CONSUMER AND GOVERNMENTAL AFFAIRS BUREAU REMINDS STATE TELECOMMUNICATIONS RELAY SERVICE PROGRAMS TO SEEK RECERTIFICATION

CG Docket No. 03-123

This Public Notice alerts states and territories that the certifications that they now hold for the provision of telecommunications relay services (TRS) will expire on July 26, 2013.¹ Under the Federal Communications Commission's (Commission's) TRS regulations, each state or territory may file an application for "renewal" of its certification one year prior to expiration, *i.e.*, beginning on July 26, 2012.² Although there is no prescribed deadline for filing, we request that renewal applications be filed no later than October 1, 2012, to give the Commission sufficient time to review and rule on the applications prior to the expiration of the existing certifications.

Congress created the TRS program in Title IV of the Americans with Disabilities Act of 1990 (ADA),³ codified at Section 225 of the Communications Act of 1934, as amended (Act).⁴ TRS enables persons with hearing and speech disabilities to access the telephone system to communicate with other individuals.⁵ Under the Act, the Commission must ensure the provision of TRS that is functionally equivalent to voice telephone service.⁶ The Commission's TRS regulations set forth mandatory minimum standards that TRS providers must follow to meet this functional equivalency mandate.⁷

¹ As amended by Section 103(a) of the Twenty-First Century Communications and Video Accessibility Act of 2010 (CVAA), TRS is defined as "telephone transmission services that provide the ability for an individual who is deaf, hard of hearing, deaf-blind, or who has a speech disability to engage in communication by wire or radio with one or more individuals, in a manner that is functionally equivalent to the ability of a hearing individual who does not have a speech disability to communicate using voice communication services by wire or radio." Pub. L. No. 111-260, 124 Stat. 2751, *technical amendments*, Pub. L. No. 111-265, 124 Stat. 2795 (Oct. 8, 2010) § 103(a), codified at 47 U.S.C. § 225(a)(3). *See also Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, Report and Order, Order on Reconsideration, and Further Notice of Proposed Rulemaking, 19 FCC Rcd 12475, 12479, ¶ 3 n.18 (2004) (describing how a traditional TRS call works).

² 47 C.F.R. § 64.606(c)(1). Since 1993, the Commission has granted states certification to operate their own TRS programs in five year increments. The Consumer and Governmental Affairs Bureau, under delegated authority, issued its last round of certification grants in July 2008.

Under Section 225, states wishing to establish their own TRS programs for the provision of intrastate and interstate TRS over the public switched telephone network may receive Commission certification to do so.⁸ All certified state TRS programs are required to provide traditional (TTY-based) TRS, interstate Spanish language traditional TRS, and Speech-to-Speech relay (STS) service.⁹ States may also offer captioned telephone relay service (CTS). States seeking renewal of their certification must include information about each of these services in their applications so that the Commission can ensure that the provision of these services is consistent with its rules and that the state is exercising responsibility for oversight of these services.¹⁰

Specifically, in order to obtain certification, a state must submit documentation to the Commission that describes its relay program and include its procedures and remedies for enforcing any requirements that the program may impose.¹¹ In addition, a state must establish that its program makes available to TRS users informational materials on state and Commission complaint procedures sufficient for users to know the proper procedures for filing complaints.¹² The Commission's TRS regulations explain that documentation should be submitted in narrative form, and that the Commission shall give the public notice of such applications.¹³

The state certification process is intended to ensure that TRS is provided in a uniform manner throughout the United States and territories. Applications for certification will be reviewed to determine whether each state TRS program has sufficiently documented that it meets or exceeds all of the applicable operational, technical and functional mandatory minimum standards set forth in section 64.604 of the Commission's rules.¹⁴ If the program exceeds the mandatory minimum standards, the state must establish that the program does not conflict with federal law.¹⁵ In addition, applications will be reviewed to ensure that each state TRS program makes available adequate procedures and remedies for enforcing the requirements of each state's program.¹⁶

⁸ Although state TRS programs may offer interstate as well as intrastate TRS, only the costs associated with the provision of intrastate TRS are recovered from the state. *See* 47 U.S.C. §225(d)(3). States with certified TRS programs may allow TRS providers operating under their programs to recover such costs by a method consistent with the jurisdictional separation of costs requirements of Section 225. *See id.* Costs associated with the provision of interstate TRS are recovered from subscribers of interstate and Voice over Internet Protocol (VoIP) service, and such providers are reimbursed through the TRS Interstate Fund. *Id.* In October 2011, the Commission adopted rules to implement Section 103(b) of the CVAA, requiring interconnected and non-interconnected VoIP service providers to participate in and contribute to the TRS Fund. *See* CVAA § 715; 47 U.S.C. § 616; *Contributions to the Telecommunications Relay Service Fund*, CG Docket No. 11-47, Report and Order, 26 FCC Rcd 14532 (2011).

⁹ *See* 47 C.F.R. § 64.603.

¹⁰ Since 2003, CTS has been a non-mandatory type of TRS that is eligible for compensation from the states for intrastate calls and from the Interstate TRS Fund for interstate or IP-based CTS calls. *Telecommunications Relay Services, and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, CC Docket No. 98-67, Declaratory Ruling, 18 FCC Rcd 16121 (2003). If a state does not offer CTS, it need not submit documentation in its certification application pertaining to this service.
