\*Tillage and No-Tillage classes began in 1997.

State Champion No-Till Yields are in green and the State Champion Tillage Yields are in yellow. Over time the yield differences has been minimal between these two practices with the 2024 season resulting in some of the greatest differences.

Precipitation (blue bars) for each month was above average in January and May across all four districts of the Wheat Yield Contest. Temperatures (red bars) for each month were near average through the wheat growing season. The higher precipitation in May often leads to more Fusarium Head Blight.
