

## 2020 AMS NWS Partners Meeting Agenda - External

**Date:** January 16th, 2020

**Location:** The Westin Boston Waterfront, Grand Ballroom A, Boston, MA

**Time:** 8:00am - 2:30pm

**Theme: Challenges within the Weather, Water, and Climate Enterprise: Past, Present, and into the Future**

### Objectives:

- Clarify and leverage the unique roles and capabilities of Weather Enterprise partners to respond to the increasing demand for actionable weather, water, and climate information.
- Expand public-private partnerships that enhance private Enterprise innovations, strengthen relationships, eliminate barriers, and share best practices to focus on continuous improvements.
- Identify emerging issues and future opportunities for collaboration within the Weather Enterprise.
- Discuss specific Weather Enterprise service areas, identify any gaps in those services, and brainstorm ideas to fill those service gaps by developing “action items” from these discussions for participants to collaboratively work on beyond the Partners Meeting.
- Provide NWS updates and share information on timely topics and operational issues of interest to the broader Weather Enterprise and gain relevant feedback.

### Participants:

- Weather, Water, and Climate Enterprise partners
- Federal agency partners
- Local Boston / New England area partners
- NWS leadership (AA/DAA, Portfolio Directors, Field Directors)
