Paid for with state funds. Available in alternative format by request.

Foreword

In December 2012, the Education Assessment and Accountability Review Subcommittee approved a research agenda for the Office of Education Accountability that included the *Kentucky District Data Profiles*.

This publication is intended to offer legislators and the general public a convenient source of information about each Kentucky school district. Wherever possible, longitudinal data are included to track trends over time. In addition, a dictionary of terms defines each variable and identifies each data source. The publication is updated annually.

Kentucky District Data Profiles

Introduction

The Education Assessment and Accountability Review Subcommittee approved the Office of Education Accountability's annual *Kentucky District Data Profiles* report in December 2012. The report provides a one-stop source of comprehensive district-level education data, including comparative data for all districts. The profiles are organized by the following topical areas:

- Overview and Trends
- Staffing
- Finance
- Performance

At the end of the district profiles, a Kentucky-wide profile is included for comparative purposes. This is followed by five tables that sort districts by adjusted average daily attendance, free and reduced-price lunch percentage, per-pupil state revenue, per-pupil property assessment, and junior composite ACT average for the 2012 school year. These tables allow profile users to identify similar districts for comparative purposes.

The Overview and Trends section provides data on school enrollment, end-of-year adjusted average daily attendance, student demographics, educational attainment, and school discipline. The data are provided in raw numbers and, in appropriate cases, percentages.

The Staffing section includes district data on certified personnel, classified personnel, and full-time equivalent teachers. Additional data on average salaries, years of teaching experience, and rank are provided. A data table that breaks down the salary schedule for teachers by rank completes the section.

The Finance section covers both per-pupil current expenditures and revenues by source. District data are contrasted to state averages for current expenditures by function. Revenues include federal, state, and local sources. Each district's fund balance percentage and end-of-year general fund balance are reported.

The Performance section includes data from EXPLORE, PLAN, and ACT; Advanced Placement exams and trends; and a breakdown of the 2012 Next-Generation Learners assessment scores.

Additional appendices break down district data for comparative purposes. These appendices show how data can be grouped to compare trends across districts of similar size, demographics, or performance.

Overall, the *Kentucky District Data Profiles* provide a snapshot of each school district. While additional data are available and useful, the data chosen were deemed to be the most concise indicators of district trends. Given differences in district size, geography, and socioeconomic conditions, the profiles are not conducive to direct comparisons of district effectiveness. The

profiles present a broad array of indicators across multiple areas of interest. The Office of Education Accountability invites users of the profiles to provide feedback for future versions.

Changes In This Version

In the Performance section, the state accountability model changed from the Kentucky Core Content to Next-Generation Learners. Also, ACT Graduates has been deleted.

Use Of The Profiles

The Kentucky Department of Education (KDE) encourages districts to annually review data for inaccuracies. If KDE confirms data have been inaccurately reported, the data are changed and updated on KDE's website. As a result, the data in the Office of Education Accountability's annual *Kentucky District Data Profiles* report may vary slightly from year to year. The Data Dictionary section includes the date and source for each piece of data reported.

When possible, longitudinal data are presented in order to show trends over time. Sources for all the data used in the *Kentucky District Data Profiles* and the methodology used for calculating outcomes are included below.

In some cases, data are limited. The following symbols are used to designate incomplete data:

- Dashes are used when a ratio measure, such as dropout percentage, is below 1 percent.

N/A The data element N/A indicates no available data or not applicable. This may be the case when a district only offers kindergarten through grade 8. For example, Anchorage Independent does not have a high school; therefore, its profile does not contain ACT scores.

0 A data point that is 0 reflects an observed measure of zero for that variable. For instance, a district may not levy a certain tax or may not have any migrant students. For both of those data points, a 0 populates the field.

The profiles use traditional fiscal year nomenclature to identify the appropriate year to which the data apply. For example, the 2011-2012 fiscal or school year is referred to as 2012, the 2010-2011 fiscal year is 2011, and so on. School district fiscal years start on July 1 and end on June 30. A total of 174 districts are profiled in the report.

Data Dictionary

The data sources used in the *Kentucky District Data Profiles* are included below with brief definitions.

Overview And Trends

A1 Schools: The number of schools under administrative control of a principal or head teacher and eligible to establish a school-based decision-making council. An A1 school is not a program operated by or as a part of another school.

Source: Kentucky. Dept. of Educ. *School Category Listing*. Unpublished CD-ROM. April 2013.

EOY AADA: According to KRS 157.320 (1), the end-of-year adjusted average daily attendance is determined by the aggregate days attended by pupils in a public school, adjusted for weather-related low-attendance days, if applicable, divided by the actual number of days the school is in session, after the 5 days with the lowest attendance have been deducted.

Membership: Membership data are reported twice in the Overview and Trends section of the report. A pupil is a member of a class or school from the date of enrollment until the date of withdrawal. Membership data under the student attendance bar graph include self-contained exceptional children but do not include preschool students.

Source: Kentucky. Dept. of Educ. *Historical SAAR Data*. Web. July 30, 2013.

Calendar 2012: The number of instructional days and hours that children attend school. Regular days include any day that had at least 6 hours of instruction. Short days are early-release days not having at least 6 hours. Because schools within a district may have different schedules, a minimum and maximum number of instructional hours have been included for the district.

Demographic Profile

Free & Reduced Lunch: Children from families with incomes at or below 130 percent of the poverty level are eligible for free lunches. Those with incomes between 130 percent and 185 percent of the poverty level are eligible for reduced-price lunches. The percentage of students who receive free and reduced-price lunches was calculated by dividing the number of students receiving free and reduced-price lunches by the membership count under student attendance.

LEP: Limited English proficiency refers to an individual

- (A) who is between ages 3 through 21;
- (B) who is enrolled or preparing to enroll in an elementary or secondary school;
- (C) (i) who was not born in the United States or whose native language is a language other than English;

- (ii)(I) who is a Native American or Alaska Native, or a native resident of the outlying areas; and (II) who comes from an environment where a language other than English has had a significant impact on the individual's level of English language proficiency; or
- (iii) who is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant; and
- (D) whose difficulties in listening, speaking, reading, or writing the English language may be sufficient to deny the individual—
 - (i) the ability to meet the state's proficient level of achievement on state assessments;
 - (ii) the ability to successfully achieve in classrooms where the language of instruction is English; or
 - (iii) the opportunity to participate fully in society.

Migrant: Children qualify for the migrant program because of the lifestyle of their parents, such as moving across school district, county, or state borders or between the United States and Mexico for the purpose of seeking temporary or seasonal employment in agriculture or commercial fishing. Children must move with their parents or move to join their parents within 365 days of the qualifying move of the parents. Children may also qualify if they move without their parents and are seeking temporary or seasonal employment in qualifying activities. Because of a change in the way the data was collected, numbers may not compare from year to year.

Original Growth Levy: School districts that met the criteria in KRS 157.621 were able to levy an additional 5-cent tax for building-fund needs prior to April 24, 2008. Tax revenue from this source is not equalized by the state.

Equalized Growth Levy: Districts that continued to meet the growth criteria had the option to levy a second growth nickel prior to April 24, 2008. This second nickel is called the equalized growth nickel because the General Assembly has provided additional equalization funding for those districts that have levied both the original nickel and the second growth nickel.

Recallable Levy: School districts have the opportunity to levy a 5-cent tax for building needs. This tax, the recallable nickel, is subject to public petitions for recall and has historically received retroactive equalization.

BRAC Levy: School districts have the opportunity to levy a 5-cent tax for building needs. The local district must be located in a county that will have more students as a direct result of the new mission established for Ft. Knox by the Base Realignment and Closure (BRAC). The commissioner of education has determined that the projected increased number of students is sufficient to require new facilities or the major renovation of existing facilities and has approved the imposition of the additional levy.

Category 5 Levy: School districts that had school facilities classified as Category 5 on May 18, 2010, had the ability to levy an additional 5-cent equivalent tax rate for building purposes without being subject to recall or the local board may have had the issue placed on the ballot. Districts would receive equalization the following year.

Source: Kentucky. Dept. of Educ. *2011-2012 Local District Tax Levies*. Web. July 20, 2013.

Levied Equivalent Rate: Because local school districts use and implement different types and amounts of taxes, KDE converts the districts' local tax efforts to a standardized tax rate called a

levied equivalent rate. The rate is a district's total tax revenue divided by its total assessment, which includes property and motor vehicles.

Source: Kentucky. Dept. of Educ. *2011-2012 Local District Tax Levies*. Web. July 20, 2013.

Equalized Facility Funding: School districts that have levied at least a 10-cent equivalent tax rate for building purposes or have debt service of at least a 10-cent equivalent tax rate as of April 24, 2005, receive equalization for 20 years provided they receive no other nickel equalization other than the Facilities Support Program of Kentucky.

Per-Pupil Assessment: Assessment divided by EOY AADA with growth. The assessment contains property valuations for real estate, personal property, public service real estate, public service personal property, and motor vehicles. The assessment is certified to the Kentucky Department of Education by the Department of Revenue.

SEEK Distribution: The Support Education Excellence in Kentucky (SEEK) funding formula was enacted as part of the 1990 Kentucky Education Reform Act and is distributed on a per-pupil basis (known as the guaranteed base). Districts receive additional funds (called add-ons) for at-risk students, exceptional students, home and hospital instruction, students with limited English proficiency, and transportation.

State Fiscal Stabilization Fund: The State Fiscal Stabilization Fund (SFSF), part of the American Recovery and Reinvestment Act, is a one-time appropriation of approximately \$48.6 billion that the US Department of Education awarded governors to help stabilize state and local budgets in fiscal years 2010 and 2011.

The impact of the SFSF money can be seen in the chart titled Per-Pupil Revenues By Source. School districts were instructed by the KDE to code SFSF money as federal revenue (Fund 2); however, 29 districts incorrectly coded it as state revenue in fiscal year 2010, and 24 districts incorrectly coded it in fiscal year 2011. OEA staff reclassified these revenues to ensure accurate and consistent coding. For the purposes of this report, to ensure accurate and consistent coding, the following districts' SFSF funds were reclassified as federal revenue.

Performance

EXPLORE, PLAN, And ACT: The Educational Planning and Assessment System (EPAS) data used in the *Kentucky District Data Profiles* are from the 2012 school year. In 2006, Senate Bill 130 mandated, beginning with the 2009 school year, that all Kentucky public school students be required to take the EPAS tests administered by ACT, Inc. Eighth-grade students take EXPLORE, 10th-grade students take PLAN, and 11th-grade students take the ACT. The EPAS series of exams is designed to help students measure their current academic development, explore career/training options, and make plans for the remaining years of high school and post-graduation years.

The average EPAS results for English, reading, math, and science and the composite score are reported in the profiles. EXPLORE, PLAN, and ACT scores are also broken down by the percentage of district students meeting or surpassing ACT, Inc.-derived college readiness benchmarks, listed below. While there is an ACT benchmark in science, KDE does not release the number of students who meet this benchmark.

Subject	EPAS Benchmark		
	EXPLORE	PLAN	ACT
English	13	15	18
Reading	15	17	21
Mathematics	17	19	22
Science	20	21	24

AP Analysis: Advanced Placement (AP) test scores range from 1 to 5; scores of 3 or above are considered eligible for college credit (passing). The average AP exam score and the percentage of students with a 3 or above on the AP exam are reported. Students in the 10th grade or higher are eligible to take AP exams. 2012 AP data were not available at the time of publication.

Next-Generation Learners (NxGL): Next-Generation Learners is one of three components of Kentucky's accountability system. The components includes multiple measures of student performance on tests and student accomplishments of graduation and readiness for college or career.

Achievement: Achievement reports student performance in the five content areas of reading, mathematics, science, social studies, and writing. A formula awards points based on the student performance levels of Novice, Apprentice, Proficient, and Distinguished. Accountability is based on students enrolled a full academic year (100 days).

Gap: Gap creates a single student gap group that includes students with membership in the following groups as required by federal guidelines: African-American, Hispanic, Native American, students with disabilities, poverty (qualified for free or reduced price lunch), and limited English proficient. The student performance levels are Novice, Apprentice, Proficient, and Distinguished. Accountability is based on students enrolled a full academic year (100 days).

Source: Kentucky. Dept. of Educ. *District Report Card*. Web. August 1, 2013.

Growth: A statistical program generates a student growth percentile by comparing an individual student's score to the student's academic peers using 2 years of test scores. Growth is reported for reading and mathematics in grades 4 through 8 and at grade 11. Accountability is based on students enrolled a full academic year (100 days).

Source: Kentucky. Dept. of Educ. *District Report Card*. Web. August 1, 2013.

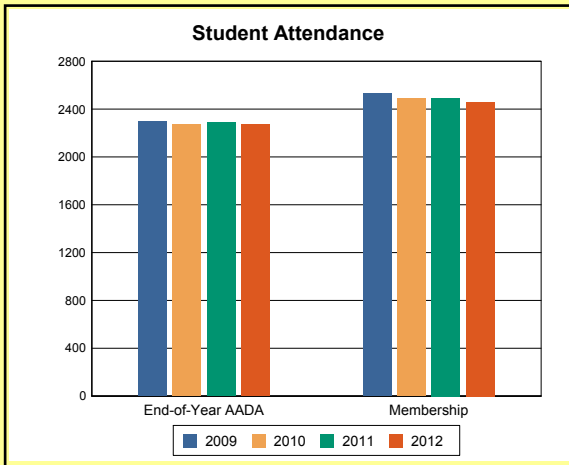

College and Career Readiness (CCR): College/Career Readiness for schools and districts reflects how many students are ready for college or careers based on test scores and certifications earned. It is measured by EXPLORE scores for middle school and at the high school ACT benchmarks, college placement tests, and career measures. Accountability is based on students enrolled a full academic year (100 days).

Graduation Rate: Number of students who graduate within 4 years of high school.
