

TECHNICAL INFORMATION

FY 2004 Appropriation Language

National Science Foundation

RESEARCH AND RELATED ACTIVITIES

For necessary expenses in carrying out the National Science Foundation Act of 1950, as amended (42 U.S.C. 1861-1875), and the Act to establish a National Medal of Science (42 U.S.C. 1880-1881); services as authorized by 5 U.S.C. 3109; maintenance and operation of aircraft and purchase of flight services for research support; acquisition of aircraft; \$4,106,360,000, of which not to exceed \$375,000,000 shall remain available until expended for Polar research and operations support, and for reimbursement to other Federal agencies for operational and science support and logistical and other related activities for the United States Antarctic program; the balance to remain available until September 30, 2005; *Provided*, That receipts for scientific support services and materials furnished by the National Research Centers and other National Science Foundation supported research facilities may be credited to this appropriation and used for authorized purposes of this account.

EDUCATION AND HUMAN RESOURCES

For necessary expenses in carrying out science and engineering education and human resources programs and activities pursuant to the National Science Foundation Act of 1950, as amended (42 U.S.C. 1861-1875), including services as authorized by 5 U.S.C. 3109, and rental of conference rooms in the District of Columbia, \$938,040,000, to remain available until September 30, 2005.

MAJOR RESEARCH EQUIPMENT AND FACILITIES CONSTRUCTION

For necessary expenses for the acquisition, construction, commissioning, and upgrading of major research equipment, facilities, and other such capital assets pursuant to the National Science Foundation Act of 1950, as amended, \$202,330,000, to remain available until expended.

SALARIES AND EXPENSES

For salaries and expenses necessary in carrying out the National Science Foundation Act of 1950, as amended (42 U.S.C. 1861-1875); services authorized by 5 U.S.C. 3109; hire of passenger motor vehicles; not to exceed \$9,000 for official reception and representation expenses; uniforms or allowances therefore, as authorized by 5 U.S.C. 5901-5902; rental of conference rooms in the District of Columbia; reimbursement of the General Services Administration for security guard services; \$225,700,000: *Provided*, That contracts may be entered into under "Salaries and Expenses" in fiscal year 2004 for maintenance and operation of facilities, and for other services, to be provided during the next fiscal year.

OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General as authorized by the Inspector General Act of 1978, as amended \$8,770,000, to remain available until September 30, 2005.

¹FY 2002 Actual includes \$10.97 million for the Partnerships for Innovation program, which is funded in Integrative Activities in the Research and Related Activities Appropriation in the FY 2003 and FY 2004 Requests.

²FY 2002 Actual and FY 2003 Request for Elementary, Secondary and Informal Education (ESIE) includes \$45.06 million and \$40.25 million, respectively, from Education System Reform (ESR). For the FY 2004 Request, EHR proposes to move funds designated for the remaining ESR projects to consolidate K-12 programs into a single subactivity.

	Total, Direct obligations ³	\$4,831	\$5,121	\$5,481

Totals may not add due to rounding.

¹Excludes obligations for the Donations Account.

²The funding pattern for research and development contracts varies in accordance with annual appropriations for construction of the South Pole Station within the Major Research Equipment and Facilities Construction (MREFC) account.

³Excludes carryover and includes H-1B Nonimmigrant Petitioner obligations.

REIMBURSABLE ACTIVITY

Reimbursements for the Research and Related Activities Appropriation and the Education and Human Resources Appropriation are realized from other federal agencies that have entered into interagency agreements with the Foundation. NSF enters into agreements (including Memoranda of Understanding) with other U.S. government agencies, as authorized by the NSF Act, 42 U.S.C. 1870 (c) and the Economy Act: 31 U.S.C. 1535, under which NSF assumes some responsibility for activities supported by these agencies. These activities can include jointly funded projects and programs, support of research operations and logistics, and access to NSF supported research facilities.

REIMBURSABLE AWARDS BY AGENCY

(Dollars in Millions)

DEPARTMENT/AGENCY	FY 2002
DEFENSE	
<i>AIR FORCE</i>	2.8
<i>ARMY</i>	4.5
<i>DARPA</i>	5.6
<i>NAVY</i>	2.8
SUBTOTAL, DOD	\$15.7
AGRICULTURE	0.7
ARCHIVES	1.0
ARMY CORP OF ENGINEERS	0.9
CIA	5.5
COMMERCE	5.4
EDUCATION	2.7
ENERGY	8.3
EPA	0.6
HEALTH & HUMAN SERVICES	16.7
HUD	0.9
JUSTICE	1.0
NASA	19.2
TRANSPORTATION	1.1
OTHER (less than \$500,000)	1.5
TOTAL REIMBURSEMENTS	\$81.2

Totals may not add due to rounding.

Since the 1980s, the number of interagency agreements NSF handles has increased dramatically. This increase is indicative of the growth in the breadth and complexity of the Foundation's programmatic activity. Consistent with applicable legislation and GAO decisions, agreements include reimbursement for costs that are incurred in the management and administration of these awards.

In FY 2002, the largest portion of NSF's reimbursable activity came from joint activities with NASA, (23.6 percent) the Department of Health and Human Services (20.6 percent) and the Department of Defense (19.3 percent). Reimbursable activities with NASA were primarily for support of the National Center for Atmospheric Research (NCAR), as well as for the support and use of the national astronomy centers. Reimbursable activities with the Department of Health and Human Services are for non-medical biological research such as the human frontiers science program and the protein data bank.

¹The source of the FY 2003 figures is the FY 2003 Congressional Request. These figures have not been updated.

EXPLANATION OF CARRYOVER 2002

The National Science Foundation's total unobligated balance of \$128.90 million from the FY 2002 Appropriation consists of amounts displayed below.

- In Research and Related Activities (R&RA), \$3.02 million is carried over into FY 2003. \$1.42 million is for funding of the Small Business Innovation Research (SBIR) Phase II program. The remaining amounts are from several awards in various programs that were not ready for obligation in FY 2002.
- In Education and Human Resources (EHR) \$29.20 million is carried over into FY 2003. \$9.65 million is for funding of the Math and Science Partnership, \$19.37 million for the Federal Cyber Service: Scholarship for Service program included in the FY 2002 Supplemental Appropriations Act (P.L 107-206) and \$180,000 for the Presidential Awards for Excellence in Science, Mathematics and Engineering Mentoring.
- In Major Research Equipment and Facilities Construction \$96.55 million is carried over into FY 2003. \$56.47 million is funding of the South Pole Station Modernization, \$35.0 million is for Terascale Computing System, \$4.88 million is for IceCube Research and Development, \$115,000 is for Polar Support Aircraft Upgrades, and \$84,980 for the South Pole Safety project.
- A total of \$137,405 in FY 2002 Office of Inspector General appropriated funds is carried over into FY 2003 to cover priority audits that are contracted out, fund the next phase of a contract to develop an OIG knowledge management system, and protect the appropriation against unanticipated variations between obligations and expenditures.

Distribution of FY 2002 Carryover into FY 2003

(Dollars in Thousands)

	FY 2003 Request	FY 2003 Carryover from FY 2002	Total FY 2003 Estimate
Research and Related Activities	3,783,210	3,015	3,786,225
Education and Human Resources ¹	908,080	29,198	937,278
Major Research Equipment and Facilities Construction	126,280	96,551	222,831
Salaries and Expenses	202,950	-	202,950
Office of Inspector General	7,700	137	7,837
Total	5,028,220	128,901	5,157,121

Totals may not add due to rounding.

¹Carryover excludes \$64.14 million of H-1B Nonimmigrant Petitioner Fees. \$38.16 million will be obligated by the Division of Undergraduate Education for scholarship awards; \$25.98 million will be obligated by the Division of Elementary, Secondary and Informal Education K-12 activities involving private-public partnership.

**NATIONAL SCIENCE FOUNDATION
FY 2004 CONGRESSIONAL REQUEST
FULL BUDGETARY COSTING**

The tables below show two methods for allocating the full budgetary cost of the NSF FY 2004 Request. The first shows the full budgetary costs allocated to each of NSF's operating directorates. The second shows these costs allocated to NSF's three strategic outcome goals: People, Ideas, and Tools. These allocations represent initial steps, using readily available information, in NSF's plans to achieve the integration of budget, cost, and performance, consistent with the President's Management Agenda.

What is Full Budgetary Cost? OMB Circular A-11 defines "full-cost" as the sum of all budget resources used by an agency to achieve program outputs and outcomes. These include both *direct* program costs and *indirect* costs, which generally include administrative costs and other activities that are not directly attributable to a single program or activity. For two of NSF's appropriations, Research and Related Activities (R&RA) and Education and Human Resources (EHR), all funds are directly attributable to directorates and outcome goals. For NSF's other three appropriations, Major Research Equipment and Facilities Construction (MREFC), Salaries and Expenses (S&E), and the Office of Inspector General (OIG), the funds are distributed using the methodologies described below.

Allocation by Directorate

The current budget structure contains program activities within R&RA and EHR that equate to directorates. Therefore, R&RA and EHR funding is already aligned by directorate. MREFC funds projects that are managed by a particular NSF directorate. Therefore, each MREFC project can be directly associated with a particular directorate. In addition, each managing directorate is responsible for the initial planning, design and follow-on operations and maintenance costs that are funded R&RA. The MREFC program funds were assigned to the managing directorate responsible for oversight of a particular project. (Table 1)

All budget items funded through the S&E and OIG appropriations accounts are defined as A&M and are allocated to directorates. More than half of the S&E account can be precisely associated with an individual directorate. These S&E Direct budget items consist of distributed funding for travel, training, equipment, supplies, incentive awards and premium pay. Also, space rental and personnel compensation and benefits (PC&B) of employees in a particular directorate are attributed to that directorate in the financial accounting system.

Once S&E Direct budget items that are directly associated with a particular directorate have been assigned, then budget items associated with the Office of Information and Resource Management (IRM), Office of Budget, Finance and Awards Management (BFA), the staff offices in the Office of the Director (OD), and OIG are allocated. These S&E Indirect budget items are allocated to a particular directorate based on the proportion of the total FY 2004 Directorate Request. The FY 2004 OIG budgetary costs are assigned using the same methodology as the S&E Indirect costs total. (Table 1)

Allocations by Strategic Outcome Goal

The full budgetary costing by PIT was derived by using the same methodology as stated above, except the Direct S&E budget items, Indirect S&E budget items, and total OIG funding were assigned using the PIT percentages for the applicable directorate. (Table 2)

NATIONAL SCIENCE FOUNDATION

45 CFR Part 672

Antarctic Conservation Act of 1978, Civil Monetary Penalties

AGENCY: National Science Foundation.

ACTION: Final rule with a request for comments.

SUMMARY: The National Science Foundation (NSF) is adjusting civil monetary penalties that may be imposed for violations of the Antarctic Conservation Act of 1978 to reflect inflation since the last effective adjustment.

DATES: This rule is effective September 30, 2002. Comments, however, are welcome at any time and will be considered in making future revisions.

ADDRESSES: All comments should be addressed to: John Chester, Assistant General Counsel, Office of the General Counsel, Room 1265, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230.

FOR FURTHER INFORMATION CONTACT: John Chester on (703) 292-8060 (voice) and (703) 2926-9041 (facsimile)—those are not toll-free numbers—or by electronic mail as jchester@nsf.gov through INTERNET.

SUPPLEMENTARY INFORMATION: The Federal Civil Penalties Inflation Adjustment Act of 1990 (104 Stat. 890; 28 U.S.C. 2461 note) as amended by the Debt Collection Improvement Act of 1996 [section 31001(s)(1) of the Omnibus Consolidated Rescissions and Appropriations Act of 1996, Pub. L. 104-134, approved 4/26/96] directs each Federal agency to adjust, by regulation, each civil monetary penalty provided by law within the jurisdiction of that agency to compensate for the effects of inflation. The only civil monetary penalties within the jurisdiction of the National Science Foundation are those imposed for violations of the Antarctic Conservation Act of 1978 (16 U.S.C. 2401 *et seq.*). On June 16, 1998 NSF published an amendment to its rules governing enforcement of that law adding a new section setting out the penalties for inadvertent and deliberate violations and adjusting those penalties for inflation as provided in the Debt Collection Improvement Act. The General Accounting Office recently informed the Foundation that the second adjustment made at that time exceeded the amount allowable under the cited statute. This amendment corrects that error by recognizing that the second adjustment was ineffective and therefore the initial adjustment remained in effect. It also adjusts the penalty amounts for violations occurring after August 31, 2002 to reflect the approximately nine percent inflation from June 1998, the year when the penalty was adjusted, through June 2001. Because of the rounding rules applicable to these adjustments, no change will be made to the penalty for knowing violations. This amendment also changes the language used to describe the two levels of violations to incorporate that used in the relevant section of the Antarctic Conservation Act [16 U.S.C. 2407(a)].

Future adjustments will be made at least once every four years as called for in the amended Debt Collection Improvement Act.

Because this action merely makes adjustments required by statute, public comments were not solicited prior to its issuance.

Determinations

Under the criteria set forth in Executive Order 12866 as amended by Executive Order 13258, that this rule is not a significant regulatory action requiring review by the Office of Information and Regulatory Affairs. Consequently, this rule is also not subject to Executive Orders 13045 and 13211.

The rule is not an economically significant rule or a major rule under the Congressional Review Act. The Congressional Review Act provides that agencies shall submit a report, including a copy of all final rules, to each House of Congress and the Comptroller General of the United States. The Foundation will submit this report, identifying this rule as non-major, upon the publication of this rule in the **Federal Register**.

The Unfunded Mandate Reform Act of 1995, in sections 202 and 205, requires that agencies prepare several analytic statements before proposing a rule that may result in annual expenditures of \$100 million by State, local and Indian tribal governments, or by the private sector. As this rule will not result in expenditures of that magnitude, such statements are not necessary. As required by the Regulatory Flexibility Act, it is hereby certified that this rule will not have a significant impact on a substantial number of small businesses.

The provisions of the Paperwork Reduction Act of 1995, Public Law 104– 13, 44 U.S.C. 3501 *et seq.*, and its implementing regulations, 5 CFR Part 1320, do not apply to this rule because there are no new or revised recordkeeping or reporting requirements. This action does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes as specified by Executive Order 13175 and accordingly is not subject to that Order. Finally, NSF has reviewed this rule in light of Section 2 of Executive Order 12778 and certifies that this rule meets the applicable standards provided in sections 2(a) and 2(b) of that order.

List of Subjects in 45 CFR Part 672

Administrative practice and procedure, Antarctica.

For the reasons set out in the preamble, 45 CFR Part 672 is amended as follows:

PART 672—ENFORCEMENT AND HEARING PROCEDURES; TOURISM GUIDELINES

1. The authority citation for Part 672 continues to read as follows:

Authority: 16 U.S.C. 2401 *et seq.*, 28 U.S.C. 2461 note

2. Revise § 672.24 to read as follows:

§ 672.24 Maximum civil monetary penalties for violations.

- (a) For violations occurring before August 1, 1998, the maximum civil penalty that may be assessed under §§ 672.20(b) and 672.23(a) is set by the statute at \$5,000 for any violation and \$10,000 for knowing violations.

(b) For violations occurring between August 1, 1998 and August 31, 2002, the maximum civil penalty was adjusted under authority of the Federal Civil Penalties Inflation Adjustment Act of 1990 (28 U.S.C. 2461 note) as amended by the Debt Collection Improvement Act of 1996 (Pub. L. 104-134) to \$5,500 for any violation and \$11,000 for knowing violations.

(c) For violations occurring after August 31, 2002, the maximum civil penalty is adjusted under authority of the Federal Civil Penalties Inflation Adjustment Act of 1990 (28 U.S.C. 2461 note) as amended by the Debt Collection Improvement Act of 1996 (Pub. L. 104-134) to \$6,500 for any violation and \$11,000 for knowing violations.

National Science Foundation.

Dated: July 18, 2002.

Lawrence Rudolph,

General Counsel.
