

VENDOR NAME: Environmental Systems Research Institute, Inc. (ESRI)

SmartBUY Blanket Purchase Agreement (SmartBUY) Summary

A Federal government wide ordering agreement with ESRI has been established for software, training, and maintenance on behalf of GSA SmartBUY. This contract reduces contracting and open market costs such as: search for sources, the development of technical documents, solicitations, and the evaluation of bids and offers. This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The objective is to create a purchasing mechanism for the Government that works better and costs less.

This BPA has been designated as a GSA/FAS/SmartBUY PMO Agreement, which is open to all U.S. Executive Agencies (as defined in 48 CFR 21), including the DoD, except as restricted herein.

Product name: ArcGIS collection of GIS software products

Brief description of product line(s)

ArcGIS is an integrated family of GIS software products, which operate on desktop, server and mobile platforms. It provides a standards-based platform for spatial analysis, planning, data management and production and mapping. ArcGIS can be integrated with a variety of business intelligence tools an enterprise may already have. Additionally, it provides developers with tools to build and design own applications.

The existing SmartBUY continues to offer the ESRI product line and is also available on the GSA SmartBUY website. Information on pricing and terms and conditions is available on the GSA SmartBUY website.
