 National Centers for Environmental Prediction

Subject: Updated: Upgrade NCEP Global Forecast System to v16.3.16:
Effective July 2, 2024

Updated to change implementation date from June 26, 2024 to July 2, 2024.

Effective on or about July 2, 2024, beginning with the 1200 Coordinated Universal Time (UTC) run, the National Centers for Environmental Prediction (NCEP) will upgrade the Global Forecast System (GFS) from version 16.3.15 to 16.3.16.

This GFS upgrade adds a new job, `gdaswdqms`, in the GFS Data Assimilation System (GDAS). It generates 6-hourly summaries of observation reports, which contain information on time, location, station identification, quality flag, and background departure statistics (innovations) from GDAS analysis for radiosonde, surface data over land, and marine data. The objective of this new job is to support the World Meteorological Organization (WMO) Integrated Global Observing System, WDQMS (WIGOS Data Quality Monitoring System) project and ensure that WMO observational data and products are reliable and correspond to agreed-upon needs.

The addition of GDAS WDQMS processing does not impact GFS scientific results and existing products. It adds the following three WDQMS products in Comma-separated Values (CSV) format for each 6-hourly analysis cycle (HH):

- `gdas.tHHz.temp.csv`
- `gdas.tHHz.synop.csv`
- `gdas.tHHz.marine.csv`

The WDQMS products will be available on the NOAA Operational Model Archive and Distribution System (NOMADS) and FTPPRD web services at the following locations:

<https://nomads.ncep.noaa.gov/pub/data/nccf/com/gfs/prod/gdas.YYYYMMDD/HH/atmos/wdqms>
<https://ftp.ncep.noaa.gov/data/nccf/com/gfs/v16.3/gdas.YYYYMMDD/HH/atmos/wdqms>

<ftp://ftp.ncep.noaa.gov/data/nccf/com/gfs/v16.3/gdas.YYYMMDD/HH/atmos/wdgs>

Please submit comments, questions, or requests on this upgrade to:

Daryl Kleist
Chief, Data Assimilation Division
Modeling and Data Assimilation Branch
NWS/NCEP/Environmental Modeling Center
Email: daryl.kleist@noaa.gov

For questions regarding the data flow, please contact:

Margaret Curtis
NCEP Central Operations HPC Dataflow Team Lead (Acting)
College Park, MD
