The Goal:

Multi-modal evaluation of teaching quality

INCLUSIVE SCHOLARSHIP

The University values an inclusive view of scholarship in the recognition that knowledge is acquired and advanced through discovery, integration, application, and teaching.

Given this perspective, promotion and tenure reviews, as detailed in the criteria of individual departments and colleges, will recognize original research contributions in peer-reviewed publications as well as integrative and applied forms of scholarship that involve cross-cutting collaborations with business and community partners, including translational research, commercialization activities, and patents.

Ernest Boyer's *Scholarship Reconsidered*

- **The scholarship of discovery** includes investigations inquiries that generate new knowledge.
- **The scholarship of integration** makes interdisciplinary connections to synthesize knowledge in new ways.
- **The scholarship of application** is concerned with applying knowledge to social issues, sometimes to test theories and ground knowledge making.
- **The scholarship of teaching** includes transforming and extending as well as transmitting knowledge.
- **The scholarship of engagement** extends these forms of inquiry by collaborative inquiries on social issues.

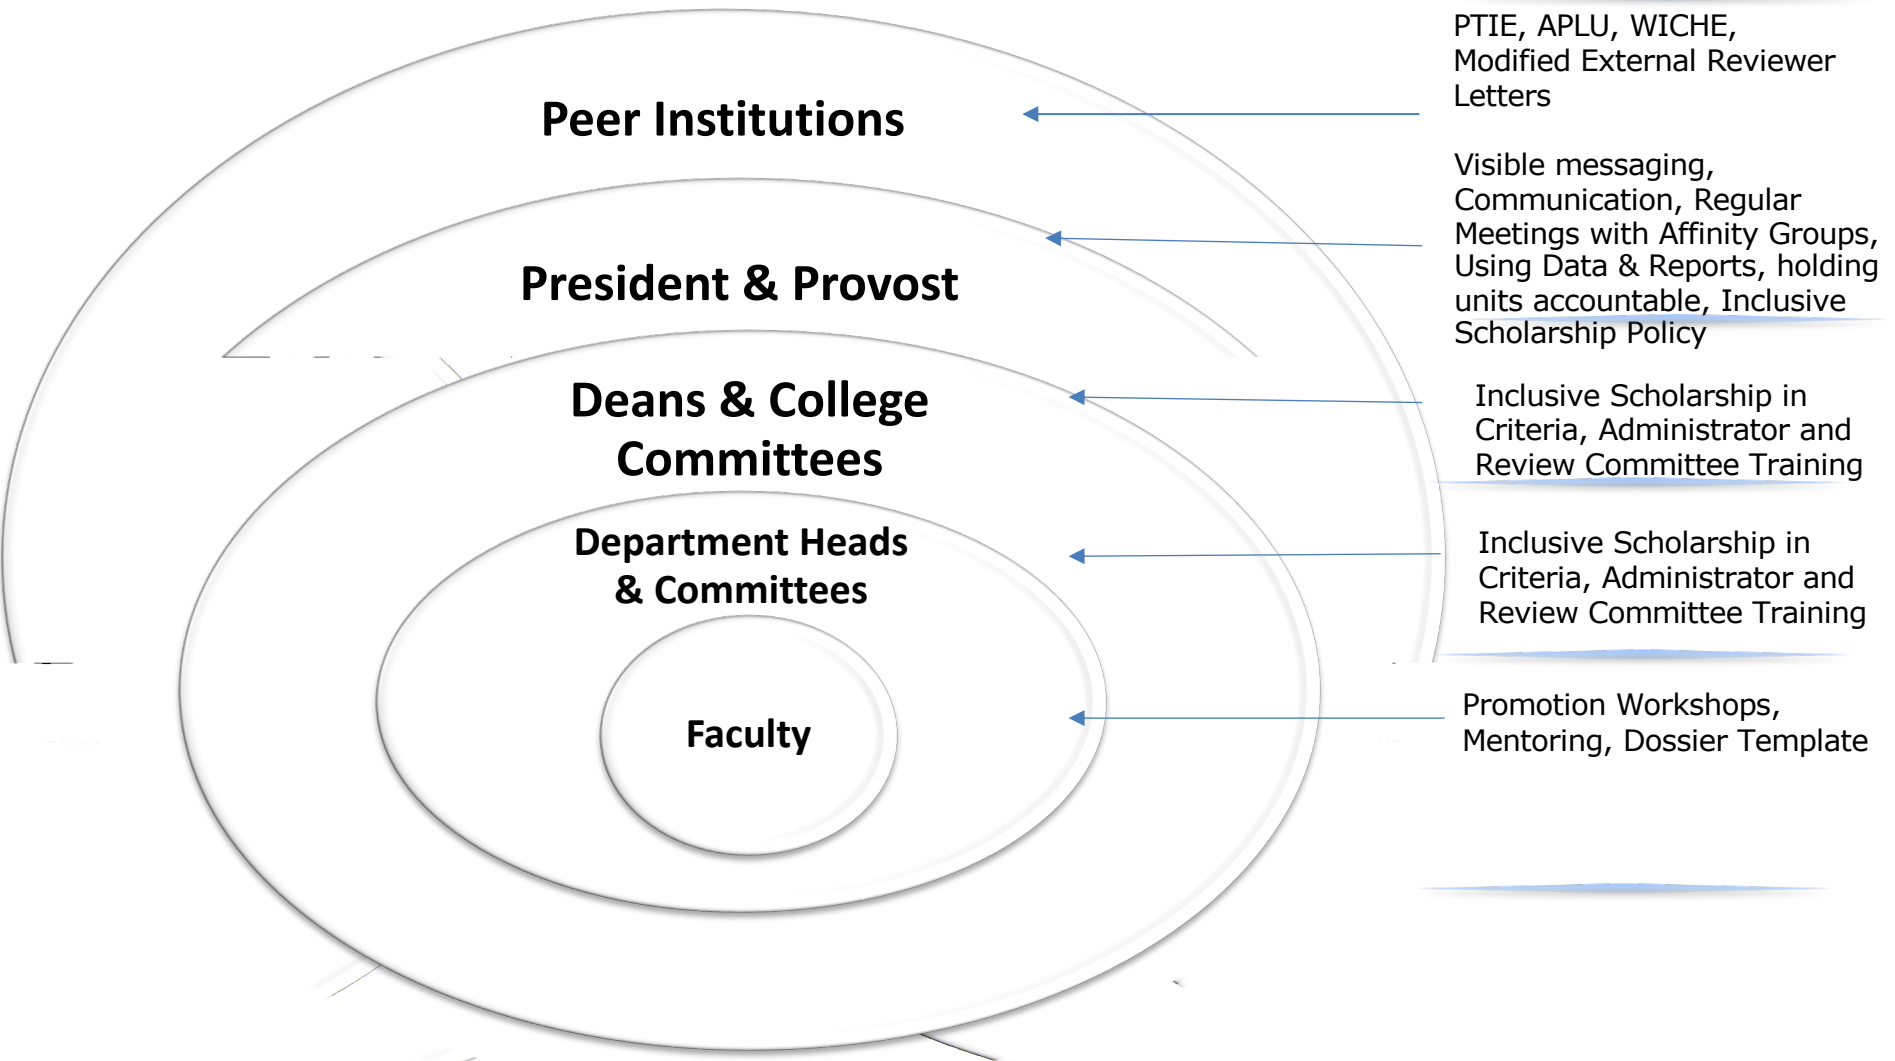

Based on *The Scholarship of Engagement*,
Center for Experiential Learning, Loyola University

Publicly Engaged Instruction

- ***Type 5. Instruction—for credit—nontraditional audiences.***
 - Classes and instructional programs that offer student academic credit hours and are designed and marketed specifically to serve those who are neither traditional campus degree seekers nor campus staff.
- ***Type 6. Instruction—for credit—curricular, community-engaged learning.***
 - Classes and curricular programs where students learn with, through and from community partners, in a community context, under the guidance and supervision of faculty members.
- ***Type 7. Instruction—noncredit—classes and programs.***
 - Classes and instructional programs marketed specifically to those who are neither degree seekers nor campus staff.
- ***Type 8. Instruction—noncredit—managed learning environments.***
 - Scholarly resources designed for general public audiences that are often learner-initiated and learner-paced (e.g., museums, galleries, libraries, gardens, exhibits, expositions).
- ***Type 9. Instruction—noncredit—public understanding, events, and media.***
 - Scholarly resources designed for the general public that are accessible through print, radio, television, or web media. General examples include self-paced educational materials and products (e.g., bulletins, pamphlets, encyclopedia entries, educational broadcasting, CD-ROMs, software, textbooks for lay audiences); dissemination of scholarship through media (e.g., speakers' bureaus, TV appearances, newspaper interviews, radio broadcasts, web pages, and podcasts, if scholarly and readily available to the public); and popular writing in newsletters, popular press, or practitioner-oriented publications.

A self-reflective statement of your beliefs about learning and teaching that describes how your teaching decisions and strategies aligns with your values.

- Your ideas are developed with specific, concrete examples of what you have done and will do to achieve your teaching goals.
- A good teaching philosophy connects all the other kinds of evidence in your teaching portfolio: courses taught, mentoring, syllabi, assignments, observations, and student surveys.
