Name: Mark Kime, Supervisor, Shoshone 2 HD

Date: June 10, 2021

Phone Number: 208-731-2796

Email Address: shd2@gwestoffice.net

Specific Route: 600 Road West and Dietrich/Butte Rd

Mr. Kime expressed his HD concern with 129,000 pound routes relating impact of heavier and increased CMV operating on LHD routes that are not designed to handle additional weight. Also, discussed cost of allowing larger/heavier CMV and maintaining LHD routes – LHD are not funded to the level activities be requested.

Name: Monica Hampton Date: June 14, 2021

Specific Route: US-93

Ms. Hampton expressed two concerns; winter weather driving in the vicinity of Darlington, ID and road congestion in summer tourism months. Concern regard driving conditions in winter months with larger trucks could impact the safety of drivers along US93. During summer months heavy volume of tourist transit Arco to Challis section of US93. Concerned that without left turn bays traffic will get backed up both north and south as traffic waiting at a non-turn lane/signalized turn into U.S. Calcium plant.
