

Force Development

2023 Annual Report

From the Commander...

Naval Education and Training Command (NETC), the Force Development (FD) pillar of MyNavy HR, is the largest shore command in the Navy with more than 24,000 military and staff personnel at more than 624 subordinate activities, sites, talent acquisition groups, stations, and detachments throughout the world. On any given day, roughly 33,000 Sailors are learning in 2,600 electronic classrooms located across 251 training sites, and recruiters are interacting with more than 10,000 civilians interested in potential careers with the Navy.

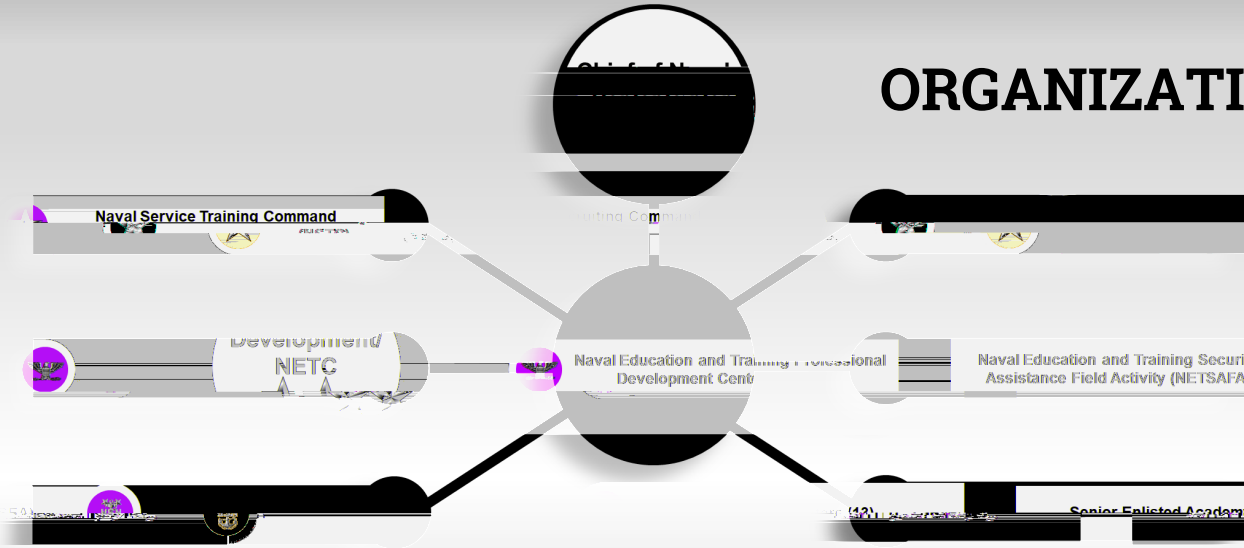

With a focus on building trust, closing gaps, and improving processes, NETC utilizes innovation, technology, and the “Can Do” Navy spirit to recruit the best talent the nation has to offer and produce lethal, capable, and highly skilled Sailors, ready to fight and win anytime anywhere. Our FD team is helping to foster and sustain an inclusive team, and a healthy force to man the fleet and achieve mission effectiveness.

Our country is engaged in a long-term strategic competition, and we are facing challenges to our traditional warfighting advantages in new ways and with ever-evolving technology. These challenges must be met by the foundational strength of the Navy, our enduring asymmetric advantage – our people.

Rear Adm. Jeffrey Czerewko,
Commander, Naval Education and
Training Command

ORGANIZATION

Chief of Naval Training established 1971

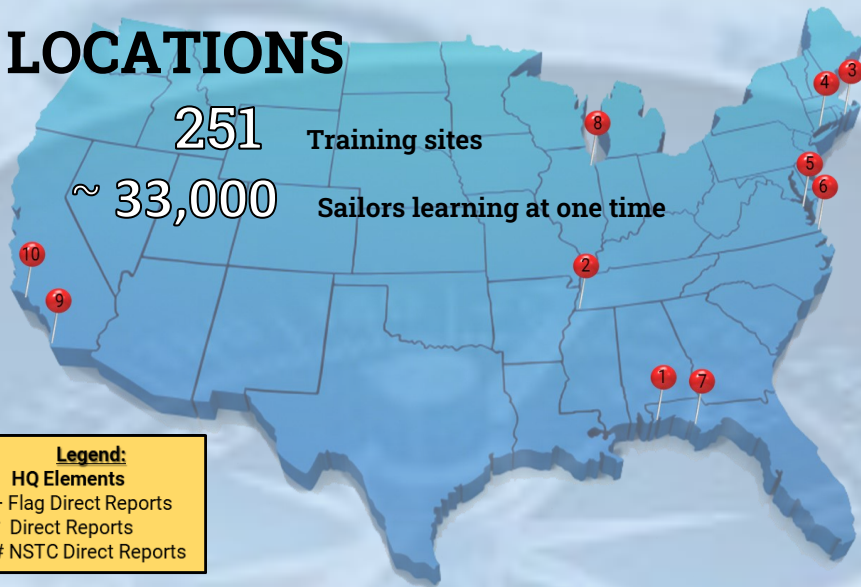

Renamed Naval Education and Training Command 1973
