RE: RCRA Permit Renewal Application – Administrative Notice of Deficiency (Response)  
HollyFrontier Tulsa Refinery LLC – West Facility (HFTRW)  
EPA ID # OKD058078775; RCRA Permit 058075775-PC

**Administrative Completeness**

Dear Mr. Moyer:

On December 3, 2018, the Oklahoma Department of Environmental Quality (DEQ) received the permit renewal application (Application) and issued an administrative Notice of Deficiency (NOD) dated March 25, 2019. On May 24, 2019, DEQ received the above referenced Response. HFTRW withdrew its request to end the post-closure period for the three (3) Land Treatment Units (LTUs) in a letter dated August 6, 2019. DEQ considers the administrative NOD addressed and therefore finds the application to be administratively complete.

Administrative Completeness does not constitute a determination of technical adequacy for the Application. A detailed review will be conducted by DEQ to ascertain its technical completeness. HFTRW will be notified of the result of the technical review once it is completed.

If you have any questions, please contact Jon J. Fields, Jr. at (405) 702-5145 or jon.fields@deq.ok.gov.

Sincerely,

Hillary Young, P.E.  
Chief Engineer  
Land Protection Division
