

VENDOR NAME: Imager Software, Inc. (ISC)

SmartBUY Blanket Purchase Agreement (SmartBUY) Summary

A Federal government-wide ordering agreement with ISC has been established for software, training and maintenance on behalf of General Services Administration (GSA) SmartBUY. This contract reduces contracting and open market costs, such as search for sources, the development of technical documents, solicitations and the evaluation of bids and offers. This SmartBUY will further decrease costs, reduce paperwork and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The objective is to create a purchasing mechanism for the government that works better and costs less.

This BPA has been designated as a co-branded GSA/Federal Acquisition Service (FAS)/SmartBUY Program Management Office (PMO) and Department of Defense (DoD)/Enterprise Software Initiative (ESI) Agreement, which is open to all U.S. Executive Agencies (as defined in 48 CFR 21), including the DoD, authorized state and local government entities and authorized contractors, except as restricted herein.

Vendor Information

ISC is a full service software development company that provides a variety of software development and consulting services. In its geospatial practice, ISC offers data visualization, analysis and integration solutions..

GSA Contract #: GSQ0009AE0020

GSA Schedule 70

GSA Schedule #: [GS-35F-0636P](#)

DUNS Number: 805277969

Federal Tax ID#: 593030550

Product name: MapDotNet

Brief description of product line(s)

MapDotNet is a web-enabled GIS platform for enterprise applications and websites. MapDotNet offers a set of web services for rendering map images and tiles and for performing spatial analysis and editing.

MapDotNet consumes spatial data from multiple sources, including Shapefiles, PostGIS, ArcSDE and SQL Server 2008.

See [Products and Prices](#) of the agreement for a complete list of products and prices.
