AGOBRO).

The information contained in the AGO product duplicates information
contained in other text products as well as various websites and NWS
application programming interfaces (API).

WFO local products providing the data contained in the AGO product
include:

- * CLI Text Products for routine climate reports
- * RR3 Text Products for cooperative observations
- * MTR Text Products for routine METAR observations with temperature and
precipitation data

Alternative web sites providing the data contained in the AGO product
include:

- * NOAA Online Weather Data:
<https://www.weather.gov/wrh/Climate?wfo=bro>
- * NWS Weather API:
<https://www.weather.gov/documentation/services-web-api>
- * Aviation Weather Center API:
<https://aviationweather.gov/data/api/#/>

The weather enterprise and private sector companies may also provide
tailored services.

Product to be discontinued:

Product Name	AWIPS ID	WMO Header
-----	-----	-----
Temperature and Precipitation Summary for Deep South Texas	AGOBRO	SHUS44 KBRO
