# WORKING WITH THIS DOCUMENT

*This PDF document is “searchable” by two methods: by “Table of Contents” or by “Find Word or Phrase.” The instructions below outline the steps for each method.*

## ***Search by “Table of Contents”:***

- ◆ Locate the Table of Contents in the Report.
- ◆ A mouse click on an entry in the Table of Contents takes you directly to the specified page.

## ***Search by “Find Word or Phrase”:***

A search for a word/phrase is conducted as follows:

- ◆ From the text toolbar, click on “Tools” and “Find”, or from the icon tool bar, click on the binoculars icon.
- ◆ In the drop down dialog box, type the word/phrase to be found in the “Find What” line.
- ◆ Click on the “Find” button. The page containing the searched word/phrase (highlighted) will appear on the screen.
- ◆ To find additional locations of the word/phrase, click on “Tools” and “Find Again,” or click on the Binocular icon and “Find Again.” If you have Windows, click on the F3 button on your keyboard.
- ◆ Repeat the previous step until you reach the end of the document or press the “Cancel” button to end the search at any time.

# 1 Introduction

## Coverage

This report summarizes detailed data in the annual inventory compiled by the General Services Administration (GSA) pursuant to the authority contained in the Federal Property and Administrative Services Act of 1949 (63 Statute 377), as amended.

The detailed inventory lists each Federal installation owned by the United States (including wholly owned Government corporations) throughout the world, as of September 30, 1998 (See page 3 for availability of detailed inventory to the public.)

### ***Federal Installation Coverage.***

For each Federal installation, the detailed inventory shows (1) name and location - State, county, and city, including street address where appropriate; (2) acreage - method of acquisition, dates acquired, predominant usage, and Cost of land; (3) buildings - number, square feet of floor area, dates acquired, predominant usage and Cost of buildings; and (4) predominant use and Cost of structures and facilities. Many of the larger installations, such as national parks and forests, wildlife refuges, dams and unreserved public domain lands in the various States, contain property in multiple counties. This inventory does not show the multiple counties in which these installations are located, but does indicate the reporting agency.

Each installation listed in the detailed inventory contains a usage classification for land, each building, and each structure or facility in the installation. The current predominant use of the land, building, or structure determines its classification. For example, buildings used primarily for storage purposes are classified storage even though certain portions of them are used for

other purposes. Similarly, land and other structures used primarily for storage purposes are classified as storage although each may have additional uses.

***Land*** This summary inventory report includes unreserved public domain land; public domain lands reserved for national parks, national forests, military installations, or other purposes; and land acquired by purchase, donation, and other methods. It also includes land in which the Government has a long-term interest which is considered by the reporting agency as being tantamount to ownership. Land is identified by urban or rural and is classified by method of acquisition. Methods of acquisition are shown in three categories: (1) public domain; (2) other (e.g., purchase, donation, exchange) and (3) long-term interest.

“Public domain” is defined to cover original public domain lands and those withdrawn from the original public domain for specific uses of the various Federal agencies. The term “original public domain land” embraces all the area to which title was vested in the U.S. Government by virtue of its sovereignty. Public domain lands also include lands within Federal ownership which were obtained by the Government in exchange for public domain lands which have reverted to Federal ownership through the operation of public land laws.

“Long-term interest,” for purposes of this inventory, is defined to cover land in foreign countries in which the U.S. Government has a long-term interest; such as, that acquired by treaty or long-term lease (i.e., 99 years, in perpetuity), and which the reporting agency, as a matter of policy, considers as the equivalent of ownership by the United States.

“Other” is defined to cover land acquired by purchase, condemna-

tion, donation, exchange, and other methods of acquisition (other than public domain or long-term interest).

***Buildings, Other Structures, and Facilities*** Buildings and other structures and facilities owned by the Government, whether or not located on Government-owned land, are included in this report. Buildings and other structures and facilities under construction are included only if they were available for use as of September 30, 1998.

### ***Excess and Surplus Real***

***Property.*** Real property excess to the needs of the reporting agency or surplus to the needs of the United States is included in this report but is not separately identified. However, the supporting detailed inventory provides an indication of those installations for which all or some portion may be excess or surplus. The reporting agency retains accountability for excess and surplus real property until it is transferred to another Federal agency, sold, or otherwise disposed.

***Cost Basis*** The Federal Government accounts for real property in accordance with principles prescribed by the General Accounting Office in Title 2, subsection 12.5 of Accounting Principles and Standards for Federal Agencies. Estimated costs (preferably from the date of acquisition) are used when actual costs are not reasonably ascertained.

All properties are reported at actual or estimated Cost without considering depreciation, obsolescence, or economic changes in value. The Cost of properties acquired through donation, exchange, devise, forfeiture, or judicial process is estimated at amounts the Government would have had to pay for properties if purchased at the date of acquisition by the Government.

Costs applicable to buildings include permanent type items such as plumbing, elevators, heating, and lighting fixtures, and air-conditioning systems normally required for the functional use of a building, as well as other capital improvements. In addition, Cost includes items such as safes, vaults, and truck scales, which are built into the structures or are permanently affixed.

No costs are included in this report for: (1) unreserved public domain; (2) public domain reserved for national parks, national forests, military installations, and other purposes; and (3) historical sites acquired by methods other than by purchase. However, the acreage for such lands is included in the inventory.

Public domain lands are shown by agency and State in Appendix 1, Tables 3 and 4, respectively.

### Other Coverage

Data on properties held in trust by the Federal Government are not commingled with data on federally owned real property. Data on trust properties are limited to acreage and number of buildings and are shown separately in Section 5 and Appendix 1, Table 10.

Properties managed by the Architect of the Capitol are shown separately in Section 6 of this report. Data for these properties are not included in other sections, summary tables, or charts.

**Exclusions** Excluded from the inventory are lands administered by the United States under trusteeship by authority of the United Nations. Also excluded are lands owned by the sovereign governments of the various outlying areas of the United States. Property owned by the District of Columbia government is similarly excluded.

The inventory excludes properties acquired through foreclosure, confiscation, or seizure to be disposed of in settlement of a claim or debt to the Federal Government.

Machinery, processing equipment, demountable and movable structures, as well as furniture and special use items which are not considered part of the realty reported, are also excluded from the inventory.

Easements, rights-of-way, as well as improvements to land, buildings, or structures and facilities occupied by the Government as lessee, are excluded. However, federally owned buildings and/or structures and facilities located on leased land are included.

### Source Data

The summary real property data in this report are based on detailed inventory reports submitted by Federal real property holding agencies pursuant to Federal Property Management Regulations, subchapter A, part 101-3, Annual Real Property Inventories. These detailed inventory reports are prepared from property and accounting records and files maintained by the individual agencies in accordance with their own policies and procedures.

The reporting entity, for purposes of this inventory, is an installation. An installation may consist of land, buildings, other structures and facilities, or a combination of them. Installations vary in size and type. Some examples of installations are a national forest, a national park, a hydroelectric project, a single office or warehouse building, or an unimproved site.

Civil agencies reported separately for each installation throughout the world. The Department of Defense reported individually for each instal-

lation in the United States and summary data only on total acres and total Cost for its military functions in outlying areas of the United States and in foreign countries.

Agency reports were carefully reviewed for accuracy, completeness, and conformance with instructions. Questionable items were resolved with agency representatives and the detailed inventory listings supporting the summary data in this report were certified by the respective agencies.

### Background

The Governmentwide real property inventory program was initiated and is being continued pursuant to the desire of the Senate Committee on Appropriations. The first inventory covered only federally owned real property in the United States, as of December 31, 1953. The program has been expanded to include annual inventories, as of September 30, covering all real property owned by and leased to the United States throughout the world. A comprehensive history of the real property inventory program is contained in the Senate hearings on the Supplemental Appropriations Act, 1958 (Public Law 85-170).

The House Committee on Government Operations also is interested in this inventory program. Biennially, special tables summarizing inventory data on federally owned real property are furnished to this committee for inclusion in its real and personal property inventory report.

The Governmentwide real property inventory constitutes a central source of information to the Congress, Office of Management and Budget, General Accounting Office, General Services Administration, and various federal agencies.

The availability of pertinent information in a single place covering all real property owned by and leased to the United States throughout the world serves to reduce the requirement for time-consuming special studies and inquiries. The detailed inventory listings are used as a screening device and serve as an indicator in identifying potential sites or buildings for current or future needs.

The inventory is a ready reference to all of the Government's holdings in a given area. This provides information which, prior to the inventory, was not available without consultations with many agencies and site inspections.

The real property inventory, in combination with other available data, is used in planning space needs; in promoting fuller utilization of available properties; in conducting property management and property accounting surveys; in the evaluation of budgetary requests for acqui-

sition of real property; and in facilitating on-site inspection activities.

The General Services Administration collaborated with the General Accounting Office in providing appropriate guidelines to Federal agencies designed to assure consistent application of sound practices and adequate standards in accounting and reporting for owned and leased properties.

The Department of Education uses the inventory regularly in the administration of Public Laws 815 and 874 (81st Congress) for determining payments to school districts based on Federal property located in such districts. The availability of the inventory has enabled the Department to readily identify ineligible claims by applicants for Federal grants under those laws.

### **Inventory Availability**

The real property inventory was established primarily to serve as a ready reference within the Federal

government to all of the Government's holdings. As a by-product, copies of the worldwide detailed inventory listings, arranged both geographically and by reporting agency, are on file and available for public inspection in the Central Office of the General Services Administration in Washington, D.C. Copies are also available in each GSA regional office. See Appendix 2 for a list of regional offices and the areas under their jurisdiction. Additionally, by special request the detailed inventory listings are available for sale at the Central Office of GSA in Washington, D.C.

Universities, libraries, trade associations, the press, and the general public continually express interest in data derived from the inventory. State and local governments have been furnished data to be used in connection with tax studies. Planning commissions use the inventory in developing proposals for tomorrow's communities.

## 2 Federal Real Property Owned Throughout the World

### Summary of Acquisition Costs

The acquisition Cost of real property owned by the Government throughout the world as of September 30, 1998, was \$244.3 billion, an increase of \$21.9 billion from last year. This section summarizes and explains the more significant changes in Federal real property during the past year.

**Table 2.1** summarizes data in this report on Federal real property throughout the world. (See Appendix 1, **Table 1**, for further detail).

The Department of Defense furnished only summary data on total acres, and total for its military functions located outside the United States. Therefore, the above table and all other charts in this report do not show detail information for military functions outside the United States.

The Federal Government owns real property in each of the States, 17 outlying areas of the United States (e.g., Commonwealth of Puerto Rico, Guam) and 140 foreign countries. Summary data on Federal real property within each State and the District of Columbia are shown in Appendix 1, Table 6, while data on federally owned real property outside the United States within each country are shown in Appendix 1, Table 9. The costs of federally owned real property in each of the major geographical areas is shown in **Figure 2.1**.

The Department of Defense owns real property costing \$132.8 billion, (54.4 percent) of the total cost of \$244.3 billion. **Table 2.2** shows the Cost of federally owned real property by major reporting agency and by major geographical groupings.

Additional summary data on the Cost of Federal real property of each

reporting agency by real property category and location are shown in Appendix 1, **Table 2**.

The United States Government owns 655 million acres throughout the world. It is all located in the United States except for 186.7 thousand acres.

Of the 654.9 million acres of federally owned land in the United States 589.7 million acres, (90 percent) are public domain. **Table 2.3** shows Federal land by methods of acquisition and by major geographical area.

Table 2.3 excludes acreage for foreign base rights under control of the Department of Defense resulting from international agreements with foreign countries where occupancy is on a term basis revocable at the discretion of the host government.

The Federal Government also holds in trust 52.0 million acres consisting principally of Indian reservations in

2/ These data are not furnished by the Department of Defense

3/ This excludes data from Outlying Areas and Foreign Countries

the United States. (See Section 5 for detailed data).

Figures 2.2 and 2.3 shows the worldwide distribution of land owned by the United States by method of acquisition and controlling agency.

The Department of the Interior, with responsibility for the Nation's unreserved public domain, the national parks, wildlife refuges, and reclamation projects, leads all agencies in holdings. This Department controls 444 million acres, (67.7 percent) of the total of 655 million acres owned by the United States. The Department of Agriculture, with responsibility for the national forests, is the second largest landholder and controls 189.5 million acres, (28.9 percent) of the total.

Table 2.4 shows the acreage of the principal land controlling agencies by major geographical areas.

Additional summary data on federally owned acreage throughout the world by agency are shown in Appendix 1, Tables 2 and 3.

**Prior Year Comparison of Real Property Owned**

A comparison of floor area, land, and floor area and land costs of Federal real property throughout the world as of September 30, 1998, and September 30, 1997, shows an increase in Total Cost of \$21.9 billion, an increase of 92 million acres of land, and a decrease of 24 million square feet of floor area. These data are shown in **Table 2.5**.

Detailed data on real property changes in acreage, floor area and total Cost for each reporting agency during the fiscal year may be found in Appendix 1, **Table 5**. Analysis of substantial or significant changes on Cost, acreage, and floor areas are set forth below.

**Figure 2.2 Land Owned by the U.S. by Acquisition Method**

**Figure 2.3 Land Owned by the U.S. by Agency**

**Cost**

**Table 2.6** shows the agency accounting for the increase in Cost for all real property (land, buildings, and structures and facilities).

**Acreeage**

A net increase of 92 million acres in federally owned land as of September 30, 1998.

**Floor Area**

**Table 2.7** shows the agencies accounting for the major changes in floor area of Federal buildings.

The floor area of Federal buildings decreased by 24 million square feet in the fiscal year ending September 30, 1998.

# 3 Federal Real Property Owned in the United States

## Summary

The Federal Government owns approximately 28,486 installations in the United States comprising 655 million acres; 2,910.1 million square feet of floor area and various other structures and facilities.

Federal real property is located in each of the 50 States and the District of Columbia and Cost \$229.4 billion, (93.9 percent) of the total worldwide Cost of \$244.3 billion. Appendix 1, Table 6, contains summary data on Federal realty by States.

A distribution of the Cost of \$229.4 billion, by type of Federal real property in the United States, is shown graphically in **Figure 3.1**.

Figure 3.1 shows that structures and facilities represent \$84.4 billion (36.7 percent) of the total Cost of Federal real property in the United States. Structures and facilities owned by the Federal Government include utility systems; communication systems; roads and bridges; railroads; monuments and memorials; airfield pavements; harbor and port facilities; hydroelectric and other power development projects; reclamation and irrigation projects;

underground vaults; sliding ship ways, sidewalks, and parking areas.

The Federal Government owns 655 million acres in the United States consisting of 590 million acres of public domain land and 65.2 million acres acquired by purchase, donation, and other methods. No Cost is recorded by the agencies, or reported, for the 590 million acres of public domain. The total Cost reported for the 65.2 million acres acquired by purchase, donation, and other methods is \$18.3 billion. Appendix 1, Table 4 contains summary data on Federal land in each State by method of acquisition and compares this acreage with the total land in the State.

In addition to the federally owned acreage, the Government holds 52.0 million acres in trust consisting principally of Indian reservations. No Cost is reported for acreage held in trust. Appendix 1, Table 10, and Section 5 contain summary data on trust acreage by State.

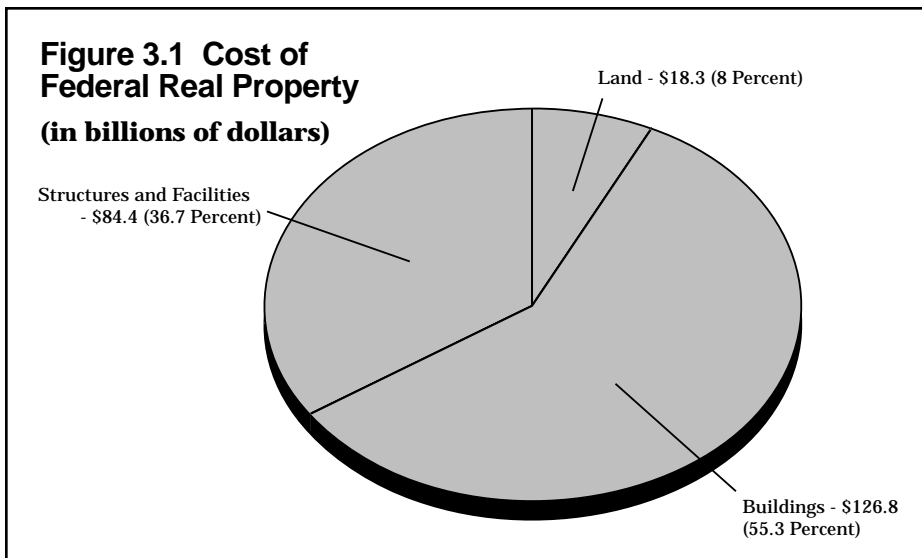

The Federal Government owns 420,440 buildings in the United States ranging from 6.6 million square feet in the Pentagon to less than 100 square feet of storage, service, or other purpose space in small

buildings located throughout the United States. Federal buildings in the United States contain a total of 2.9 billion square feet and Cost \$126.8 billion.

## By Agency

The Department of Defense controls more federally owned building space in the United States than any other Government agency and also leads in the total Cost of real property. Defense controls 1,994.6 million square feet of Federal buildings, (68.5 percent) of the total in the United States. This Department's real property costs \$119.7 billion, (52.2 percent) of the total Cost of all Federal real property in the United States.

The Departments of Interior and Agriculture together own 633.4 million acres, (96.7 percent) of the total federally owned land in this country. **Table 3.1** summarizes data in this report on the Federal real property in the United States by major reporting agency. Appendix 1, Table 2 shows additional summary data on acreage, floor area and total Cost by agency. Data by bureau or other major organizational unit are shown in Appendix 1, **Table 7**.

**By State**

The Federal Government owns real property in each of the 50 States and the District of Columbia which ranges in Cost from \$16.5 billion in California to \$125.1 million in Vermont. The Cost of real property in the District of Columbia is \$3.3 billion.

California leads other States in Cost of federally owned real property (\$16.5 billion) and in floor area (408 million square feet). Alaska leads in federally owned land with 248.3 million acres, (37.9 percent) of the total federally owned land in the United States. See **Table 3.2**.

The Federal Government owns practically all the land in Alaska, most of which is public domain land in the forest and wildlife usage category.

The Federal Government owns 356.1 million acres (47.3 percent) of the acreage in the 11 Western States. These lands are principally public domain used for national forest, national parks, and grazing. These three categories of land usage comprise 622 (94.9 percent) of the total federally owned 655 million acres in the United States.

**Figure 3.2** is a map of the United States, indicating the percent of federally owned land in each State.

Summary data on the amount of federally owned land in each State by method of acquisition and a comparison of federally owned land with the total acreage of each State are shown in Appendix 1, **Table 4**. Data

on the amount of urban and rural federally owned land in each State are found in Appendix 1, **Table 6**.

est and wildlife. The number of acres in each major usage category is shown in **Table 3.3**.

Certain agencies, because of their assigned functions, control major portions of the acreage in each of the principal land usage categories. For example, the Department of Interior leads in five of the land usage categories. **Table 3.4** shows the acreage for each major land usage category by principal controlling agency.

The Cost for the 65.2 million acres of federally owned land acquired by purchase or other methods is \$18.3 billion.

**Table 3.5** shows the Cost of federally owned land by predominant usage category. Additional data on federal-

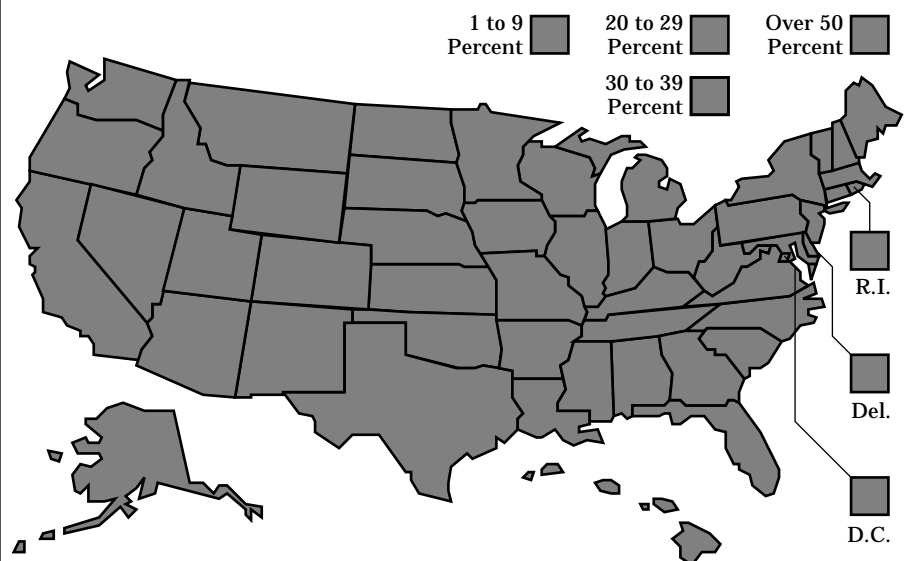

ly owned land by predominant usage, controlling agency and State, are shown in Appendix 1, **Tables 11** and **12**.

**Buildings by Predominant Usage**

The Federal Government owns 420,440 buildings in the United States with a gross floor area 2.9 billion square feet. The total Cost of these buildings is \$126.8 billion.

In the United States, 74.1 percent of the floor area of Federal buildings, 2.2 billion square feet, is used for housing, service, storage, and office. In terms of Cost, these categories comprise \$78.2 billion, (61.7 percent) of the total Cost of \$126.8 billion for buildings in the United States.

**Figure 3.2 Land Owned**

Hawaii	0.7	4.1	14.75
<b>Total</b>	<b>654.9</b>	<b>2,271.3</b>	<b>28.83</b>

Figure 3.3 graphically illustrates the floor area and Cost of Federal buildings by predominant usage category. Additional data on federally owned buildings by controlling agency and State, are shown in Appendix 1, Tables 13 and 14.

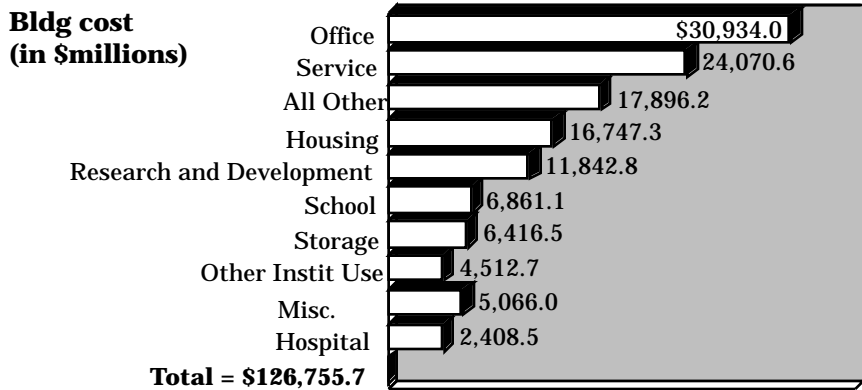

**Structures and Facilities by Predominant Usage**

The Federal Government owns structures (other than buildings) and facilities in the United States costing \$84.3 billion. Six usage categories: power development and distribution; flood control and navigation; utility systems; roads and bridges; reclamation and irrigation; and airfield pavements account for \$54.4 billion, (64.5 percent) of the total Cost of structures and facilities in the United States.

Table 3.6 gives the major usage categories of Federal structures and facilities in the United States.

The Department of Defense controls buildings which account for the major portion of four of the six leading usage categories. This is illustrated in Table 3.7 which shows data for the major building usage categories, by principal controlling agency. The Department of Defense accounts for the major portion of Cost in 12 out of the 17 predominant usage categories of structures and facilities. This is illustrated in Table 3.8.

**Figure 3.3  
Floor Area and Cost of Federally-Owned Buildings in the U.S.**

# 4 Federal Real Property Owned Outside The United States

## Summary

The Federal Government owns real property outside the United States with an acquisition Cost of \$14.7 billion, (6 percent) of the total worldwide Cost of \$244.3 billion. The \$14.7 billion is comprised of \$353 million for Federal real property in outlying areas of the United States (e.g., Commonwealth of Puerto Rico, Guam, etc.) and \$14.5 billion for Federal real property in foreign countries.

**Table 4.1** shows the Cost of federally owned real property outside the United States by agency.

The United States Government owns 186.6 thousand acres outside the United States of which 80.7 thousand acres are located in outlying areas of the United States and 105.9 thousand acres in foreign countries.

**Table 4.2** shows the agencies reporting the major portions of acreage outside the United States.

Appendix 1, **Tables 8** and **9** contain data on Federal real properties located in outlying areas of the United States and in foreign countries. These tables show complete supporting data for civil agencies only. The Department of Defense furnished only summary figures on total acres and total costs for its military functions located outside the United States.

## Buildings, Other Structures, and Facilities Of Civil Agencies

Data on buildings and other structures and facilities outside the United States are reported by all civil Federal agencies. The total Cost reported for these buildings and other structures and facilities is \$1.525 billion.

Outside the United States, these

agencies own 4,358 buildings with a total floor area of 34.9 million square feet and an acquisition Cost of 644.6 million. The State Department and the Panama Canal Commission control more than 27.6 million square feet, (79.1 percent) of the total floor area, costing \$328.1 million, (50.9 percent) of the total Cost of federally owned buildings

outside the United States.

**Table 4.3** summarizes building data by selected civil agencies for properties outside the United States.

The principal usage's of buildings owned by civilian agencies outside the United States are housing and office space which account for 26.3 million square feet of floor area cost-

ing \$413 million. The floor area and Cost of buildings by predominant usage are shown in **Table 4.4**.

Federal agencies reported structures and facilities other than buildings outside the United States costing \$880 million.

Harbor and port facilities, chiefly in the Panama Canal account for \$338 million, (38.4 percent) of the total Cost of structures and facilities outside the United States.

Additional summary data on federally owned buildings and other structures and facilities located outside the United States can be found in **Table 4.5** and Appendix 1, **Tables 8** and **9**.

## 5 Real Property Held in Trust by the Federal Government

### Summary

The Federal Government holds in trust 429 installations, comprising 52.0 million acres and 274 buildings. These properties are under the control of five agencies: Department of the Interior; Department of Health and Human Services; Department of Treasury; NARA, and the Smithsonian Institution. The principal holder of trust properties is the Department of the Interior, mainly for Indian tribal lands.

Trust properties, primarily land, are located in 35 States including the District of Columbia. The total of 52.0 million acres ranges from 1 acres in Georgia to 19.8 million acres in Arizona.

**Table 5.1** summarizes data for the principal States in which property is held in trust by the Federal Government.

Additional summary data on trust properties held by the United States are detailed in Appendix 1, [Table 10](#).

**Table 5.1 Property Held in Trust Listed by Principal State**

## **Total Area of Properties Comprising Capitol Buildings and Grounds**

**(Defined IN 40 U.S.C. 193A and 193M)**

(Includes both building sites and surrounding grounds)	Acres
1. Capitol Building and Grounds (includes Square 764 acquired 1973 - 2.2 acres) (items 2 to 21 excluded)	129.2
2. Old Senate Office Building (Square 686)	4.0
3. New Senate Office Building (Square 725 - 1948 acquisition 3.0 acres; squares 724 and 725 - 1958-1959 acquisitions as Extension of Additional Senate Office Building Site 4.4 acres)	7.4
4. Extension of Additional Senate Office Building Site (Square 724 and 725 - 1970 acquisitions - Capitol Hill Apartments - 127 C Street, N.E., 2 houses - 129-131 C Street, N.E.; 13 houses - Schotts Alley) (27,644 sq. ft. in all)	0.6
5. Extension of Additional Senate Office Building Site ( Square 724 - Plaza Hotel Properties acquired 1970 17,000 sq.ft.; Valanos property acquired in 1972 - 9667 sq.ft.)	0.6
6. Extension of Additional Senate Office Building Site (Square 725 - National Woman's Party - 2 houses - acquired in 1972 - 4,140 sq. ft.)	0.1
7. Acquisition of Properties in Square 724 to provide for construction of parking facilities for senate	
(1) Immigration Building acquired in 1974	0.7
(2) 10 privately-owned properties acquired in 1975	1.1
8. Cannon House Office Building (Square 690)	5.0
9. Longworth House Office Building (Square 689)	2.0
10. Rayburn House Office Building (Square 635); 2 Underground Garages (Squares 637 and 691); Squares 639, 692, South of 635	15.4
11. FBI Building Site - acquired April 1975 (approx.)	3.1
12. Streets added to Capitol Grounds by D.C. Home Rule Act - 1/1/75	5.0
13. Square 636 (Old Laboratory Site); now occupied by part of the Rayburn House Office Building	2.0
14. Steets added by Public Law 96-432	27.0
15. Lot 49 contained in Square 582, added by Public Law 96-432	1.6
16. Lot 70 contained in Square 640, added by Public Law 96-432	3.3
17. Lots 1, 2, 800, 801, 815 through 817. 819 through 822 contained in Square 693, added by Public Law 96-432	0.6
18. Streets and Contiguous Area added by Public Law 97-379	1.9
19. Lots 67, 79, 80, 807, 814, 818 and 834 contained in Square 693, added by Public Law 97-276	0.8
20. Part of U.S. Reservation 17, site of 501 First Street, S.E.	0.9
21. Lot 803, Square 695 added as an addition to the United States Capitol Grounds, by transfer on November 1, 1987, under authority of Public Law 84-24, additional House Office Building Act of 1955, known as Coal Yard located at 42 I Street, S.E.	2.4
<b>Total (as of September 30, 1994)</b>	<b>214.7</b>

## 6 Federal Real Properties Under the Legislative Branch

### Summary

Properties under the Legislative Branch include the buildings and grounds of the U.S. Capitol, the Capitol Power Plant, the Library of Congress, the U.S. Botanic Garden, and the Thurgood Marshall Judicial Office Building. Also included in this section is the U.S. Supreme Court Building, which comes under the Chief Justice of the United States. The Architect of the Capitol is responsible for the physical care of all of these properties.

### U.S. Capitol Buildings and Grounds

These include all the properties occupied by the Congress, as listed in **Table 6.1** and summarized below.

The land includes 215.3 acres acquired by purchase and transfer between 1791 and 1995 at a total cost of \$53,226,528.

The buildings were constructed between 1793 and 1995 at a cost of \$622,894,636 and contain a total of 8,300,832 square feet.

Assignment of space in The Capitol is the responsibility of the Speaker of the House of Representatives and the Senate Committee on Rules and Administration; in Senate office buildings and the Senate garage, the Senate Committee on Rules and Administration; in House office buildings, the House Office Buildings Commission; and in the House garages, the Committee on House Administration, Subcommittee on Services.

### Capitol Power Plant

The Capitol Power Plant supplies heat and air conditioning for The Capitol, the Senate and House office buildings, the Library of Congress buildings, the U.S. Supreme Court Building, and the Folger

Shakespeare Library. It also provides heat for the U.S. Botanic Garden, the Senate garage, the Government Printing Office, the Washington City Post Office, and the Union Station complex. The Plant is under the control of the House Office Building Commission, but the Architect of the Capitol is responsible for its physical care and operation.

The land, 6.3 acres, was acquired by transfer in 1904 without cost by Act of Congress.

**Buildings.** The main power plant is 244 by 117 feet with a maximum height of 85 feet. The old refrigeration plant is 123 by 80 feet and about 83 feet high.

Walk-through tunnels containing steam and chilled water distribution lines were constructed between 1904 and 1954 at a cost of \$30,467,809.

Operations buildings were constructed between 1974 and 1982 at a total cost of \$30,556,620 contain 11,950 square feet of space.

### Library of Congress

The Library of Congress occupies a total of 23.6 acres acquired by purchase and transfer between 1886 and 1992 at a cost of \$10,504,413. Occupancy and use of the buildings and grounds are controlled by the Congress. The Librarian of Congress is responsible with all care, including assignment of space, not tasked to the Architect of the Capitol.

**Buildings.** The Jefferson and Adams buildings were constructed between 1889 and 1938. The total floor area is 1,428,000 square feet and the cost was \$122,652,839. The James Madison Memorial Building was constructed between 1972 and 1983, has a floor area of 2,106,200 square feet and cost \$137,152,890.

The most recent addition, the Library of Congress Special Facilities Center (formerly St. Cecilia's School) has a land area of 0.6 acre and a floor area of 40,412 square feet. The Center cost \$4,200,000 to buy and repairs/alterations cost \$2,000,265.

### U.S. Botanic Garden

The U.S. Botanic Garden, including the Poplar Point Nursery, is under the control of the Joint Committee on the Library. The Architect of the Capitol serves as its Acting Director.

Land acquired between 1851 and 1946 by purchase, transfer, and public domain totals 5.8 acres costing \$981,140.

The acreage is improved with conservatories, greenhouses, office and storage space, and potting sheds constructed between 1873 and 1962. They cover 89,000 square feet and cost \$5,321,029.

### U.S. Supreme Court

This category includes property under the Chief Justice of the United States, occupied by the United States Supreme Court and the Administrative Office of the U.S. courts.

The Marshal of the Court is responsible for all care not tasked to the Architect of the Capitol, except for assignment of space.

Total area consists of 8.4 acres acquired by purchase between 1929 and 1983 at a cost of \$2,405,559.

**Buildings.** The U.S. Supreme Court Building was constructed between 1931 and 1935 at a cost of \$21,106,052. Its total floor area is 392,700 square feet. Administrative offices are in the Thurgood Marshall Federal Judiciary Building, constructed between 1988 and 1992. The Thurgood Marshall Building has

## Federal Real Properties Under the Legislative Branch

---

a floor area or 1,010,200 square feet.  
Cost of the facility was \$18,503,391.  
Title to the building will revert to  
the Government upon repayment of  
borrowed funds in the year 2024.

## Appendix 2

## U.S. General Services Administration List of Regional Offices

### Address

### Regional Area

#### ***Region 1***

10 Causeway Street  
Boston, MA 02222

Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont.

#### ***Region 2***

26 Federal Plaza  
New York, NY 10278

New York, New Jersey, Puerto Rico, and the Virgin Islands.

#### ***Region 3***

100 Penn Square East  
Philadelphia, PA 19107

Maryland, Virginia, West Virginia, Pennsylvania, and Delaware.

#### ***Region 4***

401 West Peachtree Street  
Atlanta, GA 30365

Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee, and Kentucky

#### ***Region 5***

230 South Dearborn Street  
Chicago, IL 60604

Illinois, Indiana, Minnesota, Michigan, Ohio, and Wisconsin

#### ***Region 6***

1500 East Bannister Road  
Kansas City, MO 64131

Iowa, Kansas, Missouri, and Nebraska

#### ***Region 7***

819 Taylor Street  
Fort Worth, TX 76102

Arkansas, Louisiana, Oklahoma, Texas, and New Mexico

#### ***Region 8***

Building 41, Denver Federal Center  
P.O. Box 25006  
Denver, CO 80225-0006

Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming

#### ***Region 9***

525 Market Street  
San Francisco, CA 95105

Arizona, California, Hawaii, and Nevada

#### ***Region 10***

GSA Center  
Auburn, WA 98002

Alaska, Idaho, Oregon, and Washington

#### ***National Capital Region***

7th and D Streets, SW  
Washington, DC 20407

District of Columbia, Maryland, and Virginia
