Report of the Executive Director on contributions, reductions and waivers of costs under General Rule XIII.4 (f) in 2020

Introduction

1. In accordance with General Rule XIII.4 (f), this report is submitted to the Executive Board for information and provides a summary of contributions that do not achieve full cost recovery received from governments of developing countries, countries with economies in transition and other non-traditional donors (General Rule XIII.4 (c)); contributions with reductions or waivers of indirect support costs (ISC) and, where applicable, direct support costs of an activity or activities (General Rule XIII.4 (d)) and; contributions from governments of developing countries and countries with economies in transition with a reduced indirect support cost rate as set by the Board (General Rule XIII.4 (e)).

Contributions from governments of developing countries, governments of countries with economies in transition, and other non-traditional donors (General Rule XIII.4 (c))

2. Many governments of developing countries and countries with economies in transition, and other non-traditional donors, support WFP operations through in-kind contributions of commodities or services under General Rule XIII.4 (c). In 2020, the value of such contributions was USD 13.6 million under twinning arrangements, up from USD 12.6 million in 2019. In-kind commodity, service and cash contributions were matched with USD 0.6 million of cash contributions from other donors, down from USD 6.8 million in 2019, and USD 7.8 million from the Emerging Donor Matching Fund (EDMF), up from USD 3.4 million in 2019. No ISC was waived on these contributions in 2019 or 2020.

* The Emerging Donors Matching Fund provided the funds to cover the support costs associated with these contributions.

Waivers of indirect support costs and direct support costs (General Rule XIII.4 (d))

- WFP's 2020 operations were also augmented through in-kind contributions of services and non-food items under General Rule XIII.4 (d). In 2020 these contributions increased to USD 27.4 million from USD 14.1 million in 2019. The increase in 2020 is attributed mainly to in-kind services provided by governments, non-governmental organizations and private entities in support of the COVID-19 response. The total estimated waived ISC in 2020 increased to USD 1.8 million from USD 0.9 million in 2019. No ISC on cash contributions or direct support costs were waived in 2020. Table 2 provides waived ISC details by donor, recipient country, and contribution amount.

TABLE 2: WAIVERS OF ISC IN RESPECT OF CONTRIBUTIONS IN-KIND TO COVER DIRECT SUPPORT COSTS

Reduced indirect support costs for contributions from governments of developing countries and countries with economies in transition (General Rule XIII.4 (e))

4. The Executive Board approved¹ a reduced ISC rate of 4 percent for governments' contributions to programmes in their own countries and contributions made by developing countries or countries with economies in transition. In 2020 the value of such contributions in the form of cash was USD 334.1 million, up from USD 132.6 million in 2019, with ISC of USD 12.9 million, up from 5.1 million in 2019. The increase in contribution value by 152 percent from 2019 can partly be explained by the increased demand for WFP's support in the implementation of country-owned projects financed by international financial institutions. Table 3 provides the details by donor country, contribution amount and reduced ISC.
