INSTRUCTIONS
Pesticide Application Record
Version 4 — Commercial Landscape Applications

This form may only be used by commercial residential, landscape, ornamental, and lawn applications. It may not be used to satisfy the application record requirements for agricultural employers or PCO/WDO applications.

- A. Date may be spelled out or indicated numerically.
- B. Include first and last name of the commercial applicator.
- C. Include first and last name(s) and license numbers, if applicable
- D. Product
 - a) Brand name found on the pesticide label including adjuvants (buffer, spreader, sticker, surfactant, etc.).
 - b) EPA Registration Number found on the pesticide container label. If the material is being applied under a federal experimental use permit and no EPA Registration Number exists, list the federal experimental use permit number. If a Washington state registered pesticide (e.g., 25b), add the state registration number. If the material is an adjuvant (buffer, spreader, sticker, surfactant, etc.) write "adjuvant" in this space and add the state registration number.
 - c) Concentration may be listed in various ways, such as: amount of product/100 gallons water, percent formulation in the tank mix (e.g., 1%), gallons per acre of output volume (e.g., GPA), ppm (or other measure), or inches of water applied (chemigation). Specify the term to which the number refers.
- E. Indicate type of land or site treated, not location. Examples: rights-of-way, lawn, trees and shrubs, driveways, etc.
- F. List the number of WSDA license plate affixed to the apparatus (Commercial Application businesses only).
- G. Additional pages may be added for additional customers on the same day, so long as the information in A through G remains the same.
 - a) Complete customer name. If firm (business), add complete name.
 - b) Complete street address including city, state, and zip code.
 - c) Amount applied: total amount (volume) of mix applied.
 - d) Area treated may also be stated in terms such as square feet, linear feet, cubic feet, etc. Specify the term to which the number refers. If spot treatment, write spot treatment.
 - e) Start and Stop time (A.M./P.M./24hr).
 - f) Indicate temperature in degrees Fahrenheit (it may be indicated as the range encountered during application). Temperature readings shall be obtained in close proximity to the application site.
 - g) Indicate the direction from which the wind is blowing. Measure wind velocity in MPH. If the wind varies in direction and velocity during the application, indicate the range of variance (e.g., S-SW 3-7 MPH). Wind readings shall be obtained in close proximity to the application site.
- H. Check one.
- I. If the application was made under permit, but no permit number was issued, indicate the date the permit was issued.
- J. This space is available for any additional information you may wish to include.
