

POST DISASTER RECOVERY MANAGEMENT

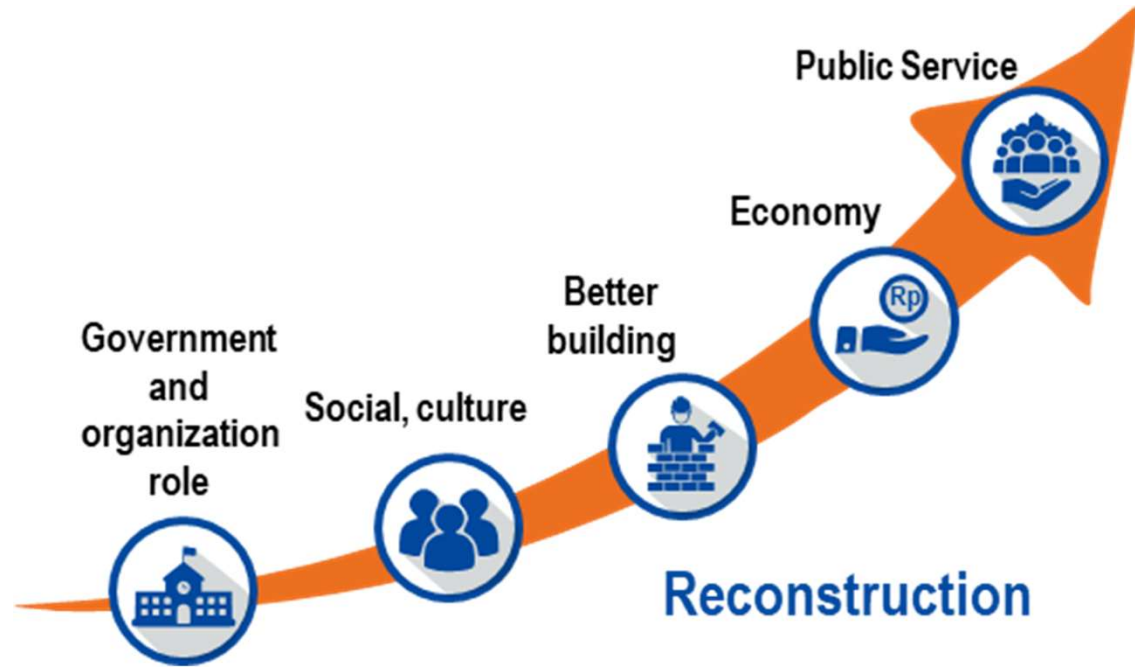

Luqmanul Hakim

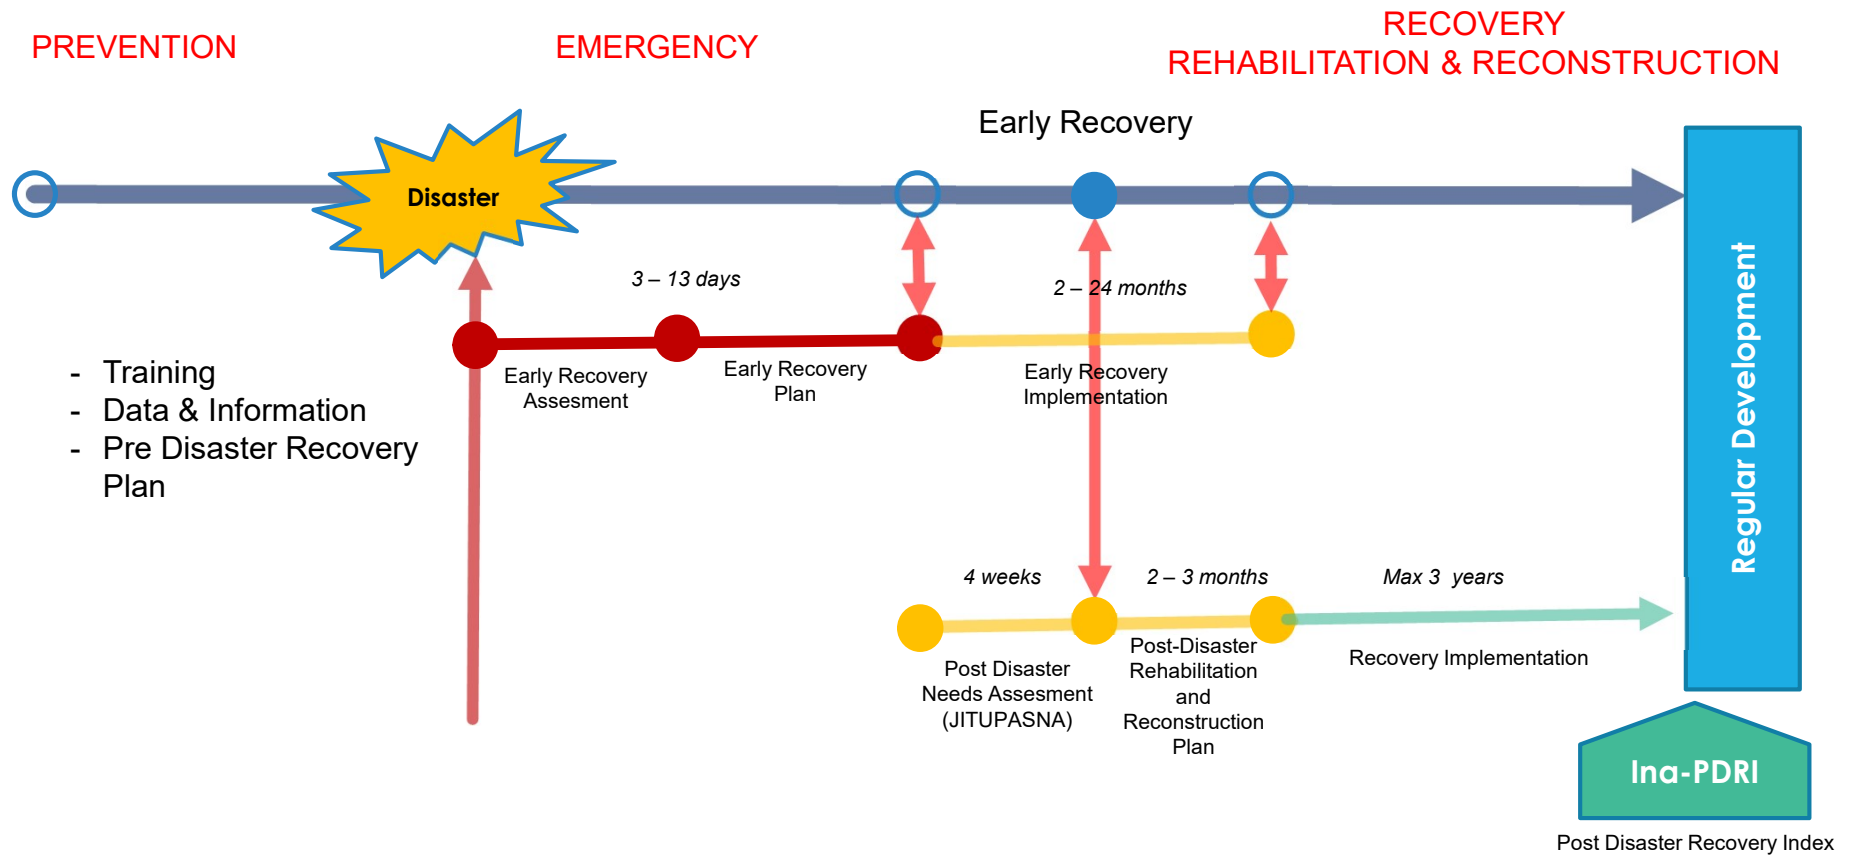

DISASTER MANAGEMENT CYCLE

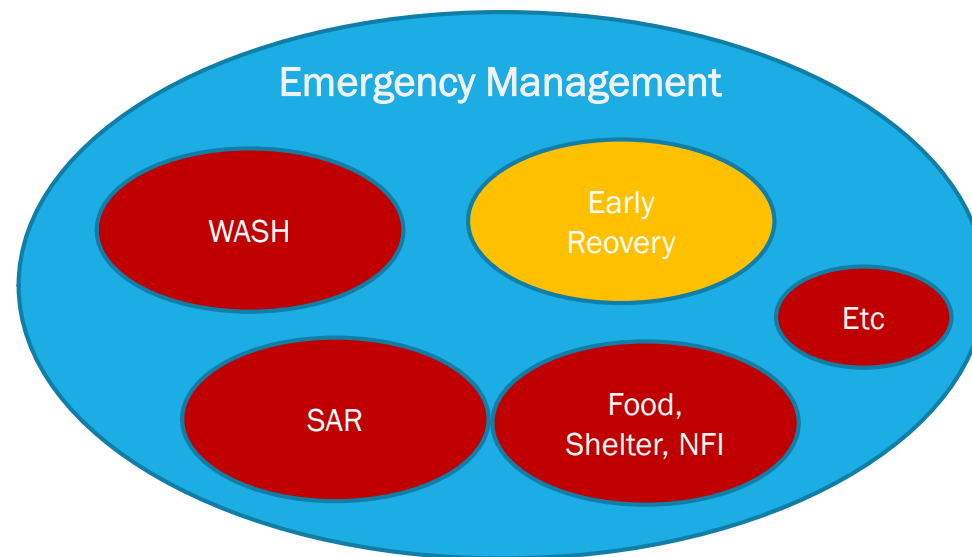

RECOVERY PHASE

RECOVERY FRAMEWORK

EARLY RECOVERY AS A PART OF EMERGENCY PHASE

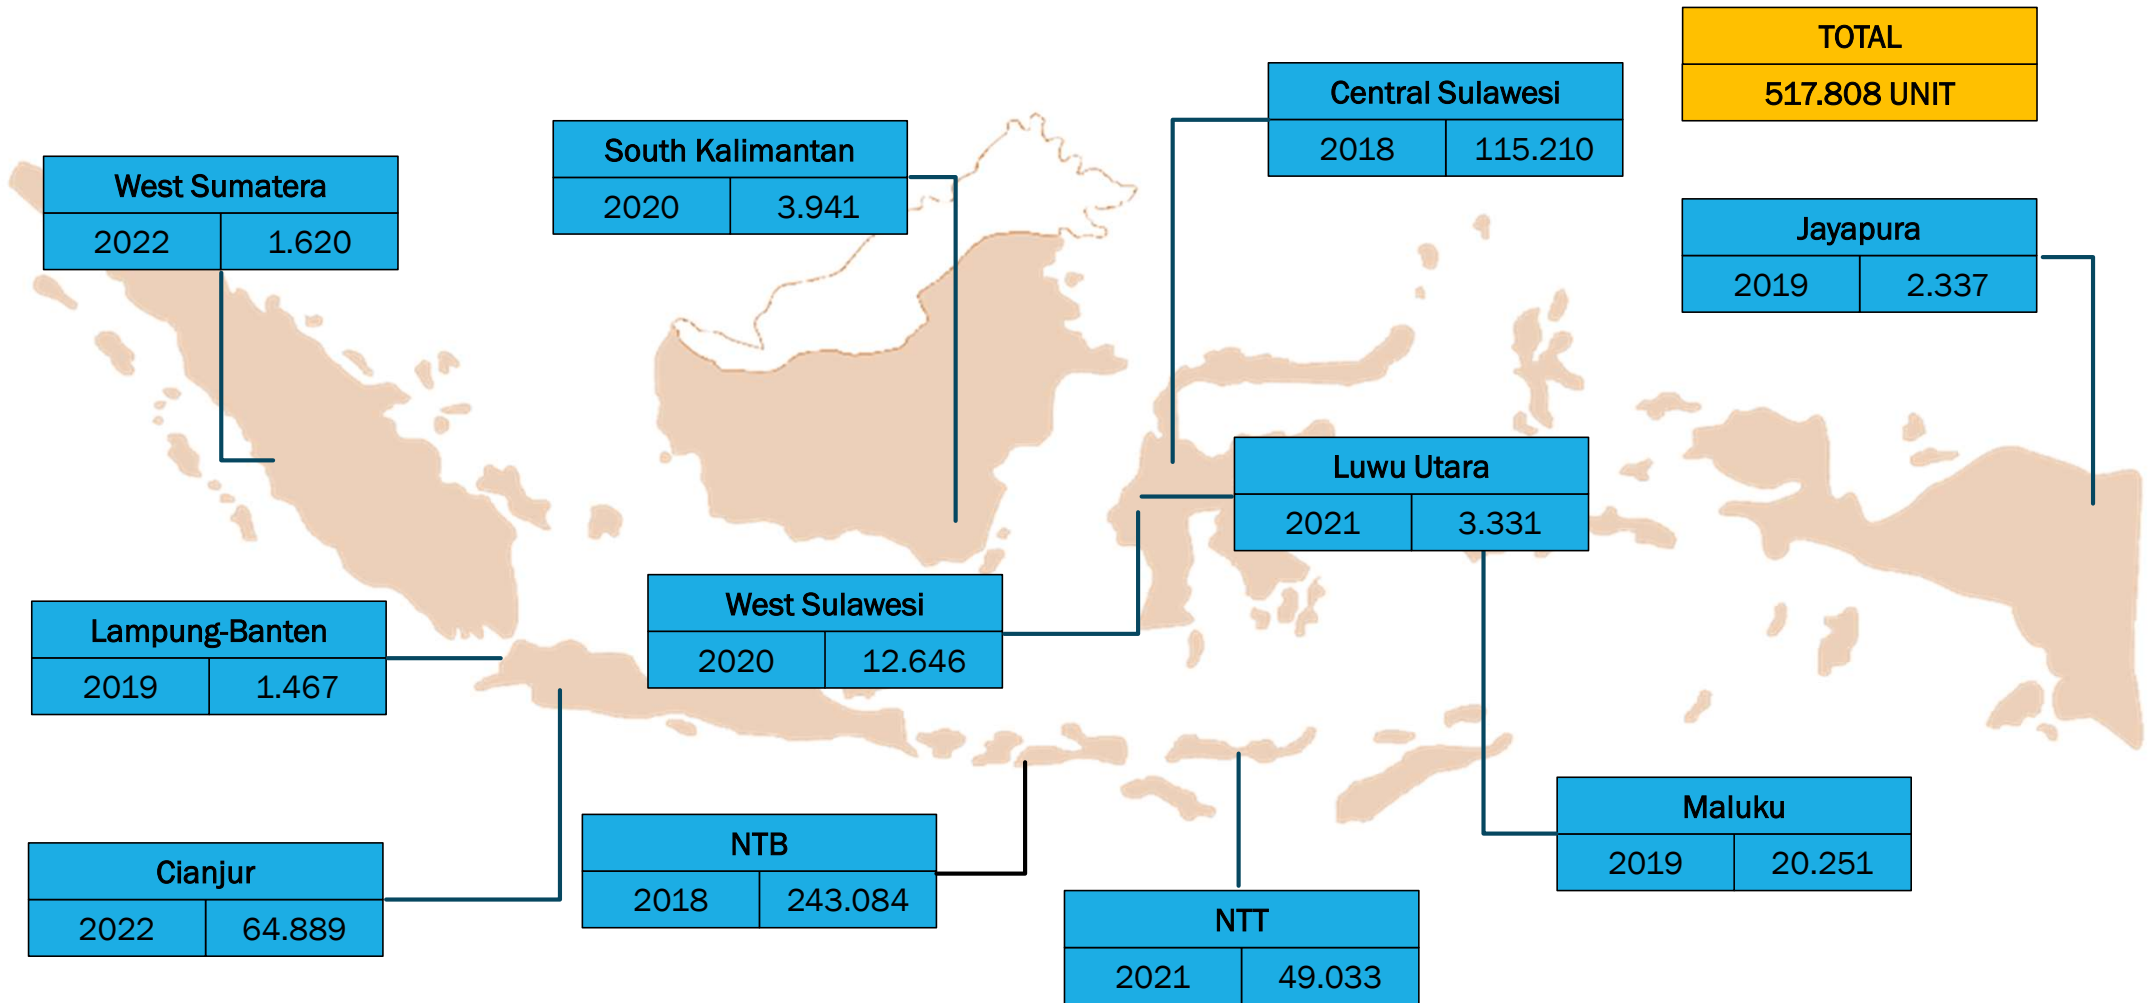

Provision of Basic needs is still on going

The escalation of disaster threats has decreased but there are still disruptions to people's livelihoods.

Implementation of Early Recovery

REHABILITATION AND RECONSTRUCTION OF THE HOUSING SECTOR 2018-2023

POST-DISASTER RECOVERY CHALLENGES

- **Data validity and reliability**
- Capacity to carry out the assessment and preparation of Post-disaster Rehabilitation and Reconstruction Plan
- Funding commitment
- Difficulties in funding private assets
- **The availability of relocation land, both for housing and public facilities**
- **Redevelopment in disaster-prone zones**
- Adaptation of livelihood changes for relocated disaster-affected communities

AREA OF COLLABORATION

- Pre Disaster Recovery Plan
- Tools for estimating resources needed for assessment
- Tools for validation the impact of disaster.
- Tools to identify the suitable areas for relocation of the affected houses
- Sentinel as decision support system

Thank You
