“Make Them New”

Within this document are images from our previously digitized videos which are now online at [aapb.org](http://aapb.org). The 2,006 media reels we propose to digitize through CLIR Funding are currently inaccessible. Based on contact with past KYUK producers and in reviewing our current database we are aware of many other items which capture Yup'ik lifestyles, culture and knowledge. We hope this sample of our currently digitized collection gives our a taste of what has yet to be seen and heard. KYUK owns full rights to all of the video content depicted in these images.
