PRELIMINARY Survey for Grenelefe EF-1 Tornado

Date: March 11, 2010

Time: 4:53 PM to 4:57 PM

Strength: EF-1 (estimate 95 MPH)

Location: About 4.8 miles southeast of Haines City, FL

Began: 28.069 Lat, -81.559 Lon

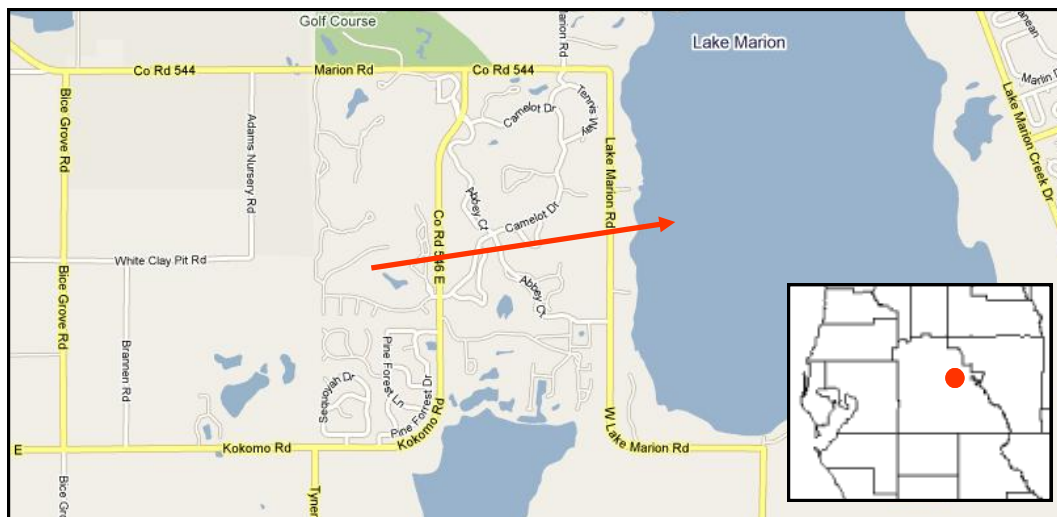

End: 28.071 Lat, -81.536 Lon

Path Length: 1.3 miles

Path Width: 70 yards

- No injuries or fatalities
- 28 buildings damaged, 8 of the buildings were multifamily condos, 5 buildings uninhabitable
- One building has roof/wall gone. Roof held on with nails, not hurricane straps.
- Mostly uplift of roof decks, partial loss of roofs, failure of porches, numerous trees ripped apart

Workers put tarp on home that lost roof

Numerous trees down or ripped apart
