C/o Legislative Budget Committee

Dear Legislative Budget Committee Member:

Enclosed is the FY 2016 budget request for the Mississippi Department of Marine Resources (MDMR). I am glad to announce the MDMR is **not requesting additional funding** to meet the legislative mandates given to the agency. Since my appointment in April of 2013, we have been committed to meeting the goals of our agency's mission while remaining fiscally responsible. In previous years, federal and other non-state sources of revenue were used to offset the decrease in general funds (i.e. disaster recovery funds related to Hurricane Katrina and BP oil spill). However, these **one-time funds** have been expended and are no longer available to meet our normal budget shortfalls. In the future, it will likely be necessary to request a budget increase to pre-Katrina appropriation levels.

In 2014, the Mississippi Legislature passed SB 2579, the MDMR Accountability and Reorganization Act. This legislation requires an annual self-funded audit of the agency and establishes new offices and senior staff positions. We have worked hard to reorganize the agency to meet the legislative intent of SB 2579 and believe the results are showing.

We look forward to providing essential law enforcement, marine science, coastal restoration and regulatory functions for the State of Mississippi. Please feel free to contact me at any time should the committee have questions regarding this request.

In appreciation,

A handwritten signature in cursive script that reads "Jamie M. Miller".

MS Department of Marine Resources

Name of Agency

FEDERAL FUNDS

Federal funds received during FY 2014 were from the U.S. Department of Commerce (NOAA), U.S. National Park Service and the U.S. Department of Interior (Fish and Wildlife Service).

Funds from the U.S. Department of Commerce are used to fund Mississippi Coastal Programs, Fisheries Research projects and the Grand Bay National Estuary Research Reserve.

Funds from the U.S. Department of Interior are used to fund research projects and fisheries stock assessment, enhancement and public access projects, and public information and education projects.

Funds from the U.S. National Park Service are used to fund projects designated in the Mississippi Gulf Coast Heritage Area.

All federal funds, though unencumbered, are obligated for specific projects.

STATE SUPPORT SPECIAL FUNDS

The Department of Marine Resources received no State Support Special Funds.

OTHER SPECIAL FUNDS

Off-road Fuel Taxes - \$3,050,000

Derived by the State Tax Commission and remitted to the DMR via our appropriation bill.

Saltwater License Fees - \$1,237,862

Fees are derived from the sale of saltwater recreational and commercial licenses.

BP Seafood Marketing and Testing - \$380,282

On April 20, 2010, an explosion and fire occurred on the Deepwater Horizon drilling platform, operated by British Petroleum, Inc. (BP), in the Northern Gulf of Mexico resulting in the loss of life, the subsequent sinking of the rig and a massive oil spill. Due to the effects of this event, the DMR received funds to test seafood and also promote Mississippi Seafood nationwide. In FY2014 the DMR received \$316,668 for marketing and \$63,614 for testing. Both programs should end in FY2015.

Other Non-Federal Revenues

Included in these funds are the following non-recurring funds:

Joint Enforcement Agreement - \$470,000

These funds represent an agreement between the DOC and Marine Patrol Program to carry out law enforcement duties in federal waters.

Specific purpose Funds

The MDMR receives other funds that are included in income and the cash balances but do not represent cash available for general operations. The funding for the projects in this category is obligated for a specific purpose. Included in this area are funds with the following balances (as of 6/30/2014 and included in the Seafood Fund 3450):

Name	Source	Balance as of June 30th
Artificial Reef Program	Legislative	\$3,822,006
GOMESA	Other	\$2,613,229
Mississippi Seafood Marketing	Legislative	\$980,278
Coastal Preserve	Legislative	\$565,310
Shell Retention	Legislative	\$449,225
Phosphates	Settlement	\$347,505
Seafood Waste Equipment	Bond	\$101,935
Coastal Cleanup	Other	\$29,288
Isaac	Other	\$8,286
Diamond Terrapin	Federal	\$4,116
TOTAL		\$8,921,176

GOMESA

Gulf of Mexico Energy Security Act funds used for coastal restoration projects.

Coastal Cleanup

Donations for Coastal Cleanup project

Shell Retention

MDMR collects a fee for oyster shells taken from the waters of the state of Mississippi. Per MS code, the funds received from the fee are set aside to further oyster production in this state, which includes plantings of oysters and/or cultch materials.

TREASURY FUND/BANK

Treasury Fund 3450 is the "Seafood Fund" set up in the State Statute that is used to collect funds such as off-road fuel tax and other special funds. The other funds, though unencumbered are obligated for a particular purpose/program as described above.

Treasury Fund 349G is DMR's Government Clearing Fund. In FY2014, DMR utilized a separate fund to enable better control and tracking of Federal funds. Almost all of federal funds are on a reimbursement basis so this fund will always have a zero or slightly negative balance.

BP Oil Spill Fund 349B holds the residual funds from \$75,000,000 in monies given by BP to DMR to manage after the spill. The bulk of the funds were for cleanup and coastal protection activities. In 2013, the majority of remaining funds were transferred to MDEQ for management and disposition.

The License Clearing Account is used for collection of license fees, confiscated catch fees, fines for violations, and other miscellaneous fees. These are transferred to the State Treasury for deposit in the DMR's Seafood Fund.

The Special Permit Account is a clearing account for collection of wetlands permit fees. These funds are transferred to the State Treasury for deposit in the DMR's Seafood Fund.

1 - MARINE FISHERIES

AGENCY NAME

PROGRAM NAME

I. Program Description:

The Marine Fisheries Program provides effective management of the state's marine fisheries, including oysters, shrimp, crabs, spotted sea trout, red drum, menhaden, and mullet in addition to other commercially and recreationally important species. The program includes conservation and overall management of living marine organisms through research and data collection as modified by relevant social, economic, and biological factors. The Office of Marine Fisheries utilizes the most appropriate methods to manage each marine species including, but not limited to, regulating, harvesting, habitat enhancement, water quality monitoring for molluscan shellfish harvesting, setting of catch limits and season for many species and seafood inspections of processing and distribution facilities.

II. Program Objective:

It is the objective of the Marine Fisheries Program to effectively manage the state's marine fisheries to produce the maximum benefit to the citizens of Mississippi while at the same time maintaining the long-term viability of the fisheries stock upon which these benefits depend, to maintain seafood processing health safety to instill a high consumer confidence and thus maximize marketing opportunities, assist in producing added-value seafood products, and increase economic diversity and job opportunities through the application of aquaculture and other technologies.

PROGRAM NAME

I. Program Description:

The Coastal Resources Management Program addresses the state and federal mandates of the Coastal Wetlands Protection Law and Coastal Zone Management Act. This is accomplished through coastal wetlands permits, the Mississippi Coastal Program, wetlands land acquisition, preservation, conservation, and management.

II. Program Objective:

To provide support for the Department's Coastal Wetlands Program, Coastal Preserves Program, Estuarine Research Program, and various other aspects of the Mississippi Coastal Program.

4 - MARINE PATROL

AGENCY NAME

PROGRAM NAME

I. Program Description:

The Marine Patrol Program is responsible for enforcing all laws and regulations enacted or adopted and promulgated for the protection, propagation or conservation of all saltwater aquatic life of the State of Mississippi. The patrol area consists of 1,000 square miles of marine waters, 369 miles of shoreline, 77,933 acres of marsh land and the land masses of Hancock, Harrison, and Jackson counties. The Marine Patrol Program is also required to protect and support the public and community in the area of boat and water safety, natural disasters, search and rescue, and other emergency situations and special marine events.

II. Program Objective:

To maintain an efficient and productive Marine Patrol Office while supporting and protecting the public, the seafood industry and associated recreational fishing and marine activities along the Mississippi Gulf Coast, and to provide support and assistance to the public in times of natural disasters and other boat and water related emergencies.

PROGRAM NAME

I. Program Description:

The Department of Marine Resources was established to manage Mississippi's saltwater resources. The department accomplishes its mandates by recommending and establishing rules, regulations, laws, seasons, creel limits, and by providing technical assistance to citizens in regard to managing private lands and waters for marine resources. The Finance and Administration Program provides support to all the different programs and projects in the Department, allowing programmatic staff more time to manage the state's natural resources.

II. Program Objective:

It is the mission of the Finance and Administration Program to provide support required by other offices within the Department to meet their goals and objectives, to maintain all human resources and payroll functions, to maintain all accounts payable functions, the purchasing system, the saltwater license system, revenue support function, budgetary assistance, develop and maintain hardware and software systems for timely and accurate data, and to support the Department's mission through a proactive communications program of information, education, outreach and public involvement. The Finance and Administration Program is also dedicated to providing a strategic planning function aimed at improving the state's marine resources. Operation of the Lyman Fish Hatchery also falls under the purview of this program.

6 - COASTAL RESTORATION AND RESILIENCY

AGENCY NAME

PROGRAM NAME

I. Program Description:

The office of Coastal Restoration and Resiliency is responsible for managing restoration and resiliency programs and projects that improve coastal and marine habitats and help reduce socio-economic vulnerability to coastal hazards. Programs under this department include, Mississippi Gulf Coast National Heritage Area (NHA), Coastal Impact Assistance Program (CIAP), Gulf of Mexico Alliance (GOMA) Coordination, Gulf of Mexico Energy Security Act (GOMESA), and restoration activities that arise through various external funding sources.

This office was created by Senate Bill 2579 in the 2014 legislative session and is currently being structured.

II. Program Objective:

The office of Coastal Restoration and Resiliency works to preserve and enhance coastal and marine resources in a manner that helps coastal communities, ecosystems, and economies become more resilient to coastal hazards. This department coordinates with state, federal and non-governmental entities to assess risk and vulnerability in the coastal environment, increase community understanding of these risk, identify solutions to reduce and mitigate risk, and help communities implement plans that reduce vulnerability. To help achieve community resilience this department promotes conservation, restoration and stewardship of coastal and marine habitats.

2016 BUDGET REQUEST**

MS Department of Marine Resources

Name of Agency

The Mississippi Gulf Coast is home to some of the nation's most productive shellfish and finfish waters and their supporting coastal wetlands and is rich in natural resources. Many generations have depended on these resources for their livelihoods. Our coastal resources have not only sustained a growing economy, but have contributed greatly to the culture and heritage that define Coast natives as a people.

The Mississippi Department of Marine Resources was created by the state Legislature in 1994. Before then, the agency was a bureau under the state Department of Wildlife, Fisheries and Parks. The MDMR manages our coastal resources under the authority of the Commission on Marine Resources (CMR).

The MDMR is dedicated to enhancing, protecting and conserving the marine interests of Mississippi for present and future generations. It manages all marine life, public trust wetlands and waterfront areas for the long-term recreational, educational, commercial and economic benefit of everyone in the state.

The MDMR and the CMR play an important role in administering Mississippi seafood laws, as well as these acts: Mississippi Coastal Wetlands Protection, Public Trust Tidelands, Boat and Water Safety, Derelict Vessels, Marine Litter and other state and federal mandates.

FY 2016 Request

MDMR request is for \$10,734,777 which is in line with the FY2015 Appropriation and does not include any new funds at this time.

Program 3 - Tideland & Trust Fund is in a separate budget request, 452-00. That request includes one PIN that is included in MDMR's Appropriation but is not counted here.
