AGREED UPON PROCEDURES
School District Procurement System

Introduction

To practitioners conducting Agreed Upon Procedures (AUPs) engagements of School Districts' (Districts) procurement systems covered by SC Code Ann. § 11-35-5340:

Practitioners are required to follow these procedures in conducting an AUP engagement of a District's procurement system. Because Districts may have different approved procurement codes, a thorough study of the District's approved procurement code, regulations, and internal procurement procedures manual must be made in order to adequately understand the District's compliance requirements related to procurement. These procedures address risk areas identified by the Office of Audit & Certification (A&C). For a District to continue to operate under an approved alternate procurement code (approved by [A&C]) as allowed in § 11-35-5340, you must prepare a written report communicating:

- The procedures performed;
- Findings identified during the AUP engagement, and your recommendation(s) to bring the District's procurement system into compliance; and
- the District's response(s) to your recommendation(s) that describe the District's corrective action plan(s).

Notes to Auditors:

1. Audits conducted less than annually must cover the period since the end of the last audit period.
2. Obtain a copy of the letter from A&C approving your firm to perform the procurement AUPs for the District.
3. If the District has its own procurement code, it must have been approved in writing by the A&C.
4. Obtain a copy of the **District's procurement code and regulations** as **approved** by the A&C.

The District's approved procurement code may have lower competition thresholds than the State or other Districts.

Background

SC Code Ann. § 11-35-5340 - Irrespective of the source of funds, any school district whose budget of total expenditures, including debt service, exceeds seventy-five million dollars annually is subject to the provisions of Chapter 35, Title 11, and shall notify the Director of [Audit & Certification] of the Division of Procurement Services (DPS) of the State Fiscal Accountability Authority (SFAA) of its expenditures within ninety days after the close of its fiscal year. However, if a district has its own procurement code which is, in the written opinion of [A&C], substantially similar to the provisions of the South Carolina Consolidated Procurement Code (Code), the district is exempt from the provisions of the Code except for a procurement audit which must be performed every three years by an audit firm approved by the [A&C]. Cost associated with the internal review and audits are the responsibility of the school district and will be paid to the entity performing the audit.
