1	B	mixed paper, clear glass, cardboard, plastic 1-7, newspaper, metal, tires, shingles	Adair County Transfer Station	Transfer Station	Adair County - drop off and curbside	City Carton Primarily	4,238		Greenfield	1645 State Highway 25	41.412	-84.455	Adair	Adair	Frisbe Delmar - Adair City Smt. Landfill owner	adfr@wdfwblaw.net	641-743-0133	
2	B	plastic #1-2, office paper, newspaper (no magazines/glossy paper), OCC, aluminum and tin cans, cardboard, egg cartons, glass bottles - (aluminum, tin) and sells it to Wisconsin County Recycling, paper/fiber - given loose to Town and County Sanitation in Wisconsin	Allamakee County CCC	Citizen Convenience Center					Waukon (Same as Rural Recycling Center?)	869 Highway 9	41.315	-91.454	Allamakee	Allamakee	Dave Mooney - Allamakee county SWM Agency	awmf@askysways.com	(563) 568-4806	
3	K		Anderson Excavating C&D Landfill	Construction and Demolition Landfill					Council Bluffs	192 McKensie Cr	41.283	-95.815	Pottawattamie	Iowa Waste Systems Association				
4	B	The Area Recyclers facility receives and processes approximately 3,000 tons of recyclable materials each year. This includes materials collected curbside and at the public drop-offs located throughout Des Moines County. Appliances are also accepted at Area Recyclers for a fee of \$10 each. Plastic 1,2 & 5, #1 and Sn, OCC, MP, newspaper, glass. Give a rebate for haulers to bring their OCC to them. They granulate their sorted plastics for higher value, sort line for plastics, tires, electronics, car batteries. • Glass - giveaway to residents as landscaping mulch or use as new cell liner. Had concrete grinder/manufacturer put it in their bricks for their landfill building. Have recycled product store on site. • Wood Chip - used to give away but ash beetle stopped this so use on site as mulch. Compost give away free to public. Offers rebates to haulers for OCC to ensure they get the material.	Area Recycler (Des Moines County Recycling Center)	Recycling Processor	Des Moines County + Mt Pleasant (in Henry City), Salem, New London & Morning Sun in Iowa County				West Burlington	1818 W. 30	I	Before incineration they sort out ferrous and nonferrous metals and sell them loose. The facility also handles appliances, scrap metal, waste oil, tires, household hazardous waste, leadacid batteries and glass. Items removed prior to shredding are tires, appliances, propane tanks, furniture and mattresses. Everything else goes into the primary shredder and is reduced to the size of a football; ferrous metals are removed after the first shred, and then everything is shredded again, reducing the size to about that of a golf ball. Material is then air classified (rejects or refuse-derived fuel or RDF); RDF is conveyed to the power plant and rejects then go through our non-ferrous metal capture system. After non-ferrous has been gleaned from the waste, the rejects are then hauled to Boone County Landfill for disposal.	City of Ames Resource Recovery Plant	Refuse Derived Fuel (RDF) Facility	Story County (with the exception of Collins, Colo, and Shelby) are participants. Residents pay a per capita fee to participate (currently \$9.10 per residence per year).	Receives 54000 tons annually, 35,000 tons converted to refuse derived fuel, 15,000 waste goes to Boone County Landfill as trash			Ames	110 Center Ave	42.023	-93.606	Story	Central IA SWMA	Bill Schmidt	rpb@city.ames-ia.us	(515) 239-5238	
31	B	Accept cardboard, paper, office paper, plastics 1-7, tin cans, glass (all colors), styrofoam, aluminum cans and foil. Source Separated. Drop off program at their facility and throughout town. All drop-off. Recycling program that all cities in county except Alton (no longer in planning area), 96 gallon totes for all residential curbside (every other week recycling pick up). Cities have 4 or 5 haulers in city of LeMars that are registered - just transporting material not processing. Didn't seem interested in franchising for ONE hauler. Garbage from haulers is billed back to the City. Up until April 2016 months ago they paid \$10/ton for their recycling, right now getting 16¢ of it for reworking. 150 tons per month including curbside programs. MSW goes to Jackson, NE. C&D program they sort every load coming in - all dry wood sorted out and ground and hauled away for fuel at an ethanol plant, asphalt shingles sorted and turned into roads.
