

Iska Ilaalinta Cayilka Marka aad Joojinayso Tubaakada

Avoiding Weight Gain When Quitting Tobacco

Many people have concerns about gaining weight when they decide to quit using tobacco. Nicotine increases the calories your body uses and can act as an appetite suppressant. Your body may burn calories more slowly and you may feel hungrier when you stop using tobacco.

Quitting tobacco use does not mean you will gain weight. Some people gain 4 to 10 pounds during the first few months of quitting, but many people lose this weight as they adjust to life as a non-tobacco user.

Keep your focus on quitting. It can be hard to quit and try to lose weight at the same time. Quit first for your health and deal with any weight gain later, if you need to focus.

Dad badan ayaa walaacyo ka qaba cayilida markay go'aansadaan inay joojiyaan adeegsiga tubaakada. Nikootiintu waxay kordhisaa unugyada cayilka ee jirkaagu adeegsado waxayna noqon kartaa oomateed fure. Jirkaaga ayaa unugyada cayilka u gubi kara si aad u hoosaysa waxaadna dareemi kartaa gaajo dheeraad ah markaad joojiso adeegsiga tubaakada.

Inaad joojiso adeegsiga tubaakadu kama dhigna inaad cayilayso. Dadka qaar ayaa cayilkoodu kordhaa 4 ilaa 10 boon dhawrka bilood ee ugu horeeya markay joojiyaan tubaakada, laakiin dad badan ayaa cayilku ka dhacaa markay la qabsadaan nolosha isticmaal la'aanta tubaakada.

Diirada saar joojinta tubaakada. Way adkaan kartaa inaad tubaakada joojiso haddana iskudaydo inaad cayilka iska rido isla waqtigaas. Marka hore tubaakada jooji si aad caafimaad u hesho kadibna xal u raadi cayilka hadhoow, haddii aad u baahan tahay inaad muhiimad siiso.

Reasons why weight gain may occur

- You may eat to replace the behavior of smoking or using tobacco. You may feel the need to keep your hands or mouth busy.
- Instead of tobacco, food can become a substitute. You may eat during stress, boredom or at social events.

Sababaha keeni kara kororka cayilka

- Wuxaan cunto u cuni kartaa si aad u badasho dabeecada sigaar cabida ama adeegsiga tubaakada. Wuxaan dareemi kartaa baahi aad u qabto mashquulinta gacmahaaga iyo afkaaga.
- Halkii aad tubaako ka adeegsan lahayd, cuntada ayaa badal u noqon karta. Wuxaan cunto cuni kartaa markaad walaacsan tahay, caajiska ama markaad joogto munaasabada bulshada.

- Your sense of smell and taste may improve after quitting. When food tastes better, you may eat more, even if you are not really hungry.

- Dareenkaaga urka iyo dhadhanka ayaa soo hagaagi kara markaad tubaakada joojiso. Marka cuntadu kuu macaanaato, cadad dheeraad ah ayaad ka cuni kartaa, xataa haddii aan gaajo ku hayn.

You can reduce the chance of weight gain

If you eat a healthy diet and stay physically active, you can greatly reduce your chance of gaining weight. Have a plan to deal with stress, boredom or other situations that does not involve food. Try some of these tips to keep your weight under control.

- **Eat healthy:**

- Control your portion size. Chew slowly and enjoy each bite.
- Snack on healthy foods like carrots, apples or other fresh fruits and vegetables. Fresh vegetables are often low in calories.
- Limit foods that are high in sugar or fat such as candy, chips, soda, cakes or cookies.
- Drink 6 to 8 cups of water each day. Limit or avoid alcohol that can have lots of calories.
- Try sugar free gum, hard candy or a few sunflower seeds to cut the urge to snack.

- **Be active:**

- Take walks.
- Use the stairs instead of elevators.
- Park your car in the lot furthest away from the entrance.
