ROLKA LOUBE ASSOCIATES SUBMITS PAYMENT FORMULAS AND FUNDING REQUIREMENTS FOR THE TELECOMMUNICATIONS RELAY SERVICES FUND

CG Docket No. 03-123

Comments Due: May 26, 2023

Reply Comments Due: June 5, 2023

The Consumer and Governmental Affairs Bureau (CGB or Bureau) of the Federal Communications Commission (Commission) seeks comment on the Telecommunications Relay Services (TRS) Fund administrator's proposed provider compensation formulas, funding requirements, and contribution factors for the period from July 1, 2023, through June 30, 2024 (2023-24 Fund Year).¹

TRS Using MARS Plan Formula

Rolka Loube Associates LLC (Rolka Loube), the TRS Fund administrator, proposes per-minute compensation formulas for services subject to the Multi-state Average Rate Structure (MARS) plan methodology,² as follows: \$5.7204 for interstate traditional TRS; \$6.8514 for interstate speech-to-speech relay service (STS); and \$2.6619 for interstate captioned telephone service (CTS).³ We seek comment on whether these proposed formulas correctly apply the MARS formula.

IP Relay

Pursuant to the *2022 IP Relay Compensation Order*,⁴ Rolka Loube recommends a compensation amount of \$2.0927 per minute, calculated as 106.9% of the prior year's amount (\$1.9576). We seek comment on whether the recommendation correctly applies the *2022 IP Relay Compensation Order*.

¹ See Rolka Loube Associates LLC, Interstate Telecommunications Relay Services Fund Payment Formula and Fund Size Estimate, CG Docket Nos. 03-123 and 10-51 (filed May 1, 2023), <https://www.fcc.gov/ecfs/document/1050410304699/1> (2023 TRS Report); see also 47 CFR § 64.604(c)(5)(iii)(H).

² Under the MARS plan methodology, interstate TRS Fund compensation formulas for relay services provided through state TRS programs are calculated based on a weighted average of the per-minute intrastate compensation paid by state TRS programs for the same or a similar relay service. See *Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, CG Docket No. 03-123, Report and Order and Declaratory Ruling, 22 FCC Rcd 20140, 20151-58, paras. 16-37 (2007) (*2007 TRS Compensation Methodology Order*).

³ 2023 TRS Report at 5. The current compensation levels for these services are: \$4.5098 per minute for interstate traditional TRS; \$5.6408 per minute for interstate STS; and \$2.3419 per minute for interstate CTS. *Id.* at 5-7.

⁴ *Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities; Petition for Rulemaking of Sprint Corporation*, CG Docket No. 03-123 and RM-11820, Notice of Proposed Rulemaking, FCC 22-48 (June 30, 2022) (*2022 IP Relay Compensation Order*) (adopting compensation plan for IP Relay).

VRS and IP CTS

The Commission will address compensation for Video Relay Service (VRS) and Internet Protocol Captioned Telephone Service (IP CTS) in the relevant rulemaking proceedings.⁵

Funding Requirement and Contribution Factors

Comment is invited on Rolka Loube's demand projections and funding requirements for the various relay services supported by the Fund.⁶ For purposes of calculating funding requirements and contribution formulas, Rolka Loube assumes continued application of the current compensation formulas for IP CTS and VRS.⁷

We also seek comment on Rolka Loube's estimates and recommendations for disbursements under the National Deaf-Blind Equipment Distribution Program (\$10,000,000) and for funding to cover TRS research and administration (\$55,287,515), including allowances for database administration, Fund administration, data collection agent costs, the TRS Fund Advisory Council, service provider audits, bankruptcy representation, an independent financial audit of the Fund, an improper-payments audit, and user identity verification.⁸ In addition, we seek comment on Rolka Loube's recommendation, consistent with the practice in the past few years, to include a two-month payment reserve, totaling \$203,316,773, in the overall funding requirement for the coming year.⁹

Rolka Loube proposes a total Fund requirement of \$1,508,071,592 for the 2023-24 Fund Year.¹⁰ Rolka Loube anticipates that there will be a budget surplus of approximately \$277,430,000 for the 2022-23 Fund Year.¹¹ Deducting last year's surplus from the total Fund requirement, Rolka Loube proposes a net Fund requirement of \$1,230,641,592.¹²

In June 2022, the Commission modified the TRS Fund contribution rules to provide that contributions to support all IP-based relay services are determined based on Fund contributors' interstate

and intrastate end-user revenues.¹³ Pursuant to the *2022 TRS Fund Contributions Order*, Rolka Loube calculates a contribution factor of 0.01547 for support of IP-based relay services, to be applied to contributors' interstate and intrastate end-user revenues, and a contribution factor of 0.00024 for support of other relay services, to be applied to contributors' interstate end-user revenues.¹⁴ We seek comment on the proposed contribution factors.
