## HORSE RIDERS AND HANDLERS!!

Have you been injured by a horse, whether mounted or on the ground? The University of Kentucky and the UK HealthCare want to know your story! You are being invited to take part in a research study conducted by the University of Kentucky to gather information about horse-related accidents and the resulting injuries that riders and handlers sustain. We anticipate this survey will take about 15-20 minutes of your time. We hope that the results will help us improve the safety of the sport we so love!! To access the survey, click/tap below!

**Horse related injuries and pain survey**

This is a survey regarding safety around...
