I. Overall Objectives

1. A Multi-year Programme of Work (MYPoW) 2020-2023 for the Regional Conference for Africa (ARC) was endorsed at the 31st Session of ARC virtually hosted by Zimbabwe from 26 to 28 October 2020.
2. The overall objectives of the MYPoW reflect the enhanced role of the Regional Conference in the governance process of FAO. In particular, the Regional Conference reviews the situation in the region regarding matters pertaining to the Organization's mandate, and provides advice and action-oriented recommendations to the FAO Conference on global policy and regulatory matters, and to the FAO Council on matters pertaining to the priorities, programmes and budgets of the Organization.
3. In this context, the Regional Conference for Africa (ARC) provides regional perspectives on FAO's strategies and priorities and formulates concrete recommendations on regional strategies and activities, with the aim to support the 2030 Agenda through the transformation to MORE efficient, inclusive, resilient and sustainable agrifood systems for *better production, better nutrition, a better environment, and a better life*, leaving no one behind. ARC also conducts regional-level assessments to feed into improved sustainability of agriculture, food security and nutrition. The Regional Conference also exercises oversight of the functions and activities of FAO in the region, in accordance with the Basic Texts of the Organization. It operates efficiently and effectively, collaborating where appropriate with relevant partner organizations.
4. The African Union Commission (AUC), through the Comprehensive Africa Agricultural Development Programme (CAADP), serves as a foundation for the work of ARC. The FAO Multidisciplinary teams' meetings (MDT), organized yearly at the subregional level, and the Regional Management Team Meeting (RMT) at the regional level review technical aspects and issues of importance to the CAADP and priorities for FAO's work in the region, for consideration by ARC.
5. The 27th Session of the African Commission on Agricultural Statistics (AFCAS) and the 19th Ordinary Session of the Committee for Inland Fisheries and Aquaculture of Africa (CIFAA) held in 2021 provided a platform for countries across the Africa region to engage in dialogue and deliberate on the collective direction of the thematic areas of work of the committees and/or commissions.
