

**THANK YOU
FOR INVESTING IN
CURIOSITY**

PACIFIC SCIENCE CENTER

"Where I am now is because of Discovery Corps, and I'm thankful for the people who are able to support the program so that I could have those experiences."

— Will E., Discovery Corps Alumni and current Data Scientist at Facebook

Dear Friends,

We are so grateful for your support of Pacific Science Center. Your continued investments give students like Will the opportunity to build and enhance skills that will prepare them for careers in STEM fields. You allow us to expand our impact through innovative hands-on exhibitions. And you help provide thought-provoking community-based conversations through programs like *Science in the City*.

Your partnership is also enabling us to increasing access to science in our community. We have developed an integrated pipeline that provides youth and families with access to science that they would not otherwise have. The access pipeline includes outreach programs like *Science On Wheels* that serves more than 120,000 students across the state of Washington each year. This includes more than 53,000 children from Title I schools where a high percentage of students come from lower-income families.

Our Family and Youth Access Memberships that provide \$19 family memberships for anyone receiving public assistance, and free memberships for foster youth and youth experiencing homelessness, have seen a 23% growth rate. Our camps program serves more than 5,700 in 8 locations throughout the greater Seattle area, and this summer we have provided 92 scholarships so that underserved children in our community can attend a full week of Camps for Curious Minds summer camp at no cost.

You make all of this, and much more, possible each year. As we look to the 2019 fiscal year and beyond, we invite you to continue your partnership with us. Thank you for your generosity, and for fueling a passion for discovery, experimentation, and critical thinking on our campus and throughout the community.

Will Daugherty
