## Storm Data and Unusual Weather Phenomena

May 2003

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons Killed	Number of Persons Injured	Estimated Damage Property	Estimated Damage Crops	Character of Storm
----------	------	----------------------------	---------------------------	--------------------------	--------------------------------	---------------------------------	---------------------------------	------------------------------	--------------------

### ARKANSAS, Northwest

#### Crawford County

Bidville	13	1435CST			0	0			Hail(0.75)
----------	----	---------	--	--	---	---	--	--	------------

#### Franklin County

Ozark	13	1450CST			0	0			Hail(1.00)
-------	----	---------	--	--	---	---	--	--	------------

#### Franklin County

Ozark	13	1450CST			0	0			Thunderstorm Wind (G52)
-------	----	---------	--	--	---	---	--	--	-------------------------

#### Franklin County

Countywide	13	1500CST 1630CST			0	0			Flash Flood
------------	----	--------------------	--	--	---	---	--	--	-------------

Heavy thunderstorms rains caused several secondary roads to be flooded. Severe street flooding was also reported in Ozark where 11th Street near Highway 64 was temporarily impassible due to high water around 5 pm.

#### Crawford County

Van Buren	13	1520CST			0	0			Hail(0.75)
-----------	----	---------	--	--	---	---	--	--	------------

#### Madison County

7 N Kingston	14	0440CST			0	0			Hail(0.75)
--------------	----	---------	--	--	---	---	--	--	------------

#### Benton County

Gentry	16	0445CST			0	0	50K		Thunderstorm Wind (G61)
--------	----	---------	--	--	---	---	-----	--	-------------------------

Thunderstorm winds estimated at 70 miles an hour caused damage in Gentry. A 30 foot chunk of a metal roof was torn off an office building and a box trailer from a semi-trailer was blown on its side. Numerous trees and tree limbs were blown down.

#### Benton County

Gravette	16	0445CST			0	0			Thunderstorm Wind (G61)
----------	----	---------	--	--	---	---	--	--	-------------------------

Thunderstorm winds estimated at 70 miles an hour blew down some trees.

#### Benton County

Siloam Spgs	16	0450CST			0	0	100K		Thunderstorm Wind (G61)
-------------	----	---------	--	--	---	---	------	--	-------------------------

Thunderstorm winds estimated at 70 miles an hour blew down trees. The trees fell on some homes and vehicles.

#### Crawford County

Leecreek	16	0450CST			0	0			Thunderstorm Wind (G61)
----------	----	---------	--	--	---	---	--	--	-------------------------

Thunderstorm winds estimated at 70 miles an hour blew down several trees along Highway 220

#### Sebastian County

Rye Hill	16	0500CST			0	0			Thunderstorm Wind (G52)
----------	----	---------	--	--	---	---	--	--	-------------------------

Thunderstorm winds estimated at 60 miles an hour blew down large tree limbs.

#### Washington County

Farmington	16	0500CST			0	0			Thunderstorm Wind (G61)
------------	----	---------	--	--	---	---	--	--	-------------------------

Thunderstorm winds estimated at 70 miles an hour blew trees down.

#### Benton County

Bentonville	16	0505CST			0	0	700K		Thunderstorm Wind (G70)
-------------	----	---------	--	--	---	---	------	--	-------------------------

Thunderstorm winds estimated at 80 miles an hour did significant damage in Bentonville. The brick walls of part of a business were reduced to rubble as the winds were let in as its garage door was blown open. Nine homes in the southeast part of town's Walnut Ridge subdivision were damaged. Large tree limbs were blown down throughout the city with many of them knocking down power lines and causing power outages.

#### Washington County

Fayetteville	16	0505CST			0	0			Thunderstorm Wind (G61)
--------------	----	---------	--	--	---	---	--	--	-------------------------

Thunderstorm winds estimated at 70 miles an hour blew numerous trees down.

### ARKANSAS, Northwest

#### Benton County

**Bella Vista**      **16**      **0510CST**                     **0**      **0**      **25K**           **Thunderstorm Wind (G61)**  
 Thunderstorm winds estimated at 70 miles an hour blew down several trees. One tree fell on a home and penetrated the roof.

#### Benton County

**Pea Ridge**      **16**      **0515CST**                     **0**      **0**      **100K**           **Thunderstorm Wind (G70)**  
 Thunderstorm winds estimated at 80 miles an hour blew down hundreds of trees from near the west side to the north side of Pea Ridge. The trees blocked may roads. One large tree limb which was blown down penetrated the roof of a home. In addition, the wind was so strong it shook a mobile home enough that it's windows shattered. Many power poles and power lines were also knocked down.

#### Carroll County

**Eureka Spgs**      **16**      **0530CST**                     **0**      **0**                     **Thunderstorm Wind (G52)**  
 Thunderstorm winds estimated at 60 miles an hour blew down large tree limbs.

#### Madison County

**5 N Witter**      **16**      **0530CST**                     **0**      **0**                     **Thunderstorm Wind (G61)**  
 Thunderstorm winds estimated at 70 miles an hour blew down a few trees.

#### Sebastian County

**Jenny Lind**      **16**      **1545CST**      **0.2**      **25**      **0**      **0**                **Tornado (F0)**  
**1546CST**  
 Trained spotters reported a brief tornado touchdown near Jenny Lind. No damage was reported

#### Franklin County

**2 S Branch**      **16**      **1551CST**                     **0**      **0**                     **Thunderstorm Wind (G61)**  
 Thunderstorm winds estimated at 70 miles an hour blew several trees down.

#### Crawford County

**Kibler**      **16**      **1600CST**                     **0**      **0**                     **Thunderstorm Wind (G61)**  
 Thunderstorm winds estimated at 70 miles an hour blew several trees down.

#### Madison County

**5 S Witter**      **16**      **1703CST**                     **0**      **0**      **10K**           **Flash Flood**  
**1830CST**  
 Heavy thunderstorm rains caused a rural road to be washed out.

### OKLAHOMA, Eastern

#### Osage County

**4 W Grainola**      **01**      **0018CST**                     **0**      **0**                     **Hail(0.88)**

#### Delaware County

**5 NW Grove**      **01**      **0415CST**                     **0**      **0**                     **Thunderstorm Wind (G52)**

#### Mayes County

**2 NE Salina**      **01**      **1527CST**                     **0**      **0**                     **Hail(0.88)**

#### Cherokee County

**1 NE Hulbert**      **01**      **1530CST**                     **0**      **0**                     **Hail(1.25)**

#### Cherokee County

**4 W Tahlequah**      **01**      **1530CST**                     **0**      **0**                     **Hail(1.75)**  
**1542CST**

Multiple reports of large hail were received from 4 miles west of Tahlequah between 430 pm cdt and 442 pm cdt. The hail sizes ranged from nickel size to golf ball size and were reported by amateur radio, spotters and the emergency management

<b>Wagoner County</b>									
1 SSE Okay to 2.5 SSE Okay	01	1655CST 1700CST	1.5	120	0	0	150K		Tornado (F1)

A F1 tornado touched down south southeast of Okay and crossed into Muskogee county. The damage was characterized by a few damaged to destroyed mobile homes and several damaged to destroyed outbuildings and sheds. Trees and utility poles were also blown down. The few single family houses in the path sustained lesser damage.

<b>Delaware County</b>									
3 N Jay	01	1659CST			0	0			Hail(1.75)
<b>Muskogee County</b>									
3.2 WNW Ft Gibson to 3 WNW Ft Gibson	01	1700CST 1701CST	0.5	100	0	0	20K		Tornado (F1)

The tornado which touched down south southeast of Okay in Wagoner county continued into Muskogee county to the west northwest of Fort Gibson. The damage was mainly done to utility poles and trees.

<b>Muskogee County</b>									
2.5 W Ft Gibson to 3 SW Ft Gibson	01	1704CST 1709CST	1.7	80	0	0	300K		Tornado (F1)

This tornado shortly followed the previous tornado near Fort Gibson. The damage path started within the property of the port of Muskogee and crossed the Arkansas River before dissipating near U. S. Highway 62. Several large trees were damaged or uprooted. Multiple buildings lost sections of sheet metal and overhead doors. A few examples of light structural damage were found.

<b>Cherokee County</b>									
6.5 SW Hulbert	01	1705CST			0	0			Hail(1.75)
<b>Le Flore County</b>									
3 W Panama	01	1711CST			0	0			Hail(0.75)
<b>Pushmataha County</b>									
2 N Nashoba to 2 NNE Nashoba	01	1714CST 1715CST	0.5	75	0	0	3K		Tornado (F1)

A tornado briefly touched down north of Nashoba uprooting numerous trees and knocking down power lines

<b>Pushmataha County</b>									
9 E Nashoba	01	1725CST			0	0			Hail(2.00)
<b>Cherokee County</b>									
Tahlequah	01	1730CST 1915CST			0	0			Flash Flood

Rainfall estimated by radar to be in excess of 3 inches caused drainage ditches in the city of Tahlequah to overflow and cover a few roads.

-----------	----	---------	--	--	---	---	--	--	------------

#### Pittsburg County

Hartshorne	04	1633CST			0	0			Hail(1.75)
------------	----	---------	--	--	---	---	--	--	------------

#### Delaware County

3 E Chloeta	04	1640CST			0	0			Thunderstorm Wind (G61)
-------------	----	---------	--	--	---	---	--	--	-------------------------

Thunderstorm winds estimated at 70 miles an hour blew down a large tree.

#### Craig County

Bluejacket	04	1645CST			0	0			Thunderstorm Wind (G70)
------------	----	---------	--	--	---	---	--	--	-------------------------

Thunderstorm winds estimated at 80 miles an hour blew down numerous trees.

#### Delaware County

1 S Zena	04	1645CST			0	0			Thunderstorm Wind (G61)
----------	----	---------	--	--	---	---	--	--	-------------------------

Thunderstorm winds estimated at 70 miles an hour blew a large tree down.

#### Delaware County

1 NW Grove	04	1647CST			0	0	100K		Thunderstorm Wind (G70)
------------	----	---------	--	--	---	---	------	--	-------------------------

Thunderstorm winds estimated at 80 miles an hour blew down between 150 and 200 trees along Grand Lake to the northwest of Grove. The winds also damaged several boat docks and did minor damage to some houses and cabins.

#### Delaware County

Grove	04	1650CST			0	0	50K		Thunderstorm Wind (G61)
-------	----	---------	--	--	---	---	-----	--	-------------------------

Thunderstorm winds estimated at 70 miles an hour blew down 5 trees. A few of the trees blocked streets and fell on houses causing damage.

#### Latimer County

Wilburton	04	1650CST			0	0			Hail(2.75)
-----------	----	---------	--	--	---	---	--	--	------------

Baseball size hail fell in Wilburton. Damage was done to roofs, windows and cars. An estimate of the dollar amount of the damage was unavailable.

#### Latimer County

Wilburton	04	1650CST			0	0			Thunderstorm Wind (G52)
-----------	----	---------	--	--	---	---	--	--	-------------------------

Thunderstorm winds estimated at 60 miles an hour blew down several large tree limbs.

#### Ottawa County

2 S Narcissa to 2 NE Fairland	04	1655CST 1705CST	5	880	0	0	250K		Tornado (F1)
----------------------------------	----	--------------------	---	-----	---	---	------	--	--------------

An F1 tornado occurred in central Ottawa county from south of Narcissa to northeast of Fairland. No injuries or fatalities occurred; however, significant damage was observed. Two mobile homes were destroyed and several other homes, barns and outbuildings were damaged. The tornado ended when another supercell thunderstorm moving northeast out of Delaware county collided with it. The storm reorganized and later produced the Pierce City, Missouri tornado.

#### Latimer County

May 2003

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons		Estimated Damage		Character of Storm
					Killed	Injured	Property	Crops	

### OKLAHOMA, Eastern

A F3 tornado touched down northwest of Fairfax and traveled northeast across rural areas of Osage county before dissipating just west of Bowring. The one community it did effect was Little Chief.

Oil tanks southwest of Little Chief were taken off their foundation and rolled a quarter of a mile. In Little Chief a RV was destroyed and there was considerable tree damage. In a field not far from Little Chief seven cattle were killed. Along Highway 60 to the northeast of Little Chief a house and garage were completely swept from their foundation. At the same location a barn was destroyed and three horses were killed. Further to the northeast as the tornado entered the Tall Grass Prairie Preserve, it produced additional significant tree damage. Throughout the path of the tornado up to 30 power poles were blown down causing power outages across a significant part of Osage county. The F3 damage was classified at two locations: the first was near where the cattle were killed--this was the only location that showed the scouring of grasses along the path; the second location was in the western sections of the Tall Grass Prairie Reserve where an Oak Forest was heavily damaged. Although the one house was swept off its foundation, it was clear that this house's anchoring failed prematurely. On this property there were several examples, especially with vegetation, that hinted that this stretch of the tornado track was probably less than F3 intensity

1 W Depew to 1 NE Depew	09	2325CST 2331CST	2	300	0	0	25K		<b>Tornado (F1)</b>
----------------------------	----	--------------------	---	-----	---	---	-----	--	---------------------

A F1 tornado touched down just west of Depew and traveled to just northeast of Depew before dissipating. Although a few structures along the fringe of the path sustained minor damage, the damage was mostly characterized by many snapped and uprooted trees. This tornado was produced by the same storm that produced tornadoes in the northern Oklahoma City area at Stroud in Lincoln county as the storm moved to the northeast along I-44.
