(Revised September 14, 2011)

Foreword

In December 2010, the Education Assessment and Accountability Review Subcommittee approved a research agenda for the Office of Education Accountability that included the *Kentucky District Data Profiles*.

This publication is intended to offer legislators and the general public a convenient source of information about each Kentucky school district. Wherever possible, longitudinal data are included to track trends over time. In addition, a dictionary of terms is included that defines each variable and identifies each data source. The publication is updated annually.

Kentucky District Data Profiles

Introduction

The Education Assessment and Accountability Review Subcommittee approved the Office of Education Accountability's annual *Kentucky District Data Profiles* report in December 2010. The report provides a one-stop source of comprehensive district-level education data, including comparative data for all districts. The profiles are organized by the following topical areas:

- Overview and Trends
- Staffing
- Finance
- Performance

At the end of the district profiles, a Kentucky-wide profile is included for comparative purposes. This is followed by five tables that sort districts by adjusted average daily attendance, free and reduced-price lunch percentage, per-pupil state revenue, per-pupil property assessment, and junior composite ACT average for the 2010 school year. These tables are provided to allow profile users to identify similar districts for comparative purposes.

The Overview and Trends section provides data on school enrollment, end-of-year adjusted average daily attendance, student demographics, educational attainment, and school discipline. The data are provided in raw numbers and, in appropriate cases, percentages. In the Attainment subsection, the dropout data require a caveat; in 2006 the Auditor of Public Accounts completed a performance audit titled *Kentucky's Dropout Rate* that questioned the validity of the Kentucky Department Education's (KDE) dropout data.

The Staffing section includes district data on certified personnel, classified personnel, and full-time equivalent teachers. Additional data on average salaries, years of teaching experience, and rank are provided. A data table that breaks down the salary schedule for teachers by rank completes the section.

The Finance section covers both per-pupil current expenditures and revenues by source. District data are contrasted to state averages for current expenditures by function. Revenues include federal, state, and local sources. Each district's contingency percent and end-of-year general fund balance is reported.

The Performance section includes data from EXPLORE, PLAN, and ACT; Advanced Placement exams and trends; and a breakdown of the 2009 Kentucky Core Content Tests.

The appendix includes a breakdown of district data for comparative purposes. These data are examples of how data can be grouped by district leaders to compare trends across districts of similar size, demographics, or performance.

Overall, the *Kentucky District Data Profiles* provide a snapshot of each school district. While additional data are available and useful, the data chosen were deemed to be the most concise indicators of district trends. Given differences in district size, geography, and socioeconomic conditions, the profiles are not conducive to direct comparisons of district effectiveness. The profiles present a broad array of indicators across multiple areas of interest. The Office of Education Accountability invites users of the profiles to provide feedback for future versions.

Changes in this Version

In an attempt to include valuable district-level data, several minor changes have been made to the *2010 Kentucky District Data Profiles*. For each individual district, comparative data for the entire state has been removed. The aggregate state level data are provided for each variable at the end of the report. In the Staffing section of the report, the variable Average Administrator Salary was removed from the profiles because of concern about inaccurate classification of some administrators. OEA staff will work with KDE during 2011 to more narrowly define the administrator variable. It has been replaced with the variable “Salary and Benefits as a Percentage of General Fund Expenditures.” This variable is useful for exploring district capacity to absorb budget cuts and their potential effects on school staffing.

Another change in this edition is the inclusion of the average freshman graduation rate (AFGR) used for federal No Child Left Behind accountability purposes. The AFGR is typically lower than the graduation rate reported in earlier versions of the *District Data Profiles*.

Use of the Profiles

KDE encourages districts to annually review data for inaccuracies. If KDE confirms data have been inaccurately reported, the data are changed and updated on KDE’s Web site. As a result, the data in the Office of Education Accountability’s annual *Kentucky District Data Profiles* report may vary slightly from year to year. The Data Dictionary section includes the date and source for each piece of data reported.

When possible, longitudinal data are presented in order to show trends over time. Sources for all the data used in the *Kentucky District Data Profiles* and the methodology used for calculating outcomes are included below.

In some cases, data are limited. The following symbols are used to designate incomplete data:

- Dashes are used when a ratio measure, such as dropout percentage, is below 0.5 percent.

N/A The data element N/A indicates no available data or not applicable. This may be the case when a district only offers kindergarten through grade 8. For example, Anchorage Independent does not have a high school; therefore, its profile does not contain ACT scores.

0 A data point that is zero reflects the lack of a count for that variable. For instance, a district may not levy a certain tax or may not have any migrant students. For both of those data points, a zero populates the field.

The profiles use traditional fiscal year nomenclature to identify the appropriate year to which the data apply. For example, the 2009-2010 fiscal or school year is referred to as 2010, the 2008-2009 fiscal year is 2009, and so on. School district fiscal years start on July 1 and end on June 30. A total of 174 districts are profiled in the report.

Data Dictionary

The data sources used in the *Kentucky District Data Profiles* are included below with brief definitions.

Overview and Trends

A1 Schools: The number of schools under administrative control of a principal or head teacher and eligible to establish a school-based decision making council. An A1 school is not a program operated by or as a part of another school.

Source: KY Dept. of Ed. School Category Listing. Unpublished CD-ROM, April 2011.

EOY AADA: According to KRS 157.320 (1), the end-of-year adjusted average daily attendance is determined by the aggregate days attended by pupils in a public school, adjusted for weather-related low-attendance days, if applicable, divided by the actual number of days the school is in session, after the 5 days with the lowest attendance have been deducted.

Membership: Membership data are reported twice in the Overview and Trends section of the report. A pupil is a member of a class or school from the date of enrollment until the date of withdrawal. Membership data in the demographic profile table do not include exceptional children contained in the Superintendent's Annual Attendance Report. Membership data under the student attendance bar graph include self-contained exceptional children but do not include preschool students.

Calendar: The number of instructional days and hours that children attend school. Regular days include any day that had at least 6 hours of instruction. Short days are early-release days not having at least 6 hours. Because schools within a district may have different schedules, a minimum and maximum number of instructional hours have been included for the district.

Demographic Profile

Free & Reduced-\$ Lunch: Children from families with incomes at or below 130 percent of the poverty level are eligible for free lunches. Those with incomes between 130 percent and 185 percent of the poverty level are eligible for reduced-price lunches. The percentage of

students who receive free and reduced-price lunches was calculated by dividing the number of students receiving free and reduced-price lunches by the membership count under student attendance.

LEP: Limited English Proficiency refers to an individual

- (A) who is between ages 3 through 21;
- (B) who is enrolled or preparing to enroll in an elementary or secondary school;
- (C) (i) who was not born in the United States or whose native language is a language other than English;
(ii)(I) who is a Native American or Alaska Native, or a native resident of the outlying areas; and (II) who comes from an environment where a language other than English has had a significant impact on the individual's level of English Language Proficiency; or
(iii) who is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant; and
- (D) whose difficulties in listening, speaking, reading, or writing the English language may be sufficient to deny the individual—
 - (i) the ability to meet the State's proficient level of achievement on State assessments described in section 1111(b)(3);
 - (ii) the ability to successfully achieve in classrooms where the language of instruction is English; or
 - (iii) the opportunity to participate fully in society.

Migrant: Children qualify for the migrant program because of the lifestyle of their parents, such as moving across school district, county, or state borders or between the United States and Mexico for the purpose of seeking temporary and/or seasonal employment in agriculture or commercial fishing. Children must move with their parents or move to join their parents within 365 days of the qualifying move of the parents. Children may also qualify if they move without their parents and are seeking temporary and/or seasonal employment in qualifying activities.

Attainment

No Child Left Behind Act Average Freshman Graduation Rate: The average freshman graduation rate replaces the formerly used leaver rate to determine high school graduate rates. The formula for calculating the AFGR is as follows:

$$\frac{\text{The number of graduates with diploma in four years} + \text{graduates with diploma but IEP allowed 4+ years} \times 100}{\text{Grade 9 Membership '06-07 School Year} + \text{Grade 10 Membership '07-08 School Year}} \text{ divided by } 2$$

The AFGR is a transitional measure and will be used for federal accountability purposes for the 2011, 2012, and 2013 school years. AFGR data are broken down by student race and gender at the district level.

Occupational Tax: An occupational license tax not to exceed 0.5 percent or 0.75 percent for counties with 300,000 or more residents on salaries or wages of individuals for work done in a county, and on the net profits of all businesses, professions, or occupations from activities conducted in a county.

Original Growth Nickel: School districts that met the criteria in KRS 157.621 were able to levy an additional 5-cent tax for building-fund needs prior to April 24, 2008. Tax revenue from this source is not equalized by the state.

Source: KY Dept. of Ed. 2009-10 Local District Tax Levies. <<http://education.ky.gov/KDE/Administrative+Resources/Finance+and+Funding/School+Finance/SEEK+and+Tax+Rates/Taxes.htm>> (accessed May 10, 2011).

Equalized Growth Nickel: Districts that continued to meet the growth criteria had the option to levy a second growth nickel prior to April 24, 2008. This second nickel is referred to as the equalized growth nickel because the General Assembly has provided additional equalization funding for those districts that have levied both the original nickel and the second growth nickel.

Recallable Nickel: School districts have the opportunity to levy a 5-cent tax for building needs. This tax, the recallable nickel, is subject to public petitions for recall and has historically received retroactive equalization.

Levied Equivalent Rate: Because local school districts use and implement different types and amounts of taxes, KDE converts the districts' local tax efforts to a standardized tax rate called a levied equivalent rate. The rate is a district's total tax revenue divided by its total assessment, which includes property and motor vehicles.

Equalized Facility Funding: School districts that have levied at least a 10-cent equivalent tax rate for building purposes or have debt service of at least a 10-cent equivalent tax rate as of April 24, 2005, receive equalization for 20 years provided they receive no other nickel equalization other than the Facilities Support Program of Kentucky.

Per-pupil Assessment: Assessment divided by EOY AADA with growth. The assessment contains property valuations for real estate, personal property, public service real estate, public service personal property, and motor vehicles. The assessment is certified to the Kentucky Department of Education by the Department of Revenue.

SEEK Distribution: The Support Education Excellence in Kentucky (SEEK) funding formula was enacted as part of the 1990 Kentucky Education Reform Act and is distributed on a per-pupil basis (known as the guaranteed base). Districts receive additional funds (called add-ons) for at-

risk students, exceptional students, home and hospital instruction, students with limited English proficiency, and transportation.

State Fiscal Stabilization Funds: The State Fiscal Stabilization Fund (SFSF) is part of the American Recovery and Reinvestment Act and is a one-time appropriation of approximately \$48.6 billion that the U.S. Department of Education has awarded governors to help stabilize state and local budgets in fiscal years 2010 and 2011. In Kentucky, these moneys will maintain the SEEK funding at its 2009 fiscal year level for 2010 and 2011. SFSF moneys will be used to fill the gap between the amount of state funds appropriated for SEEK and the amount needed to guarantee the \$3,866 base.

The impact of the SFSF moneys can be seen in the chart titled Per-pupil Revenues by Source. School districts were instructed by the KDE to code SFSF moneys as federal revenue (Fund 2); however, 29 districts incorrectly coded SFSF moneys as state revenue. OEA staff has reclassified these revenues to ensure accurate and consistent coding. For the purposes of this report, the following districts' FY 2010 SFSF moneys have been reclassified as federal revenue.

Performance

EXPLORE, PLAN, and ACT: The Educational Planning and Assessment System (EPAS) data used in the *Kentucky District Data Profiles* are from the 2010 school year. In 2006, Senate Bill 130 mandated, beginning with the 2009 school year, that all Kentucky public school students be required to take the EPAS tests administered by ACT, Inc. Eighth-grade students take EXPLORE, 10th-grade students take PLAN, and 11th-grade students take the ACT. The EPAS series of exams is designed to help students measure their current academic development, explore career/training options, and make plans for the remaining years of high school and post-graduation years. ACT data reflect the total number of public school examinees and exclude private schools.

ACT exam results are reported for two groups: high school graduates who took the ACT voluntarily, as in past years, and 11th-graders who were mandated to take the ACT in conformance with SB 130.

The average EPAS results for English, reading, math, and science and the composite score are reported in the profiles. EXPLORE, PLAN, and ACT scores are also broken down by the percentage of district students meeting or surpassing ACT, Inc.-derived college readiness benchmarks, listed below.

Subject	EPAS Benchmark		
	EXPLORE	PLAN	ACT
English	13	15	18
Reading	15	17	21
Mathematics	17	19	22
Science	20	21	24

AP Analysis: Advanced Placement (AP) test scores range from 1 to 5; and scores of 3 or above are considered eligible for college credit (passing). The average AP exam score and the percentage of students passing an AP exam are reported. Students in the 10th grade or higher are eligible to take AP exams.

Kentucky Core Content Tests: A major component of the Commonwealth Accountability Testing System. The profiles provide results in the subject areas of reading, mathematics, science, and writing. Results of these tests are used to evaluate the school program in the state accountability system. The results from the reading and math content areas are also used to meet federal testing and reporting requirements of the No Child Left Behind Act.
