

Oklahoma Department of Environmental Quality Tire Recycling Program

Statutory Changes

Pursuant to the definition for “used tire” in 27A O.S. § 2-11-401.1: “**waste tire**” is referred to as “used tire.” “**Tire dealer**” means any person engaged in the business of selling new and used tires to final consumers, not for resale.

Effective July 1, 2019, “**automobile**” means every motor vehicle constructed and used for the transportation of ten persons or less, including the driver, or used for the transportation of property. However, the automobile’s gross vehicle weight rating may not exceed sixteen thousand (16,000) pounds (example: car, SUV, pickup truck and other such passenger vehicles).

Tire manufacturers, retailers, wholesalers and retreaders can store up to **2,500** tires if they are in compliance with applicable Oklahoma Tax Commission requirements pursuant to 27A O.S. § 2-11-401.7.

Pursuant to 27A O.S. § 2-11-401.7, it is unlawful to remove more than ten used tires or reusable tires from the possession of the dealer unless the dealer provides a manifest form, approved by the Department of Environmental Quality (DEQ). A manifest form documents the removal and approved disposition or sale of the tires and accompanies the tires in transport. It is unlawful to transport used or reusable tires in violation of rules enforced by the DEQ.

A tire recycling fee is collected on any tire sold in Oklahoma that meet the requirements in 27A O.S. § 2-11-401.2

All fee changes effective July 1, 2019 (see reverse).

Tire Dealer Responsibility

Anyone who sells tires to a final consumer must obtain an Oklahoma tire recycling fee account through the Oklahoma Tax Commission (OTC) and collect the appropriate fees: https://oktap.tax.ok.gov/oktap/Web/_/#1.

The account is generated when the Oklahoma Business Registration Application is processed, or upon request.

The tire recycling fee must be collected in addition to the price of the tire. Tire dealers must forward the Oklahoma tire recycling fees to the OTC.

Please help us prevent mosquitoes and fires by storing your used and reusable tires in accordance to best management practices and local codes.

Qualified Applicants for Collection & Transportation (QACT):

Name

Four-D Corp.
Geocycle LLC
BFP/Oklahoma Tire Recyclers
RTR Environmental

Location

900 McCurdy Road
1100 West 18th Street
100 Old Trail Road
8802 Industrial Drive

City/State/Zip

Duncan, OK 73533
Ada, OK 74820
Bristow, OK 74010
Noble, OK 73068

Phone

(580) 255-8473
(580) 421-8984
(918) 367-9595
(405) 872-7877

You will need to provide your STW number upon pickup.
