### ARKANSAS, Northwest

<b>ARZ019-029</b>	<b>Crawford - Sebastian</b>								
	<b>01</b>	<b>0000CST</b>			<b>0</b>	<b>0</b>			<b>Flood</b>
	<b>14</b>	<b>1900CST</b>							
	The Arkansas River at Van Buren started the month of May above its flood stage of 22 feet following a crest of 24.0 feet on April 28. The river remained above flood stage until 800 PM CDT on May 14.								
<b>Benton County</b>									
<b>Siloam Spgs</b>	<b>04</b>	<b>0200CST</b>			<b>0</b>	<b>0</b>			<b>Thunderstorm Wind (G52)</b>
<b>Benton County</b>									
<b>Centerton</b>	<b>04</b>	<b>0230CST</b>			<b>0</b>	<b>0</b>	<b>15K</b>		<b>Thunderstorm Wind</b>
	Small outbuildings were destroyed, trees were blown down, and pull-behind trailers were either damaged or moved.								
<b>Washington County</b>									
<b>Prairie Grove</b>	<b>04</b>	<b>0820CST</b>			<b>0</b>	<b>0</b>			<b>Thunderstorm Wind (G52)</b>
<b>Carroll County</b>									
<b>Beaver</b>	<b>04</b>	<b>0900CST</b>			<b>0</b>	<b>0</b>	<b>0.10K</b>		<b>Thunderstorm Wind</b>
	Several large tree limbs were blown down.								
<b>Madison County</b>									
<b>Clifty</b>	<b>04</b>	<b>0915CST</b>			<b>0</b>	<b>0</b>	<b>0.10K</b>		<b>Thunderstorm Wind</b>
	Several large tree limbs were blown down.								
<b>Benton County</b>									
<b>Highfill</b>	<b>04</b>	<b>1135CST</b>			<b>0</b>	<b>1</b>			<b>Lightning</b>
	A man was injured when lightning struck a company trailer that he was unloading at the Northwest Arkansas Regional Airport.								
<b>Crawford County</b>									
<b>6 NW Natural Dam to 8 NNW Natural Dam</b>	<b>04</b>	<b>1216CST 1220CST</b>	<b>3</b>	<b>175</b>	<b>0</b>	<b>0</b>	<b>3K</b>		<b>Tornado (F3)</b>
	A significant long-track tornado first developed 4 miles west of Short, OK, moving northeast to about 7 miles southwest of Fayetteville, AR. This tornado reached its peak strength as an F3 tornado as it clipped extreme southeast Adair County, OK. This tornado then clipped extreme northwest Crawford County, passing through an unpopulated, forested area in the Ozark National Forest. An aerial survey by NWS personnel just west of the Oklahoma/Arkansas state line west of Natural Dam revealed that every tree in a hardwood forest was completely leveled. Property damage listed with this entry reflects tree damage sustained in Crawford County, while the F-rating reflects the tornado's peak strength in Adair County, OK.								
<b>Washington County</b>									
<b>3 WSW Odell to 7 SW Fayetteville</b>	<b>04</b>	<b>1220CST 1237CST</b>	<b>22</b>	<b>175</b>	<b>0</b>	<b>0</b>	<b>80K</b>		<b>Tornado (F3)</b>
	A significant long-track tornado first touched down 4 miles west of Short, OK, and tracked 39 miles to a point about 7 miles southwest of Fayetteville, AR. Along the way, this tornado passed through portions of four counties but mainly affected sparsely-populated areas. It reached its peak strength as an F3 tornado in extreme southeast Adair County, OK, but mainly caused F2 damage in Washington County, AR. Fortunately, this tornado lifted before it reached heavily-populated Fayetteville.								
	The tornado's first real property damage took place at a property between the Hogeye and Strickland communities, where the tornado peeled off the roof to a home, shattered windows, uprooted trees, destroyed two barns, and wiped a porch off of its stone foundation. Numerous trees were blown down along County Roads 212 and 214.								
	Only a few miles away in the Cove Creek community, south of Prarie Grove, the tornado blew off a home's roof, demolished an enclosed garage, and destroyed a barn. A flagpole was bent almost in half, and a road sign ended up wrapped around a mailbox. The tornado uprooted a 200-year old walnut tree which then fell onto a pickup truck. About a half-dozen other oak and cedar trees on one property dating back at least 150 years were snapped or uprooted. The Washington County Judge's Office supplied a picture of a church near Cove Creek that was moved off of its foundation. Several poultry buildings along the tornado's path were also damaged.								
	The property damage listed in this entry is for just that damage sustained in Washington County, while the F-rating reflects the tornado's peak strength in Adair County, OK.								
<b>Washington County</b>

<b>6 E Springdale</b>	<b>04</b>	<b>1400CST</b>			<b>0</b>	<b>0</b>			<b>Thunderstorm Wind (G52)</b>
<b>Sebastian County</b>									
<b>Hackett</b>	<b>04</b>	<b>1415CST</b>			<b>0</b>	<b>0</b>			<b>Hail (0.75)</b>
Location: the greater Hackett/Bonanza area									
<b>Crawford County</b>									
<b>5 NW Natural Dam</b>	<b>04</b>	<b>1425CST</b>			<b>0</b>	<b>0</b>	<b>1K</b>		<b>Thunderstorm Wind</b>
Numerous trees were blown down.									
<b>Crawford County</b>									
<b>Davidson</b>	<b>04</b>	<b>1430CST</b>			<b>0</b>	<b>0</b>	<b>9K</b>		<b>Thunderstorm Wind</b>
A car was blown off of a road. Numerous trees were blown down.									
<b>Benton County</b>									
<b>Countywide</b>	<b>04</b>	<b>1600CST 1700CST</b>			<b>0</b>	<b>0</b>			<b>Flash Flood</b>
Water covered numerous roads. Flooding forced the evacuation of a family from their manufactured home off of AR Hwy 94 in the Monte Ne area, east of Rogers. Water ran over other roads in the Cave Springs area.									
Summary of events for May 4 1999:									
Following a record tornado outbreak in Oklahoma on May 3-4, a significant severe weather outbreak affected northwest Arkansas on the morning and afternoon of May 4 as a vigorous upper level system continued to move slowly east.									
While there were many individual storms in the area on May 4, the most outstanding storm of the day was a supercell thunderstorm that spawned a tornado in Sequoyah County, OK, which then moved northeast for 39 miles to near Fayetteville. Other storms produced damaging winds and large hail.									
<b>Crawford County</b>									
<b>Van Buren</b>	<b>11</b>	<b>2230CST</b>			<b>0</b>	<b>0</b>			<b>Thunderstorm Wind (G52)</b>
<b>Sebastian County</b>									
<b>Lavaca</b>	<b>11</b>	<b>2230CST</b>			<b>0</b>	<b>0</b>	<b>0.10K</b>		<b>Thunderstorm Wind</b>
A large tree was uprooted in Lavaca.									
Summary of events for May 11 1999:									
A slow-moving cold front was located in a north-south fashion across eastern Oklahoma on the evening of May 11. Numerous severe thunderstorms formed in eastern Oklahoma that evening. While most of the storms were confined to eastern Oklahoma, one thunderstorm moved eastward through the Arkansas River valley and into western Arkansas. This storm mainly produced marginally severe winds late in the evening.									
<b>ARZ019-029</b>									
<b>Crawford - Sebastian</b>									
	<b>16</b>	<b>0200CST</b>			<b>0</b>	<b>0</b>			<b>Flood</b>
	<b>20</b>	<b>2100CST</b>							
The Arkansas River at Van Buren rose above its flood stage of 22 feet at 300 AM CDT on May 16. The river crested at a level of 24.0 feet at 200 PM CDT on May 18 before falling back below flood stage at 1000 PM CDT on May 20.									
<b>Benton County</b>									
<b>Gentry</b>	<b>17</b>	<b>0200CST</b>			<b>0</b>	<b>0</b>	<b>3K</b>		<b>Thunderstorm Wind</b>
Around 300 AM CDT in Gentry, winds left uprooted trees, downed power lines, and blocked roads.

### ARKANSAS, Northwest

<b>Benton County</b> <b>Siloam Spgs</b>	17	0200CST			0	0	15K		<b>Thunderstorm Wind</b>
Around 300 AM CDT in Siloam Springs, a 60-70 foot tall tree blew onto a parked motor home on Oak Crest Drive.									
<b>Crawford County</b> <b>Natural Dam</b>	17	0215CST			0	0	0.50K		<b>Thunderstorm Wind</b>
A church sign was blown down.									
<b>Washington County</b> <b>Harmon to Tontitown</b>	17	0215CST 0220CST			0	0	10K		<b>Thunderstorm Wind</b>
High winds uprooted several trees and damaged power lines in Harmon around 315 AM CDT. The wind snapped nine poles and damaged at least three transformers. In Tontitown, around 320 AM CDT, a restaurant had its awning blown off, and a tree fell onto a mobile home. Several other trees were blown down in Tontitown.									
<b>Benton County</b> <b>Gravette</b>	17	0220CST			0	0	6K		<b>Thunderstorm Wind</b>
A U-Haul trailer was blown over, and power lines were blown down in Gravette.									
<b>Washington County</b> <b>Cincinnati</b>	17	0225CST			0	0	0.60K		<b>Thunderstorm Wind</b>
Several large trees were uprooted, and many large tree limbs were blown down.									
<b>Washington County</b> <b>Prairie Grove</b>	17	0225CST			0	0	0.50K		<b>Thunderstorm Wind</b>
Trees were blown down in Prairie Grove.									
<b>Benton County</b> <b>Highfill</b>	17	0230CST			0	0	60K		<b>Thunderstorm Wind</b>
High winds blew over an 84,000-square-foot airplane hangar under construction at the Northwest Arkansas Regional Airport. There was also minor damage to an existing hangar at the airport. The ASOS at the airport measured a peak wind gust of 46 knots (53 mph).									
<b>Washington County</b> <b>Fayetteville</b>	17	0230CST			0	0	20K		<b>Thunderstorm Wind</b>
High winds blew the roof off of a clothing store in the 2300 block of College Avenue in Fayetteville. The ASOS at the Fayetteville Regional Airport (Drake Field) measured a peak wind gust of 47 knots (54 mph).									
<b>Benton County</b> <b>Rogers</b>	17	0240CST			0	0	5K		<b>Thunderstorm Wind</b>
At least a half-dozen trees were blown down in Rogers. County road crews had to clear at least 50 trees and tree limbs that were blown into roads throughout Benton County.									
<b>Washington County</b> <b>Elkins</b>	17	0245CST			0	0	0.50K		<b>Thunderstorm Wind</b>
Trees and tree limbs were blown down near Elkins.									
<b>Benton County</b> <b>Wareagle</b>	17	0247CST			0	0	0.50K		<b>Thunderstorm Wind</b>
Several trees were blown down in War Eagle.									
<b>Franklin County</b> <b>Fern</b>	17	0253CST			0	0	0.50K		<b>Thunderstorm Wind</b>
Trees were blown down across highways in Fern.									
<b>Carroll County</b> <b>Eureka Spgs</b>	17	0257CST			0	0	2K		<b>Thunderstorm Wind</b>
Trees and power lines were blown down in Eureka Springs.									
<b>Carroll County</b> <b>Grandview</b>	17	0303CST			0	0	1.5K		<b>Thunderstorm Wind</b>

### ARKANSAS, Northwest

Trees were blown down over a fence in Grandview.

**Madison County**  
1 N Clifty

17 0305CST 0 0 2K Thunderstorm Wind

Winds toppled a large tree north of Clifty into a large power line, knocking out power to about 4,500 electric customers.

**Madison County**  
5 N Huntsville to  
Huntsville

17 0305CST 0 0 1K Thunderstorm Wind

Trees were blown down across highways in the Huntsville area. Several trees were also blown down in Withrow Springs State Park, 5 miles north of Huntsville.

**Carroll County**  
Berryville

17 0325CST 0 0 3K Thunderstorm Wind

There were numerous reports of trees across roadways throughout Carroll County.

**Washington County**  
3 SW Farmington

17 0959CST 0.5 50 0 0 0.50K Tornado (F0)

There was a brief tornado touchdown in a rural area southwest of Farmington. Damage was limited to trees.

**Washington County**  
Fayetteville

17 1000CST 0 0 10K Thunderstorm Wind

Siding was blown off several houses in Fayetteville. Tree limbs were also blown down.

**Madison County**  
8 NE Forum

17 1007CST 0 0 0.50K Thunderstorm Wind

Trees were blown down near the Ozark Science Center.

**Washington County**  
Elkins

17 1010CST 0 0 0.50K Thunderstorm Wind

Trees and tree limbs were blown down in Elkins.

**Crawford County**  
Van Buren

17 1015CST 0 0 0.10K Thunderstorm Wind

Tree limbs were blown down in Van Buren.

**Carroll County**  
8 NE Green Forest

17 1030CST 0 0 0.10K Thunderstorm Wind

Several large tree limbs were blown down northeast of Green Forest.

**Benton County**  
Rogers

17 1051CST 0 0 1K Thunderstorm Wind

A tree was blown onto power lines near 14th and West Oak Streets in Rogers, knocking out power to 2,000 electric customers.

**Crawford County**  
2 N Alma

17 1130CST 0 0 50K Lightning

A bolt of lightning knocked the door and several bricks off of a house north of Alma. The bolt ultimately lit fire to and destroyed the house. The house was located in the 7500 block of Mote Road off of US Hwy 71 north of Alma.

**Sebastian County**  
Countywide

17 1420CST  
1800CST 0 0 10K Flash Flood

Flood waters seeped into the basement of the Greenwood city hall around 325 PM CDT. High water forced the closing of AR Hwy 60 east of AR Hwy 252 around 645 PM CDT. Several streets in Fort Smith were closed by high water around 500 PM CDT. The northeastern part of downtown Fort Smith was especially hard-hit by high water, where Phoenix Avenue and the Jenny Lind Road intersection nearly had to be closed.

**Franklin County**  
Branch

17 1438CST 0 0 Hail (0.75)

**Franklin County**  
South Portion

17 1600CST  
1700CST 0 0 10K Flash Flood

A bridge washed out on Chaffee Road in Charleston when water covered the road to four feet deep.

### ARKANSAS, Northwest

<b>Benton County</b>									
5 E Lowell	23	0225CST			0	0	0.50K		Thunderstorm Wind

Several trees were blown down east of Lowell.

<b>Madison County</b>									
Clifty	23	0225CST			0	0	0.10K		Thunderstorm Wind

A few large tree limbs were blown down in Clifty.

<b>Washington County</b>									
Springdale	23	0230CST			0	0	0.50K		Thunderstorm Wind

Several trees were blown down in Springdale.

Summary of events for May 23 1999:

A nocturnal bow-echo MCS moved south out of Kansas and Missouri early on the morning of May 23. These storms were gradually weakening as they moved southeast and dropped below severe levels by the time they moved south of the Boston Mountains. The primary threat from these storms were marginally severe wind gusts.

<b>Benton County</b>									
Siloam Spgs	31	0600CST			0	0	0.10K		Thunderstorm Wind

Tree limbs were blown down in Siloam Springs.

<b>Washington County</b>									
2 N Odell	31	0640CST			0	0			Thunderstorm Wind (G52)

Summary of events for May 31 1999:

A nocturnal bow-echo MCS moved southward across eastern Oklahoma and far western Arkansas early on the morning of May 31. These storms mainly produced marginally severe winds close to the Oklahoma border. The storms weakened as they moved south of the Boston Mountains.

### OKLAHOMA, Eastern

<b>OKZ064&gt;066</b>									
			<b>Creek - Okfuskee - Okmulgee</b>						
	01	0000CST			0	0			Flood
	11	0800CST							

The Deep Fork River at Beggs started the month of May above its flood stage of 18 feet following a crest of 27.1 feet on April 29. The river remained above flood stage until 900 AM CDT on May 11.

<b>Creek County</b>									
Shamrock	03	2122CST			0	0			Hail (1.00)

<b>Creek County</b>									
3 W Milfay to 1 NW Milfay	03	2146CST 2150CST	2	150	0	0	2K		Tornado (F3)

This tornado started out in central Lincoln County, travelling northeast and passing through the eastern Lincoln County town of Stroud. This tornado caused considerable damage in Stroud, most notably to the Tanger Factory Outlet Center. For more information on the Lincoln County portion of this tornado, refer to the Tornado entry for the Central and Western Oklahoma Storm Data compiled by the National Weather Service Office in Norman. This tornado continued on into Creek County, travelling on the ground for two miles before lifting just northwest of Milfay. This tornado reached F3 strength at its peak in Lincoln County but had started weakening by the time it entered Creek County. The path length listed with this Tornado entry only incorporates that part of the tornado path in Creek County. Fortunately in Creek County, the tornado travelled through an unpopulated rural area and was only responsible for tree damage.

<b>Creek County</b>									
Sapulpa	03	2202CST			0	0			Hail (0.75)

<b>Okmulgee County</b>									
Dewar	03	2230CST			0	0			Hail (0.75)

<b>Osage County</b>									
10 WNW Hominy	03	2235CST			0	0	0.50K		Thunderstorm Wind

A power pole was blown down between Hominy and Fairfax.

----------	------	----------------------------	---------------------------	--------------------------	--------------------------------	---------------------------------	---------------------------------	------------------------------	--------------------

### OKLAHOMA, Eastern

#### Osage County

10 NW Hominy	03	2245CST			0	0	0.50K		Thunderstorm Wind
--------------	----	---------	--	--	---	---	-------	--	-------------------

A power pole was blown down.

#### Creek County

2 WSW Sapulpa to Sapulpa	03	2258CST 2300CST	2	50	0	0	40K		Tornado (F0)
--------------------------	----	--------------------	---	----	---	---	-----	--	--------------

An F0 tornado moved through Sapulpa's central business district on Dewey Street, causing mostly cosmetic damage in the form of broken storefront windows and glass on the sidewalk.

#### Creek County

2 NE Sapulpa to 6 NE Sapulpa	03	2308CST 2318CST	5.5	150	0	0	6.5M		Tornado (F1)
------------------------------	----	--------------------	-----	-----	---	---	------	--	--------------

The same system that earlier caused a destructive tornado in Stroud and a less destructive tornado in southwest Creek County produced an F1 tornado which first touched down in the north side of Sapulpa near OK Hwy 97 and Interstate 44. The tornado then skipped through an industrial area before moving across I-44. From there, the tornado travelled northeast parallel to and just south of the New Sapulpa Road (OK Hwy 66), taking out a string of homes and businesses before eventually reaching Tulsa County. This tornado tracked a total of 7 miles, 5.5 miles of which was in Creek County. The Hilton Mobile Home Park was especially hard-hit, where about 15 mobile homes were damaged or destroyed. Twenty-four residents of the mobile home park were treated on the scene for minor injuries, but none required a hospital visit. Needless to say, this tornado also blew down numerous power lines and trees. All in all, along its path in Creek County, this tornado heavily damaged 12 homes and caused light to moderate damage to about 150 others. Twenty mobile homes were heavily damaged, and 25 businesses were damaged. Total property damage in Creek County is estimated at \$5.5 million. For more information on this tornado, see the Tulsa County Tornado entry for information on the last 1.5 miles of its track.

#### Mayes County

Adair	03	2315CST			0	0			Hail (0.75)
-------	----	---------	--	--	---	---	--	--	-------------

#### Tulsa County

Tulsa	03	2318CST 2321CST	1.5	150	0	0	2M		Tornado (F1)
-------	----	--------------------	-----	-----	---	---	----	--	--------------

A tornado that originally touched down on the north side of Sapulpa traveled northeast, eventually reaching Tulsa County. This tornado caused considerable damage in several neighborhoods on the southwest side of the city of Tulsa. The majority of the damage was confined to an area roughly bounded on the east by 33rd West Avenue, on the west by 41st West Avenue, on the north by Union Avenue, and on the south by 65th Street South. The most publicized damage occurred at the Carbondale Assembly of God Church (2135 West 51st Street), where the second story of the building was reduced to rubble. Remington Elementary School (2524 W. 53rd Street) was damaged to the point where students had to finish the last two weeks of class elsewhere. The West Regional Library (2224 W. 51st Street) lost about one-third of its roof, and Fire Station #26 sustained minor damage. Four industrial businesses sustained damage, and 70 homes were damaged by the tornado. Damage in Tulsa County is estimated at \$2 million. For more information on the Creek County portion of this tornado, see the Tornado entry for Creek County. The combined path length through Creek and Tulsa Counties is 7 miles.

#### Okfuskee County

Pharoah	03	2325CST			0	0			Thunderstorm Wind (G52)

1 S Boynton	04	0059CST	0.5	50	0	0			Tornado (F0)
-------------	----	---------	-----	----	---	---	--	--	--------------

There was a brief tornado touchdown south of Boynton.

#### Cherokee County

2.5 WNW Hulbert to 3 N Hulbert	04	0100CST 0101CST	3	100	0	0	35K		Tornado (F1)
-----------------------------------	----	--------------------	---	-----	---	---	-----	--	--------------

An F1 tornado cut a swath through Cherokee County to the north and west of Hulbert. One mile north of OK Hwy 51 at a point two miles west of Hulbert, a house trailer was damaged, and trees and power lines were blown down. Three miles north of Hulbert near Blackbird Hill, numerous trees were uprooted, several sheds were destroyed, a mobile home was damaged, and roofs were torn off of several barns.

#### Osage County

11 SW Skiatook	04	0105CST			0	0	0.10K		Thunderstorm Wind
----------------	----	---------	--	--	---	---	-------	--	-------------------

Two large tree limbs were blown down at the Zink Ranch.

#### Okfuskee County

Weleetka	04	0130CST			0	0	0.10K		Thunderstorm Wind
----------	----	---------	--	--	---	---	-------	--	-------------------

Several tree limbs were blown down.

#### Okmulgee County

Henryetta to Dewar	04	0130CST 0300CST			0	0	10K		Flash Flood
-----------------------	----	--------------------	--	--	---	---	-----	--	-------------

Several roads in Dewar and Henryetta were closed between 230 AM and 500 AM CDT. Coal Creek overflowed its banks and closed OK Hwy 266 for a time around 1000 to 1030 AM CDT. Seven houses near the tennis courts on Lake Road had to be evacuated. A home on South Fourt in Henryetta was flooded.

#### Okmulgee County

1 W Henryetta	04	0140CST			0	0	2K		Thunderstorm Wind
---------------	----	---------	--	--	---	---	----	--	-------------------

A newspaper clipping showed a picture of a large tree that fell on a home just west of Henryetta. Otherwise, numerous tree limbs were blown down.

#### Okfuskee County

2 N Clearview	04	0145CST			0	0	10K		Thunderstorm Wind
---------------	----	---------	--	--	---	---	-----	--	-------------------

A barn was about 75 percent destroyed.

#### Cherokee County

Eldon	04	0200CST			0	0	1K		Thunderstorm Wind
-------	----	---------	--	--	---	---	----	--	-------------------

Several large trees had their tops twisted out.

#### Cherokee County

1 E Tahlequah	04	0200CST			0	0	5K		Lightning
---------------	----	---------	--	--	---	---	----	--	-----------

Lightning blew shingles from a house roof and caused a fire in the home's attic. The time of this event is a gross estimate.

<b>Wagoner County</b> 1 SE Wagoner	04	0207CST			0	0			Hail (0.88)
<b>Wagoner County</b> Wagoner	04	0207CST			0	0	1K		Thunderstorm Wind
A sheriff's deputy on patrol on US Hwy 69 near Baker's Catfish Restaurant had his car spun completely around by strong winds. The deputy reported that the car nearly turned over.									
<b>Adair County</b> 4 NE Proctor	04	0211CST	0.5	50	0	0	1K		Tornado (F1)
A brief F1 tornado touchdown caused many trees to be uprooted and broken.									
<b>Adair County</b> 5 N Proctor	04	0215CST			0	0	0.50K		Thunderstorm Wind
Numerous large tree limbs were blown down.									
<b>Adair County</b> Westville	04	0245CST			0	0	2K		Thunderstorm Wind
There was a swath of tree damage stretching across Adair County from roughly Eldon in Cherokee County to Westville in Adair County.									
<b>Osage County</b> 4 N Hominy	04	0630CST	0.5	50	0	0			Tornado (F0)
An amateur radio spotter reported a brief tornado touchdown north of Hominy.									
<b>Latimer County</b> 2 S Bengal	04	0645CST			0	0	0.10K		Thunderstorm Wind
A large tree was blown over.									
<b>Le Flore County</b> 1 S Panama	04	0730CST			0	0			Hail (0.75)
<b>Osage County</b> 5 W Hominy	04	0812CST			0	0			Thunderstorm Wind (G52)
<b>Osage County</b> 5 W Hominy	04	0816CST			0	0			Hail (0.75)
<b>Osage County</b> 1 NE Pawhuska	04	0840CST			0	0	125K		Thunderstorm Wind
Roofs were blown off houses, windows were knocked out of buildings, four trailers were turned over, porches were knocked off houses, and numerous trees were blown down. Some of the worst damage occurred in Indian Camp.									
<b>Washington County</b> 1 S Copan	04	0900CST			0	0	135K		Thunderstorm Wind
Significant damage was reported at several farms and residences on the south side of Copan. There were a total of four houses that received chimney and roof damage. Three barns were either heavily damaged or destroyed. A well house was destroyed, and a well's utility pole was broken. Several outbuildings and sheds were either heavily damaged or destroyed, and numerous trees were snapped or uprooted. One tree fell on a pasture fence, destroying it. A travel trailer and pop-up trailer at separate residences were destroyed.									
<b>Pushmataha County</b> 13 W Clayton	04	0950CST	0.5	50	0	0	0.50K		Tornado (F1)
An F1 tornado touched down briefly near the Pushmataha/Pittsburg County line off of OK Hwy 43 in an unpopulated area 13 miles west of Clayton. After causing some tree damage, the tornado crossed briefly in Pittsburg County before lifting.									
<b>Pittsburg County</b> 18 S Hartshorne	04	0951CST	0.5	50	0	0	0.50K		Tornado (F1)
An F1 tornado touched down briefly near the Pittsburg/Pushmataha County line along OK Hwy 43. The tornado crossed the county line in an unpopulated area, causing only tree damage.

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons Killed	Number of Persons Injured	Estimated Damage Property	Estimated Damage Crops	Character of Storm
----------	------	----------------------------	---------------------------	--------------------------	--------------------------------	---------------------------------	---------------------------------	------------------------------	--------------------

### OKLAHOMA, Eastern

#### Le Flore County Cowlington

04	1121CST	0.5	75	0	0	110K		<b>Tornado (F1)</b>
----	---------	-----	----	---	---	------	--	---------------------

An F1 tornado touchdown in Cowlington. The tornado damaged eight single-family homes, destroyed two mobile homes, and damaged two trailers. A mattress was lodged in a tree behind a mobile home in which its roof was peeled back. The tornado also uprooted several trees.

#### Tulsa County Sperry

04	1125CST			0	0			<b>Hail (0.75)</b>
----	---------	--	--	---	---	--	--	--------------------

#### Nowata County Nowata

04	1130CST 1230CST			0	0			<b>Flash Flood</b>
----	--------------------	--	--	---	---	--	--	--------------------

Creeks around Nowata ran over some roads.

#### Tulsa County North Portion

04	1130CST 1230CST			0	0	20K		<b>Flash Flood</b>
----	--------------------	--	--	---	---	-----	--	--------------------

In Collinsville, the intersection of 5th and Main Streets had to be closed when two to three feet of water came quickly rushing onto the road. Water was one to two feet deep inside two downtown Collinsville businesses. Several businesses along 146th Street North also closed.

High water flooded quite a few streets in the city of Tulsa.

OK Hwy 11 north and south of Skiatook was closed by high water.

#### Sequoyah County Hanson to 2 S Akins

04	1134CST 1137CST	2	80	0	0	90K		<b>Tornado (F1)</b>
----	--------------------	---	----	---	---	-----	--	---------------------

An F1 tornado touchdown south of Akins destroyed several barns, damaged several house roofs, and caused extensive tree damage. One house had half of its roof crushed by a tree, and outbuildings and a tractor shed were destroyed. Another home was damaged by trees and blowing debris, and a mobile home was moved off of its foundation. Another mobile home was crushed by a tree.

#### Sequoyah County 4 W Short to 5 N Short

04	1154CST 1204CST	6.5	175	0	0	7K		<b>Tornado (F3)</b>
----	--------------------	-----	-----	---	---	----	--	---------------------

A significant long-track tornado first touched down in Sequoyah County 4 miles west of Short, travelling northeast for 39 miles to a point about 7 miles southwest of Fayetteville, AR. This tornado eventually reached its peak as an F3 tornado in extreme southeast Adair County. In Sequoyah County, this tornado travelled across a sparsely-populated part of the county, causing mostly tree damage. Property damage listed with this entry is just for the portion of the tornado in Sequoyah County, while the F-rating reflects the peak strength of the tornado in Adair County.

#### Adair County 13 SSE Stilwell to 10 SE Stilwell

04	1204CST 1216CST	7	175	0	0	7K		<b>Tornado (F3)</b>
----	--------------------	---	-----	---	---	----	--	---------------------

A significant long-track tornado first touched down in Sequoyah County 4 miles west of Short, moving northeast for 39 miles to a point about 7 miles southwest of Fayetteville, AR. This tornado clipped the extreme southeast portion of Adair County as the tornado reached its peak strength as an F3 tornado. Fortunately, the tornado travelled across an unpopulated portion of Adair County. However, an aerial survey by NWS personnel over extreme southeast Adair County revealed that every tree in a hardwood forest was completely leveled.

#### Cherokee County Tahlequah

04	1215CST			0	0	0.20K		<b>Thunderstorm Wind</b>
----	---------	--	--	---	---	-------	--	--------------------------

Several large tree limbs were blown down in Tahlequah, and a large tree was blown down across a road 4 miles east of Tahlequah.

#### Muskogee County Muskogee

04	1215CST			0	0			<b>Hail (0.88)</b>
----	---------	--	--	---	---	--	--	--------------------

Location: on the southwest side of Muskogee

#### Pushmataha County 2 W Cloudy

04	1255CST			0	0	1.5K		<b>Thunderstorm Wind</b>
----	---------	--	--	---	---	------	--	--------------------------

Trees and power lines were blown down.

#### Cherokee County Tahlequah

May 1999

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons Killed	Number of Persons Injured	Estimated Damage Property	Estimated Damage Crops	Character of Storm
----------	------	----------------------------	---------------------------	--------------------------	--------------------------------	---------------------------------	---------------------------------	------------------------------	--------------------

### OKLAHOMA, Eastern

Several roads in Tahlequah were closed. One house and a day care center near the intersection of Tahlequah-North Wilson each took in about 5 inches of water. Baker Road near OK Hwy 51 was closed for a time.

#### **Choctaw County Ft Towson**

04	1300CST				0	0	5K		<b>Thunderstorm Wind</b>
----	---------	--	--	--	---	---	----	--	--------------------------

Tree limbs were blown down in Fort Towson. One large tree limb fell on a historical home.

#### **Craig County Vinita**

04	1300CST 2000CST				0	0	4M		<b>Flash Flood</b>
----	--------------------	--	--	--	---	---	----	--	--------------------

An estimated 5 to 8 inches of rain in a short time caused Big Cabin Creek on the west side of Vinita and Bull Creek on the east side of Vinita to overflow their banks and enter 54 homes. Water was five feet deep in some homes. 30 homes were evacuated. The hardest-hit areas were located along North Second to North Fourth Streets, near Sequoyah and Tahlequah. According to the police chief, all of the homes around North Second Street were devastated. Later in the evening, water from Bull Creek drained into Big Cabin Creek, flooding out several homes in the Westwood area. Long-time residents say that the last time Bull Creek flooded any homes was in 1961, though they said the flooding this time was much more serious. Property damage was estimated at \$4 million. Swift-moving floodwater from Bull Creek swept a pickup truck off of Eastern State Road.

All four lanes of US Hwy 60 were closed by high water 1/2 mile west of Vinita. There were also reports of flooding around Welch

#### **Latimer County Wilburton**

04	1300CST 1400CST				0	0			<b>Flash Flood</b>
----	--------------------	--	--	--	---	---	--	--	--------------------

There was street flooding, and one street had to be closed.

#### **Mayes County Adair**

04	1300CST 1400CST				0	0			<b>Flash Flood</b>
----	--------------------	--	--	--	---	---	--	--	--------------------

Several county roads were flooded.

#### **Mayes County 3 W Langley**

04	1300CST				0	0	4K		<b>Thunderstorm Wind</b>
----	---------	--	--	--	---	---	----	--	--------------------------

Windows were blown out of a brick house, a large old tree was uprooted, and a pontoon boat was tossed from its trailer.

#### **Mayes County 1 W Pryor**

04	1300CST				0	0	50K		<b>Lightning</b>
----	---------	--	--	--	---	---	-----	--	------------------

Lightning lit fire to and destroyed a new home in the Grand Prairie Estates west of Pryor. The time in this entry is a very rough estimate.

#### **Ottawa County Miami**

04	1300CST 1400CST				0	0	110K		<b>Flash Flood</b>
----	--------------------	--	--	--	---	---	------	--	--------------------

Several homes had water damage in Miami when Tar Creek overflowed its banks. Residents of the Scotty Court area were evacuated after Tar Creek began rising. The baseball diamond at Northeast Oklahoma A&M was badly damaged when 3 feet of water covered the field.

In Commerce, 20 homes and businesses, including city hall, were flooded. In Quapaw, floodwaters entered a nursing home. At Wyandotte, Fairland, and Afton, roads were closed in each of those communities. Up to 20 streets at one time were closed in Miami, particularly north of town.

#### **Pittsburg County Hartshorne**

04	1300CST 1400CST				0	0			<b>Flash Flood</b>
----	--------------------	--	--	--	---	---	--	--	--------------------

There was street flooding in Hartshorne.

#### **Sequoyah County Central Portion**

04	1315CST 1430CST				0	0			<b>Flash Flood</b>
----	--------------------	--	--	--	---	---	--	--	--------------------

Water covered several county roads.

#### **Wagoner County Porter**

04	1315CST 1415CST				0	0			<b>Flash Flood</b>
----	--------------------	--	--	--	---	---	--	--	--------------------

Several roads were closed due to high water.

#### **Latimer County Bengal**

04	1330CST				0	0	0.10K		<b>Thunderstorm Wind</b>
----	---------	--	--	--	---	---	-------	--	--------------------------

Several large tree limbs were blown down in Bengal.

------------------	----	---------	--	--	---	---	--	--	--------------------

Summary of events for May 3-4 1999:

Following a week-long blocking weather pattern, a strong upper level trough finally moved out of the southwestern U.S. Interactions with a dryline in western Oklahoma and a slow-moving cold front brought the largest tornado outbreak in Oklahoma history from the afternoon of May 3 through the afternoon of May 4. Most notable was the F5 tornado that moved through southern parts of the Oklahoma City metro area. While the loss of life and the heaviest property damage was limited to central Oklahoma, eastern Oklahoma got into the act with a significant number of tornadoes.

While there were dozens of individual storms on May 3 and 4, there are two storms in eastern Oklahoma that stand out as outstanding. The first outstanding storm moved northeast along the I-44 corridor on the evening of May 3, causing F3 damage to Stroud in Lincoln County. The storm went on to cause significant F1 damage in Sapulpa and southwestern portions of the city of Tulsa and millions of dollars in damage.

The second outstanding storm got its start in southeast Oklahoma well south of McAlester. This storm moved northeast across Pushmataha, Latimer, Haskell, LeFlore and Sequoyah Counties, producing several damaging tornadoes along the way. The final tornado touched down in Sequoyah County and tracked 39 miles to near Fayetteville, AR, producing F3 damage in an unpopulated forest in Adair County.

Following a very wet April that saturated area grounds, another slow-moving weather system made flash flooding another serious problem to deal with as most rainfall quickly ran off into creeks, streams and mainstem rivers. One flash flood in Vinita caused millions of dollars in damage following the flooding of dozens of homes.

### OKZ058

#### Ottawa

<b>04 09</b>		0700CST 0100CST			0	0			<b>Flood</b>
------------------	--	--------------------	--	--	---	---	--	--	--------------

The Neosho River at Commerce rose above its flood stage of 15 feet at 800 AM CDT on May 4. The river crested at a level of 20.0 feet at 300 AM CDT on May 6 before falling back below flood stage at 200 AM CDT on May 9.

## Storm Data and Unusual Weather Phenomena

May 1999

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons Killed	Number of Persons Injured	Estimated Damage Property	Estimated Damage Crops	Character of Storm
----------	------	----------------------------	---------------------------	--------------------------	--------------------------------	---------------------------------	---------------------------------	------------------------------	--------------------

### OKLAHOMA, Eastern

**Muskogee County**  
**Oktaha**

17	0115CST				0	3	165K		<b>Thunderstorm Wind</b>
----	---------	--	--	--	---	---	------	--	--------------------------

Strong winds, likely in excess of 75 miles an hour, destroyed five mobile homes and damaged another six mobile homes in the Oktaha Mobile Home Park. There were three injuries serious enough to warrant hospitalization. At least three vehicles were crushed by homes knocked off their foundations. Numerous trees were also blown down.

**Mcintosh County**  
**Texanna**

17	0120CST				0	0			<b>Hail (1.00)</b>
----	---------	--	--	--	---	---	--	--	--------------------

**Muskogee County**  
**Muskogee**

17	0120CST				0	0	100K		<b>Thunderstorm Wind</b>
----	---------	--	--	--	---	---	------	--	--------------------------

Two businesses had their roofs blown off. Other buildings had shingles blown off their roofs, while there were numerous trees and tree limbs blown down. The majority of damaged homes were in the east side of town, though the west side had its share of tree damage.

**Haskell County**  
**Whitefield**

17	0130CST				0	0	0.10K		<b>Thunderstorm Wind</b>
----	---------	--	--	--	---	---	-------	--	--------------------------

Several large tree limbs were blown down.

**Latimer County**  
**7 NNW Wilburton**

17	0130CST				0	0	0.20K		<b>Thunderstorm Wind</b>
----	---------	--	--	--	---	---	-------	--	--------------------------

Numerous tree limbs were blown down in Robbers Cave State Park.

**Wagoner County**  
**7 ENE Wagoner**

17	0135CST				0	0	65K		<b>Thunderstorm Wind</b>
----	---------	--	--	--	---	---	-----	--	--------------------------

In the Grand View Addition along White Horn Cove Road, northeast of Wagoner, twelve permanent homes received minor damage. Most residences were damaged when trees were blown onto the homes. However, the winds were also directly responsible for minor roof damage and for blowing several awnings away. One home had a power line resting against it. Other areas in the northeastern portion of Wagoner County had downed tree limbs, including the city of Wagoner.

**Mayer County**  
**4 N Locust Grove**

17	0142CST				0	0	0.10K		<b>Thunderstorm Wind</b>
----	---------	--	--	--	---	---	-------	--	--------------------------

A large tree was uprooted.

**Cherokee County**  
**5 W Hulbert to  
Hulbert**

17	0145CST 0150CST				0	0	10K		<b>Thunderstorm Wind (G52)</b>
----	--------------------	--	--	--	---	---	-----	--	--------------------------------

At 245 AM CDT, there was a public report of 60 mph winds 5 miles west of Hulbert. Near Hulbert, a mobile home was knocked off of its foundation.

In Sequoyah State Park, winds demolished an old water tower, though park officials had been planning to demolish it anyway. The winds also blew over 30 to 40 famed pine trees lining the entrance to Western Hills Lodge at the park. An uprooted tree damaged thousands of dollars in damage to the state park's new office and visitor's center, which were still under construction.

**Mayer County**  
**Pryor**

17	0145CST				0	0	20K		<b>Thunderstorm Wind (G57)</b>
----	---------	--	--	--	---	---	-----	--	--------------------------------

Two pickup trucks and a car were totaled when winds blew trees over onto them.

**Sequoyah County**  
**3 S Sallisaw to  
Sallisaw**

17	0150CST				0	0	10K		<b>Thunderstorm Wind</b>
----	---------	--	--	--	---	---	-----	--	--------------------------

South of Sallisaw, a trailer was blown 15 feet into an electric pole. A nearby chicken house suffered serious damage, with 50-60 chickens perishing. Numerous tree limbs were blown down in Sallisaw.

**Cherokee County**  
**Tahlequah**

17	0155CST				0	0	30K		<b>Thunderstorm Wind (G61)</b>
----	---------	--	--	--	---	---	-----	--	--------------------------------

Numerous trees and tree limbs were blown over throughout Cherokee County, including Tahlequah. Many trees were blown into electrical lines. Strong winds also caused heavy damage to the county's north solid waste transfer station.

**Adair County**  
**5 WNW Westville to  
Westville**

17	0205CST 0210CST				0	0	25K		<b>Thunderstorm Wind (G61)</b>

### OKLAHOMA, Eastern

At 305 AM CDT, the Oklahoma mesonet site west of Westville measured a wind gust to 70 miles an hour. These winds then moved east to Westville, blowing down numerous trees and limbs in Westville. On Buffington Road, several limbs blocked traffic during the morning commute time. Numerous trees blew into power lines. Utility officials reported some of the worst damage in the Bell community, where whole oak trees were uprooted and roofs were lost from a number of barns.

--------	----	--------------------	--	--	---	---	--	--	-------------

A street in Poteau was closed by high water.

Summary of events for May 16-17 1999:

A cluster of thunderstorms formed on the evening of May 16 over western Oklahoma. This cluster of storms started moving quickly east and formed into a large bow echo, a radar signature indicative of damaging winds. Indeed, damaging winds swept across nearly all of eastern Oklahoma late on the evening of May 16 and early on the morning of May 17. The apex of the bow, or the area of strongest winds, moved from near Okemah through Muskogee County and on to Westville. While there were numerous reports of wind damage, Muskogee County saw the most serious damage, including several injuries when winds toppled mobile homes. Marginally severe hail also accompanied this line of storms.

After sunrise, another round of more widely scattered thunderstorms moved east out of central Oklahoma and moved across the eastern third of the state. These storms produced more damaging winds and marginally severe hail.

During the afternoon, an outflow boundary turned up stationary across southeast Oklahoma and was the focus for more thunderstorm development. The afternoon storms mainly produced marginally severe hail. In addition, the stationary movement of the outflow boundary allowed thunderstorm cells to train behind each other, leading to locally heavy rainfall.

#### OKZ076

##### Le Flore

17		2200CST			0	0			Flood
19		1700CST							

The Poteau River at Panama rose above its flood stage of 29 feet at 1100 PM CDT on May 17. The river crested at a level of 33.3 feet at 600 PM CDT on May 18 before falling back below flood stage at 600 PM CDT on May 19.

### OKLAHOMA, Eastern

There were numerous reports of dime to quarter-sized hail, and one report of tennis ball-sized hail, in southwest Tulsa and north Jenks from 415 to 432 PM CDT. Most of the hail was confined to the north by 45th Street South, to the south by 81st Street South, to the east by Lewis Avenue, and to the west by the Creek County line. The following is a list of individual hail reports:

Time (CDT)	Location	Hail Size (Diameter)
415 PM	61st and 33rd W. Ave.	0.88"
417 PM	71st and US Hwy 75	0.88"
418 PM	61st and 33rd W. Ave.	0.88"
420 PM	63rd and Peoria	1.75"
422 PM	61st and 49th W. Ave.	1.00"
423 PM	I-44 and US Hwy 75	1.00"
424 PM	71st and Lewis	1.00"
429 PM	49th btwn Havard/Lewis	0.75"
430 PM	57th and Riverside	1.00"
432 PM	71st and Riverside	2.50"

<b>Adair County</b>								
Westville	22	1540CST		0	0			Hail (0.75)
<b>Osage County</b>								
Barnsdall	22	1630CST		0	0			Hail (1.00)
<b>Pawnee County</b>								
Maramec	22	1630CST		0	0			Hail (1.00)

7 WSW Tahlequah	23	0400CST 0500CST			0	0	10K		Flash Flood
-----------------	----	--------------------	--	--	---	---	-----	--	-------------

A road was washed out.

#### Okmulgee County

Countywide	23	0400CST 0500CST			0	0			Flash Flood
------------	----	--------------------	--	--	---	---	--	--	-------------

OK Hwy 16 and US Hwy 75 were closed by water that was 3-4 feet deep on the roadways.

Summary of events for May 23 1999:

A nocturnal "bow echo" MCS moved south out of Kansas early on the morning of May 23. As with most bow echoes, strong winds were the primary threat with this system, though there was some marginally severe hail with the most intense thunderstorms in the leading line of storms. This line of storms gradually weakened as it moved southward and had mostly dropped below severe limits by the time it moved south of I-40.

#### OKZ060

##### Tulsa

23	0900CST			0	0			Flood
24	0500CST							

The Bird Creek at Sperry rose above its flood stage of 21 feet at 1000 AM CDT on May 23. The river crested at a level of 23.3 feet at 600 PM CDT before falling back below flood stage at 600 AM CDT on May 24.

#### OKZ067-070

##### Wagoner - Muskogee

23	1000CST			0	0			Flood
24	1200CST							

The Arkansas River at Muskogee rose above its flood stage of 28 feet at 1100 AM CDT on May 23. The river crested at a level of 28.8 feet at 1100 PM CDT before falling back below flood stage at 100 PM CDT on May 24.

#### OKZ064

##### Creek

23	1200CST			0	0			Flood
24	0600CST							

The Polecat Creek at Sapulpa rose above its flood stage of 21 feet on the afternoon of May 23. The river crested at a level of 24.8 feet that evening before falling back below flood stage on the morning of May 24.
