**MAINTENANCE RIDER**

If maintenance is included with the goods or services as reflected on the Order Form, the provisions of this Rider express the obligations of Earth Networks and the Customer with respect to such maintenance.

**MAINTENANCE**

- The technician will need access to the areas where both the outdoor and indoor equipment are installed.
- During a maintenance visit, the technician will troubleshoot the reported issue to identify the solution. Once the issue is determined, the technician will inform the customer of the cause and what is required to make the system operational again.
- Upon completion of the work, the technician will perform a test of the equipment to ensure everything is in working order.
- The customer will then be presented with a work order for signature to show the work has been completed in a satisfactory manner.
- Maintenance covers all labor for the troubleshooting, and repair of the hardware. Replacement parts must be purchased by customer at then current prices. Earth Networks reserves the right to substitute parts of like kind and quality. Maintenance does not cover the relocation of hardware.
- If non-standard equipment (e.g. a lift) is required to access hardware, Customer agrees to either supply such equipment or cover the rental expense

**Customer Obligations.** Customer agrees to maintain the equipment in a workmanlike manner, but in no way less than the standards to which Customer maintains other similar assets in the prudent management of its assets and properties, so as to ensure that the equipment is fit for its intended use and is in good working order, condition and repair, ordinary wear and tear expected.
