INGESTION HAZARD: This product contains at least one coin battery. DEATH or serious injury can occur if ingested or swallowed. A swallowed button cell or coin battery can cause Internal Chemical Burns in as little as 2 hours. KEEP new and used batteries OUT OF REACH OF CHILDREN. Seek immediate medical attention if a battery is suspected to be swallowed or inserted into any part of the body.

For safety reasons, please make sure you use the correct battery type: Polar H9 and H10: CR2025, 3V Polar T31 coded™ transmitter: CR2032, 3.0V (non-rechargeable). Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do NOT dispose of used batteries in household trash. Always use batteries may cause severe injury or death. Call a local poison control center for treatment information. Non-rechargeable batteries are not to be recharged.

Do not power discharge, recharge, disassemble, heat above 60°C / 140°F or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns. Ensure the batteries are installed correctly according to polarity (+ and -). Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children. Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.
