

Dengvaxia Pre-vaccination Checklist

Good news! A new dengue vaccine is available to protect your patients.

Does your patient meet ALL of these criteria?

Age

Is between the ages of 9–16

Lives in

- U.S. territories of Puerto Rico, U.S. Virgin Islands, and American Samoa
- Freely associated states of Federated States of Micronesia, Republic of Palau, and Republic of the Marshall Islands

Testing results

- Evidence of prior acute dengue virus infection with
 - Positive dengue RT-PCR test result, or
 - Positive dengue NS1 antigen test result
- **OR**, positive results on **BOTH** of the following dengue IgG antibody tests
 - EUROIMMUN **Anti-Dengue Virus NS1 Type 1-4 ELISA (IgG)*** and
 - CTK BIOTECH **OnSite Dengue IgG Rapid Test***

Allergies

Does **not** have a history of severe allergic reaction to a previous dose of Dengvaxia or any component of the vaccine

Immune suppression

Has **no** diagnosis or history of severe immunodeficiency or immunosuppression caused by disease or therapy

If you answer NO to ANY of these criteria,
your patient is **NOT** eligible for vaccination at this time.
