

The Sources screen *explained*

The screenshot shows the NoodleTools interface for a project named "Honeybee Action Project". The left sidebar contains navigation options: Back to My Projects, Sources (10), Notecards, Tabletop View, Detail View, Attachments, ReflEQ Journal, To-Do's, Teacher's Links, and Comments. The main content area displays a list of sources with columns for Media Type, Citation, and actions. A search bar and a "+ New Source" button are at the top right. A dropdown menu is open over the first source, showing options like Edit, Copy, Add Attachment, Delete, In-text citation, and Have a question?.

1. View team members working now.
2. Analyze your sources (e.g., variety, currency).
3. Print or export to Word, Google Docs, etc.
4. Undelete a citation, get help.
5. Search by keyword, title, URL, contributor, source type.
6. Create a new citation.
7. View/edit your research question or thesis statement.
8. Show/hide comments, notecards, or update history.
9. Sort alphabetically (default) or by primary/secondary, color, source type, team member.
10. Sources screen is the active view.
11. Click icon to view the source online.
12. View source attachments.
13. Click orange icon to view/hide notecards, or "New" to create one.
14. Add or delete tags (primary/secondary, color).
15. Other options.
