# ELLIOTT MUSEUM CAR COLLECTION

## **KEY TO ABBREVIATIONS**

"HF" - Indicates that the vehicle is on long-term loan from the Hudson Foundation,

The Model A Fords from the Donnelley collection have a two-digit number in parenthesis next to the vehicle description. This represents the last 2 digits of the Museum's Accession Number for that vehicle.

Vehicles that are stored in the automated rack display system carry a locator number indicating bay location. For example, R-101 identifies the vehicle at the far-left end of the back first floor row of vehicles. Each bay has a corresponding bay identification number.

"Garage/Gallery" indicates that the vehicle may be in either location depending upon circumstances.

*Display vehicles are subject to change from time to time, please inquire if there is a vehicle that you want to see.*

Please note that vehicles not on display in the museum's galleries can only be seen by appointment, or by regularly scheduled garage tour, Thursday's at 11:00 AM.

To make arrangements please contact John Giltinan, Car Curator at [jgiltinan@elliottmuseum.org](mailto:jgiltinan@elliottmuseum.org), telephone 772-225-1961 x 111.
