WORKING WITH THIS DOCUMENT

This PDF document is “searchable” by two methods: by “Table of Contents” or by “Find Word or Phrase.” The instructions below outline the steps for each method.

Search by “Table of Contents”:

- ◆ Locate the Table of Contents in the Report.
- ◆ A mouse click on an entry in the Table of Contents takes you directly to the specified page.

Search by “Find Word or Phrase”:

A search for a word/phrase is conducted as follows:

- ◆ From the text toolbar, click on “Tools” and “Find”, or from the icon tool bar, click on the binoculars icon.
- ◆ In the drop down dialog box, type the word/phrase to be found in the “Find What” line.
- ◆ Click on the “Find” button. The page containing the searched word/phrase (highlighted) will appear on the screen.
- ◆ To find additional locations of the word/phrase, click on “Tools” and “Find Again,” or click on the Binocular icon and “Find Again.” If you have Windows, click on the F3 button on your keyboard.
- ◆ Repeat the previous step until you reach the end of the document or press the “Cancel” button to end the search at any time.

1 Introduction

Coverage

This Inventory Report on Real Property Leased to the United States Throughout the World summarizes detailed data in the annual inventory prepared by the U.S. General Services Administration pursuant to the authority of the Federal Property and Administrative Services Act of 1949 (63 Statute 377), as amended.

The detailed inventory which supports this summary report covers all real property leased to the U.S. Government (including wholly owned Government corporations) throughout the world, as of September 30, 1998.

It includes real property leased from private individuals, organizations, and municipal, county, State, territorial, and foreign governments, as evidenced by a written agreement involving a monetary consideration and a landlord-tenant relationship. This report also includes the right of use and occupancy of real property obtained under eminent domain or equivalent proceedings by the Federal Government.

Real property leased rent free or for nominal rental is included when considered significant by the reporting agency.

Inventory data are presented in three major geographical groupings: (1) United States; (2) outlying areas of the United States (e.g., Commonwealth of Puerto Rico, Virgin Islands); and (3) foreign countries.

Reporting Entity Coverage. A reporting entity, for purposes of the detailed inventory, is a lease or combination of leases covering: (a) land; (b) buildings or portions thereof; (c) structures and facilities; or (d) combinations thereof. For each reporting entity, the detailed

inventory shows its name and location (State or foreign country, county, and city including street address where appropriate); predominant use and area of land; predominant use, number and floor area of leased building locations; effective and expiration dates of the lease; period of renewal option; coverage of structures or facilities in the lease, and the annual rental.

Each report submitted for this inventory contains a separate usage classification for land, each building location, and each structure or facility. For purposes of the inventory, the predominant use of the land, building location, or structure as of September 30, 1998, determines its classification. Thus, land leased primarily for storage purposes is so classified, even though certain portions thereof are used for other purposes. Similarly, building space leased primarily for office purposes is so classified even though small areas have other uses.

Acresage. Acresage data in this report are limited to the land area specified in the lease agreements and consist, for the most part, of land located separately and land leased in conjunction with building space. In many instances, acresage figures were not reported for land on which buildings are located since buildings leases frequently do not specify the land acresage.

Building Classifications. A building location represents a specific area obtained under a lease agreement, varying in size from a small room to an entire building. The number of buildings in which space is leased is smaller than the actual number of leases, as there may be several leases for space in a single building.

Building floor area data are based on square footage stated in lease agreements. Data on floor area of

housing space in foreign countries are generally estimated for the description of the dwelling in the lease.

Other Structures and Facilities. The Federal Government leases few structures and facilities other than buildings. When leased, these structures are sometimes combined with land or building space without a division of rental between the two types of real property. These data are not shown separately in this report since there is no common measure for other structures and facilities.

Annual Rental. The annual rental shown in this report represents the rental rate on the real property for a 12 month period. The following factors concerning the annual rental should be considered:

- (1) Rentals on leases made on a daily, weekly, or monthly basis have been converted to annual rates;
- (2) Annual rentals shown do not necessarily coincide with an agency's rental disbursements in fiscal year 1995 since some real property may not have been leased for a full year;
- (3) Annual rental rates for foreign leases payable in local currencies have been converted to dollars at official exchange rates;
- (4) Leases generally provide for a single rental amount and do not segregate the portion applicable to land, buildings, and other structures and facilities; and
- (5) Only leases in effect as of September 30, 1998, have been reported. Leases which expired prior to this date are not included.

Exclusions. Real property occupied under permit or similar arrangements with other Federal agencies or wholly owned Government corporations is excluded. Also excluded are rights-

of-way, easements, and leasehold improvements (Government-owned buildings or structures located on leased land are included in the federally owned real property inventory). Real property leased rent free or for nominal rent is excluded when considered insignificant by the reporting agency.

Source of Data

The real property data in this summary report are based on detailed inventory reports submitted by Federal agencies pursuant to Federal Property Management Regulations, subchapter A, part 101-3, Annual Real Property Inventories.

The reporting entity, for purposes of this inventory, is a lease or combination of leases covering: (a) land; (b) buildings or portions thereof; (c) other structures and facilities; or (d) combinations thereof. Real property leased to the United States is reported as follows:

A. Single Leases Single Reports.

Each lease executed for a building location(s), other structures and facilities, or combinations thereof (whether or not land is included), with a total annual rental of \$2,000 or more, is the subject of a single report. Each lease executed for land only, with an annual rental of \$500 or more, is the subject of a single report.

B. Multiple Leases Single Reports.

At the discretion of the reporting agency, a lease executed for a building location(s), other structures and facilities, or combinations thereof (whether or not land is included) with a total annual rental of less than \$2,000 is combined with similar leases to form a single report, provided the location(s) of the properties is in one of the following geographical areas:

- (1) The same major city (in the United States only limited to cities listed in Appendix 1, Table 7);
- (2) The same State (excluding leases for properties in major foreign cities); or
- (3) The same outlying area of the United States or foreign country.

A lease executed for land only, with an annual rental of less than \$500 is combined with similar leases to form a single report, provided it meets the location restrictions outlined in B. (1), (2), or (3) above.

Agency reports show the name and location of the leased property; predominant use and area of land; predominant use, number, and floor area of leased building locations; predominant use of structures and facilities; and the lease terms. The lease terms included the effective and expiration dates of the lease, the period of renewal option, and the annual rental. Civil agencies reported separately for each reporting entity throughout the world. The Department of Defense reported individually for each reporting entity in the United States. Defense also reported only overall summary data on total acres and total annual rental for its military functions in the outlying areas of the United States and in foreign countries.

Agency reports were carefully reviewed for accuracy, completeness, and conformance with instructions. Questionable items were resolved with agency representatives and the detailed inventory listings supporting the summary data in this report were certified by the respective agencies as to the accuracy of the data therein.

Background

The Governmentwide real property inventory program was initiated and is being continued pursuant to the desire of the Senate Committee on Appropriations. A comprehensive history of the real property inventory program is contained in the Senate Hearings on the Supplemental Appropriations Act, 1958 (Public Law 85-170). This report, together with its companion report on federally owned real property, published by the U.S. General Services Administration as of September 1998 furnishes a comprehensive presentation of the worldwide real property holdings of the United States. The availability of these data in a single place facilitates achievement of maximum control over, and utilization of, federally owned and leased real property. The inventories are used in the preparation of budgets by individual agencies and in the evaluation and appraisal of budgetary requests by the Office of Management and Budget and the Senate and House Appropriations Committees.

The Governmentwide real property inventory (both owned and leased) constitutes a central source of information to the Congress, Office of Management and Budget, General Accounting Office, General Services Administration, and various Federal agencies.

The availability of pertinent information in a single place covering all real property owned by, and leased to, the United States throughout the world serves to reduce the requirement for time-consuming special studies and inquiries. The real property inventory, in combination with other available data, is being used in planning space needs; in promoting fuller utilization of available

properties; in conducting property management and property accounting surveys; in the evaluation of budgetary requests for acquisition of real property; and in on site inspection activities.

The inventory is a ready reference to all the Government's holdings in a given area. This provides information which, prior to the inventory, was not available without site inspections and consultations with many agencies. The availability of the Governmentwide realty information has undoubtedly saved travel and administrative expenses.

Several of the real property holding agencies have indicated that the inventory is serving to promote better real property management; stimulate improvements in property accounting and reporting; provide data for operational and budgetary purposes; and for answering various inquiries on their realty holdings.

The U.S. General Services Administration collaborated with the General Accounting Office in providing appropriate guidelines to Federal agencies designed to assure consistent application of sound practices and adequate standards in accounting and reporting for owned and leased properties.

Inventory Availability

The real property inventory was established primarily to serve as a ready reference within the Federal Government of all of the Government's holdings (both owned and leased). As a by-product, copies of the worldwide detailed inventory listings, arranged both geographically and by reporting agency, are on file and available for public inspection at the Central Office of the U.S. General Services Administration in Washington, DC. Copies are also available in each GSA regional office covering the States within each regional area. See Appendix 2 for a list of regional offices and the areas under their jurisdiction.

Summary of Leasing Costs

Real property is leased to the Federal Government in every State, the District of Columbia, 4 outlying areas of the United States (e.g., Commonwealth of Puerto Rico, Virgin Islands, American Samoa, and Guam), and in 187 foreign countries, at a total annual rental of \$3,627.6 million. This rental is comprised of: (a) \$3,226.3 million in the United States; (b) \$14.6 million in outlying areas of the United States, and (c) \$386.7 million in foreign countries.

Federal Real Property

Summary data on real property leased inside the United States, by State and the District of Columbia, are shown in Appendix 1, [Table 5](#). Data on real property leased outside the United States, by continent and country, are shown in Appendix 1, [Table 9](#).

Civil agencies account for \$3,404.1 million (94 percent) and the Department of Defense accounts for \$216.2 million of the worldwide annual rental. These and other summary lease data are shown in [Table 2.1](#), by major geographical areas. (See also Appendix 1, [Table 1](#)).

The Department of Defense furnished only summary figures on total acres and total annual rental for its military functions located outside the United States. Therefore, the tables and charts in this report do not show detailed information, (e.g., number of leases, number of locations and floor areas of buildings, and geographical locations) for military functions outside the United States.

The General Services Administration and the U.S. Postal Service account for \$2,365.7 million (65.3 percent) of the total annual rental of \$3,627.6 million for real

property leased to 23 Federal agencies throughout the world.

Table 2.2 lists the annual rental of the major leasing agencies.

Additional summary data on the annual rental of real property leased to each reporting agency, by major geographical area, are shown in Appendix 1, **Table 3**.

The largest land-leasing agency is the Department of Defense which leases 1,038,198 acres (79.3 percent) of the 1,305,718 acres leased to the Federal Government throughout the World.

Table 2.3 shows the acreage leased to the principal land leasing agencies by major geographical area.

Summary data on acreage leased to each Federal agency are shown in Appendix 1, **Table 3**.

Land and Buildings Leased and Owned

The total land leased to and owned by the Federal Government throughout the world is 656.1 million acres, of which a minor portion, 1.3 million acres, is leased.

Table 2.4 shows the total acreage leased to and owned by the Federal Government throughout the world, by location. These data exclude 2 million acres of foreign base rights under the control of the Department of Defense. Occupancy of these bases is on a term basis, revocable at the discretion of the host government.

Civil agencies administer a total of 1.241 billion square feet of leased and owned building space throughout the world, of which 289.7 million square feet are leased.

The Department of Defense leases only a minor percentage of its total building space requirements in the United States. Data on building

space administered by Defense outside the United States were not reported. A comparison of leased and owned building space is shown in **Table 2.5**.

Appendix 1, **Table 2** provides additional summary data on real property leased to and owned by the Federal Government throughout the world.

Prior Year Comparison of Real Property Leased

A comparison of data for real property leased to the United States throughout the world as of September 30, 1998, and September 30, 1997, shows an increase of 3.9 million in annual rental, an decrease of 68.6 thousand acres of land, and a increase of .3 million square feet of building space.

Table 2.6 shows a comparison of summary inventory data as of September 30, 1998, and September 30, 1997.

Appendix 1, **Table 4** shows detailed comparative data on leased real property as of September 30, 1998, and September 30, 1997, with regard to acreage, building floor area, and annual rental for each reporting agency.

Table 2.7 shows the agencies which account for the major portion of the net change.

3 Real Property Leased In the United States

Summary

Real property leased to the Federal Government in the United States is comprised of 1.3 million acres of land, 275.8 million square feet of building space and various other structures and facilities. This real property is rented for a total annual rental of \$3,226.3 million.

The Department of Defense leased 1,016,330 acres (80.0 percent) of the total land leased to the Federal Government in the United States but only 20.4 million square feet (7.2 percent) of the leased building space. Civil agencies leased 255,210 acres and 255.4 million square feet of building space in the United States.

Table 3.1 summarized data in this report with respect to real property leased to the Federal Government in the United States.

Of the total land leased in the United States, 1.1 million acres are located in rural areas while 146.6 thousand acres are located in urban communities. Additional data on real property leased in the United States by location and agency are presented in Appendix 1, Tables 5,6, and 7. Data on real property leased in the United States by predominant usage are presented later.

By Agency

The General Services Administration, which is responsible for rental of office and storage space in the United States for most Federal agencies and Government corporations, and the U.S. Postal Service account for annual rental of \$2,357.2 million (73.4 percent) of the total annual rental of \$3,226.3 million for real property leased in the United States.

Table 3.2 summarizes data on real property leased in the United States, by major leasing agency.

Additional summary data on real property leased to the Federal Government in the United States, by agency and bureau, are shown in Appendix 1, **Table 6**

Figure 3.1 graphically presents the

total annual rentals paid for real property, by major leasing agency.

By State

The Federal Government leases real property in each of the 50 States and

Real Property Leased in the United States

the District of Columbia with Stateside annual rentals ranging from \$441.3 million in the District of Columbia, to \$4.4 million in Delaware. The general pattern is shown in **Figure 3.2**.

The annual rental for real property leased in the top nine States and the District of Columbia, as shown in **Table 3.3**, amounts to \$2,009.2 million (62.4 percent) of the Federal

Government's total annual rental of \$3,226.3 million in the United States.

Figure 3.2 graphically presents the annual rentals for leased real property, by State.

Although land is leased in every State and the District of Columbia, 719.8 thousand acres (57.3 percent) of the total land leased to the federal Government in the United States, are located in four States as shown in **Table 3.4**.

Summary data on real property leased to the Federal Government in each State are provided in Appendix 1, **Table 5**.

By Predominant Usage

Building space located in 76,357 building locations, containing 275.8 million square feet of space is leased to the Federal Government in the United States.

Leased building space is reported in 11 categories according to the predominant usage of the space. These categories are office, post

office, hospital, school, other institutional, housing, storage, industrial, service, research and

development, and all other.

Building space leased to the Federal Government ranges from 24.8 million square feet in Virginia to 420,226 square feet in Delaware.

Table 3.5 lists the 15 States and the

District of Columbia where 13.7 percent of the building space is located.

The United States Postal Service and the General Services Administration account for the

major portion of three of the principal predominant usage categories. This is shown in **Table 3.6**, which shows the distribution of building floor area for the major building usage categories, by principal leasing agencies.

Figure 3.1 shows the proportions graphically.

By Major City

Building space rented in or near 133 major cities by the Federal Government totals 120.2 million square feet. This space represents 43.5 percent of the Government's total leased building space requirements in the United States.

The annual rental for all real property leased in these major cities is \$1,650.8 million (51.5 percent) of the total annual rental for all real property leased to the Federal Government in the United States.

Washington, DC, Arlington, VA, and New York, NY, with annual rentals of \$441.1 million, \$215.9 million and \$96.3 million, respectively, lead all other cities in real property leased to the Federal Government.

Table 3.7 shows floor area and annual rental for property leased to the Federal Government in fourteen major cities in the United States.

Summary data on real property leased in each of the 133 major cities are shown in Appendix 1, **Table 7**.

Office space leased in major cities amounts to 71.0 million square feet (56.2 percent) of the total office space leased to the Federal Government in the United States.

Table 3.8 indicates the percentage of leased building space in the major cities, by predominant usage.

4 Real Property Leased Outside the United States

Summary

The annual rental for real property leased to the Federal Government outside the United States is \$401.3 million. Of this total, \$386.7 million (96.4 percent) is for real property leased in 187 foreign countries, and \$14.7 million is for real property leased in four outlying areas of the United States.

Fig 4.1 summarizes data for real property leased outside the United States. Data on the floor area of building space leased outside the United States were not reported by Defense, and, therefore, are not shown in the following table.

Appendix 1, *Tables 8 and 9*, contain additional summary data on real property leased to the Federal Government in outlying areas of the United States and in foreign countries, by agency and by location. These tables show complete supporting data for civil agencies only. The Department of Defense furnished only summary figures on total acres and total annual rental for its military functions located outside the United States.

Three agencies, Defense, State, and the Agency for International Development, account for \$329.3 million (85.0 percent) of the total annual rental outside the United States. Figure 4.1 presents annual rental data on real property leased outside the United States, by major leasing agency.

Leased to Civil Agencies

Civil agencies lease 12,310.9 acres, 34.3 million square feet of building space, and various other structures and facilities outside the United States at a total annual rental of \$328.4 million. This annual rental is comprised of \$13.4 million in outlying areas of the U.S. and \$314.9 million in foreign countries.

Outlying areas of the U.S. The General Services Administration and the U.S. Postal Service account for \$8.5 million (58.2 percent) of the

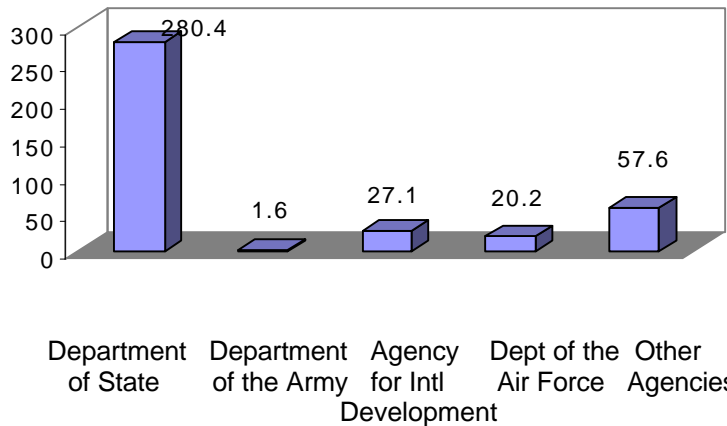

total annual rental for real property leased to civil agencies in outlying areas of the U.S. Table 4.2 lists the annual rentals and building space

Table 4.1 Real Property Leased Outside the United States

Figure 4.1 Annual Rental of Real Property Outside the United States (in millions of dollars)

Real Property Leased Outside the United States

for civil agencies which predominate in leasing activities in outlying areas of the U.S.

Civil agencies lease 1,508,133 square feet of building space in outlying areas of the U.S. Most of this space, 1,240,037 square feet, is leased in Puerto Rico for office and post office purposes. Detailed summary data on the amount of floor area leased to civil agencies in outlying areas of the U.S., by agency and bureau, are shown in Appendix 1, [Table 8](#).

Foreign countries. The Department of State and the Agency for International Development account for 97.5 percent of the total annual rental of \$314.9 million for real property leased to civil agencies in foreign countries.

The annual rental for real property leased in 10 countries listed in [Table 4.3](#) amounts to \$89.0 million (27.1 percent) of the total annual rental for real property leased to civil agencies in foreign countries.

Civil agencies lease 32.8 million square feet of building space in foreign countries. Of this total, 21.9 million square feet are used for housing purposes, and 7.2 million square feet are used for office purposes. Storage space accounts for most of the remaining 3.7 million square feet of leased building space. Over 99 percent of the building space in foreign countries is controlled by the State Department, Agency for International Development, Department of Agriculture, and the Peace Corps.

Additional summary data on real property leased to the Federal Government outside the United States, by location and agency, are provided in Appendix 1, [Tables 8](#) and [9](#).

Appendix 2

U.S. General Services Administration List of Regional Offices

Address

Regional Area

Region 1

10 Causeway Street
Boston, MA 02222

Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont.

Region 2

26 Federal Plaza
New York, NY 10278

New York, New Jersey, Puerto Rico, and the Virgin Islands.

Region 3

100 Penn Square East
Philadelphia, PA 19107

Maryland, Virginia, West Virginia, Pennsylvania, and Delaware.

Region 4

401 West Peachtree Street
Atlanta, GA 30365

Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee, and Kentucky

Region 5

230 South Dearborn Street
Chicago, IL 60604

Illinois, Indiana, Minnesota, Michigan, Ohio, and Wisconsin

Region 6

1500 East Bannister Road
Kansas City, MO 64131

Iowa, Kansas, Missouri, and Nebraska

Region 7

819 Taylor Street
Fort Worth, TX 76102

Arkansas, Louisiana, Oklahoma, Texas, and New Mexico

Region 8

Building 41, Denver Federal Center
P.O. Box 25006
Denver, CO 80225-0006

Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming

Region 9

525 Market Street
San Francisco, CA 95105

Arizona, California, Hawaii, and Nevada

Region 10

GSA Center
Auburn, WA 98002

Alaska, Idaho, Oregon, and Washington

National Capital Region

7th and D Streets, SW
Washington, DC 20407

District of Columbia, Maryland, and Virginia
