The Kentucky Legislative Research Commission is a 16-member committee that comprises the majority and minority leadership of the Kentucky Senate and House of Representatives. Under Chapter 7 of the Kentucky Revised Statutes, the Commission constitutes the administrative office for the Kentucky General Assembly. Its director serves as chief administrative officer of the legislature when it is not in session. The Commission and its staff, by law and by practice, perform numerous fact-finding and service functions for members of the General Assembly. The Commission provides professional, clerical, and other employees required by legislators when the General Assembly is in session and during the interim period between sessions. These employees, in turn, assist committees and individual members in preparing legislation. Other services include conducting studies and investigations, organizing and staffing committee meetings and public hearings, maintaining official legislative records and other reference materials, furnishing information about the legislature to the public, compiling and publishing administrative regulations, administering a legislative intern program, conducting a pre-session orientation conference for legislators, and publishing a daily index of legislative activity during sessions of the General Assembly.

The Commission also is responsible for statute revision; publication and distribution of the *Acts* and *Journals* following sessions of the General Assembly; and maintenance of furnishings, equipment, and supplies for the legislature.

The Commission functions as Kentucky's Commission on Interstate Cooperation in carrying out the program of The Council of State Governments as it relates to Kentucky.

Education Assessment and Accountability Review Subcommittee

Foreword

In November 2018, the Education Assessment and Accountability Review Subcommittee approved a research agenda for the Office of Education Accountability that included the *Kentucky District Data Profiles*.

This publication is intended to offer legislators and the general public a convenient source of information about each Kentucky school district. Wherever possible, longitudinal data are included to track trends over time. In addition, a dictionary of terms defines each variable and identifies each data source. The publication is updated annually.

Kentucky District Data Profiles

Introduction

The Education Assessment and Accountability Review Subcommittee approved the Office of Education Accountability's annual *Kentucky District Data Profiles* report in November 2018. The report provides a one-stop source of comprehensive district-level education data, including comparative data for all districts. The profiles are organized by the following topical areas:

- Overview and Trends
- Staffing Data
- Finance
- Performance

At the end of the district profiles, a Kentucky-wide profile is included for comparative purposes. It is followed by five tables that sort districts by adjusted average daily attendance, free and reduced-price lunch eligibility, per-pupil state revenue, and per-pupil property assessment for the 2018 school year and 11th-grade composite ACT average from 2016 to 2018. New for the report are tables that show math and reading proficiency rates for economically disadvantaged students, non-economically disadvantaged students, and a consolidated student group by school level for 2018. These tables allow profile users to identify similar districts for comparative purposes.

The Overview and Trends section provides data on school membership, end-of-year adjusted average daily attendance, student demographics, educational attainment, and school discipline. The data are provided in raw numbers and, where appropriate, percentages.

The Staffing Data section includes district data on certified personnel, classified personnel, and full-time equivalent teachers. Additional data on average salaries, years of teaching experience, and rank are provided. A data table that breaks down the salary schedule for teachers by rank completes the section.

The Finance section covers both per-pupil current expenditures and per-pupil revenues by source. District data are contrasted to state averages for current expenditures by function. Revenues include federal, state, local, and other sources. Each district's fund balance percentage and end-of-year general fund balance are reported.

The Performance section includes data from kindergarten readiness to ACT results; Advanced Placement exams and trends; and selected components of the 2018 Accountability System.

Appendices break down district data for comparative purposes. These appendices show how data can be grouped to compare trends across districts of similar size, demographics, or performance.

Overall, the *Kentucky District Data Profiles* provide a snapshot of each school district. While additional data are available and useful, the data chosen were deemed to be the most concise indicators of district trends. Given differences in district size, geography, and socioeconomic conditions, the profiles are not conducive to direct comparisons of district effectiveness. The profiles present a broad array of indicators across multiple areas of interest.

Use Of The Profiles

The Kentucky Department of Education (KDE) encourages districts to annually review data for inaccuracies. If KDE confirms that data have been inaccurately reported, the data are changed and updated on KDE's website. As a result, the data in the Office of Education Accountability's annual *Kentucky District Data Profiles* report may vary slightly from year to year. The Data Dictionary section includes the date and source for each piece of data reported.

When possible, longitudinal data are presented in order to show trends over time. Sources for all the data used in the *Kentucky District Data Profiles* and the methodology used for calculating outcomes are included below.

In some cases, data are limited. The following symbols are used to designate incomplete data:

--- Three dashes indicate data not reported pursuant to the Family Educational Rights and Privacy Act. When fewer than 10 students are tested, the number of students is not reported; in some cases, the test results are also not reported.

N/A The data element N/A indicates data not available or not applicable. This may be the case when a district offers only kindergarten through grade 8. For example, Anchorage Independent does not have a high school; therefore, its profile does not contain ACT scores.

0 A data point that is 0 reflects an observed measure of 0 for that variable. For instance, a district may not levy a certain tax or may not have any migrant students. For both of those data points, a 0 populates the field.

-% A data point that is less than 1 percent.

The profiles use traditional fiscal year nomenclature to identify the appropriate year to which the data apply. For example, the 2017-2018 fiscal or school year is referred to as 2018, the 2016-2017 fiscal year is 2017, and so on. School district fiscal years start on July 1 and end on June 30. A total of 173 districts are profiled in the report.

Data Dictionary

The data sources used in the *Kentucky District Data Profiles* are included below with brief definitions.

Overview And Trends

A1 Schools: The number of schools under administrative control of a principal and eligible to establish a school-based decision-making council. An A1 school is not a program operated by or as a part of another school.

Source: Kentucky. Dept. of Educ. *School Report Card*. Web. March 15, 2019.

EOY AADA: According to KRS 157.320(1), the end-of-year adjusted average daily attendance is determined by the aggregate days attended by pupils in a public school, adjusted for weather-

related low-attendance days, if applicable, divided by the actual number of days the school is in session, after the 5 days with the lowest attendance have been deducted.

Source: Kentucky. Dept. of Educ. *FY2017-2018 Final SEEK*. Web. February 8, 2019.

Membership: Membership, which is a count of students enrolled as of the last day of school, is reported twice in the Overview and Trends section of the report. Membership data under the student attendance bar graph include self-contained exceptional children but do not include preschool students.

Source: Kentucky. Dept. of Educ. *Historical SAAR Data*. Web. March 11, 2019.

Calendar 2018: The number of instructional days and hours that children attend school. Regular days include any day that had at least 6 hours of instruction. Short days are early-release days not having at least 6 hours. Because schools within a district may have different schedules, a minimum and maximum number of instructional hours have been included for the district.

Demographic Profile

Free And Reduced-Price Lunch: Children from families with incomes at or below 130 percent of the poverty level are eligible for free lunches. Those from families with incomes between 130 percent and 185 percent of the poverty level are eligible for reduced-price lunches.

LEP: Limited English proficiency applies to an individual

- who is between ages 3 through 21;
- who is enrolled or preparing to enroll in an elementary or secondary school;
- who
 - was not born in the United States or whose native language is a language other than English; or
 - is a Native American or Alaska Native, or a native resident of the outlying areas, and comes from an environment where a language other than English has had a significant impact on the individual's level of English language proficiency; or
 - is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant; and
- whose difficulties in listening, speaking, reading, or writing the English language may be sufficient to deny the individual
 - the ability to meet the state's proficient level of achievement on state assessments;
 - the ability to successfully achieve in classrooms where the language of instruction is English; or
 - the opportunity to participate fully in society.

Migrant: Children qualify for the migrant program because of the lifestyle of their parents, such as moving across school district, county, or state borders or between the United States and

another country for the purpose of seeking temporary or seasonal employment in agriculture or commercial fishing. Children must move with their parents or move to join their parents within 365 days of the qualifying move of the parents. Children may also qualify if they move without their parents and are seeking temporary or seasonal employment in qualifying activities. Because of a change in the way data were collected, numbers may not compare from year to year.

Occupational Tax: An occupational license tax not to exceed 0.5 percent, or 0.75 percent for counties with 300,000 or more residents, on salaries or wages of individuals for work done in a county, and on the net profits of all businesses, professions, and occupations from activities conducted in a county.

Original Growth Levy: School districts that met the criteria in KRS 157.621 were able to levy an additional 5-cent tax for building-fund needs prior to April 24, 2008. Tax revenue from this source is not equalized by the state.

Source: Kentucky. Dept. of Educ. *FY2017-18 Local District Tax Levies*. Web. April 10, 2019.

Equalized Growth Levy: Districts that continued to meet the growth criteria had the option to levy a second growth nickel prior to April 24, 2008. This second nickel is called the equalized growth nickel because the General Assembly has provided additional equalization funding for those districts that have levied both the original nickel and the second growth nickel.

Recallable Levy: School districts have the opportunity to levy a 5-cent tax for building needs. This tax, the recallable nickel, is subject to public petitions for recall and has historically received retroactive equalization.

Levied Equivalent Rate: Because local school districts use and implement different types and amounts of taxes, KDE converts the districts' local tax efforts to a standardized tax rate called a levied equivalent rate. The rate is a district's total tax revenue divided by its total assessment, which includes property and motor vehicles.

Source: Kentucky. Dept. of Educ. *FY2017-18 Local District Tax Levies*. Web. April 10, 2019.

Equalized Facility Funding: School districts that have levied at least a 10-cent equivalent tax rate for building purposes or have debt service of at least a 10-cent equivalent tax rate as of April 24, 2005, receive equalization for 20 years provided they receive no other nickel equalization other than the Facilities Support Program of Kentucky.

BRAC Levy: School districts have the opportunity to levy a 5-cent tax for building needs. The local district must be located in a county that will have more students as a direct result of the new mission established for Fort Knox by the Base Realignment and Closure (BRAC) Commission. The commissioner of education has determined that the projected increased number of students is sufficient to require new facilities or the major renovation of existing facilities and has approved the imposition of the additional levy.

Category 5 Levy: School districts that had school facilities classified as Category 5 on May 18, 2010, had the ability to levy an additional 5-cent equivalent tax rate for building purposes without being subject to recall, or the local board may have had the issue placed on the ballot. Districts would receive equalization the following year.

Per-Pupil Assessment: Assessment divided by EOY AADA with growth. SEEK Distribution: The Support Education Excellence in Kentucky (SEEK) funding formula was enacted as part of the 1990 Kentucky Education Reform Act and is distributed on a per-pupil basis (known as the guaranteed base). Districts receive additional funds (called add-ons) for at-risk students, exceptional students, home and hospital instruction, students with limited English proficiency, and transportation.

Performance

ACT 11th Grade: The profiles report average English, reading, math, and science scores and the composite score. They also report the percentage of district students whose scores met or surpassed the college readiness benchmarks listed below. Benchmarks for the ACT exam were set by the Kentucky Council on Postsecondary Education (CPE), based on analysis of Kentucky data. Because there is no CPE benchmark for science, college readiness for the science portion of the ACT is not reported.

Subject	ACT Benchmark
English	18
Mathematics	19
Reading	20
Science	N/A

Math And Reading Proficient/Distinguished: This part of the K-PREP test and shows the highest level score for a district in math and reading. K-PREP is based on Kentucky Academic Standards and customized for Kentucky.

GAP: This summarizes achievement results for a nonduplicated Consolidated Student Group that includes students with membership in the following groups, as required by federal guidelines: African American, Hispanic, Native Hawaiian or other Pacific Islander, American Indian or Alaska Native, two or more races, students with disabilities who have an individualized education program (IEP), and students with limited English proficiency.

Source: Kentucky. Dept. of Educ. *School Report Card*. Web. April 10, 2019.

Growth: This measure shows a student's continuous improvement toward the goal of proficiency and beyond in reading and mathematics. The growth indicator for reading and mathematics is based on a growth value table and applies to elementary and middle schools only; the reading measure includes growth on the English proficiency exam. The growth indicator score is created by taking the mean of the state assessment reading growth scores (including growth on the English proficiency exam) and state assessment mathematics growth scores.

Source: Kentucky. Dept. of Educ. *School Report Card*. Web. April 10, 2019.

Transition Points: For high school, this score is created by combining academic and career readiness measures, including English Learners reaching proficiency on an English language proficiency exam.

Source: Kentucky. Dept. of Educ. *School Report Card*. Web. April 10, 2019.

Schools Targeted for Intervention: Targeted interventions are planned, carefully considered interventions that occur when students do not meet the grade level expectations (that is, benchmarks) that are necessary for academic progress. These data show the number of schools in a district that have this designation.
