

Save Precious Time with Automated Driver Deployment

Get users connected to printers automatically with Print Queue Conductor for Xerox® Workplace Cloud.

There's no doubt about it — print driver setup can be a complicated and time-consuming task. In addition to creating an uptick in help desk calls, it can lead to confusion as workers change locations and have to connect to different printers.

And as modern work continues to rapidly evolve, it's especially important for organizations to encourage users to print responsibly with the appropriate settings.

What if you could:

- Manage all your print infrastructure centrally from the cloud
- Enable mobile workers to always have the right driver for the nearest printer regardless of brand with no extra ongoing IT effort
- Automate driver setup for new users
- Simplify driver management as new driver updates become available

MEET THE PRINT QUEUE CONDUCTOR

Automate driver deployment for any brand of printer to save time and reduce hassles for IT.

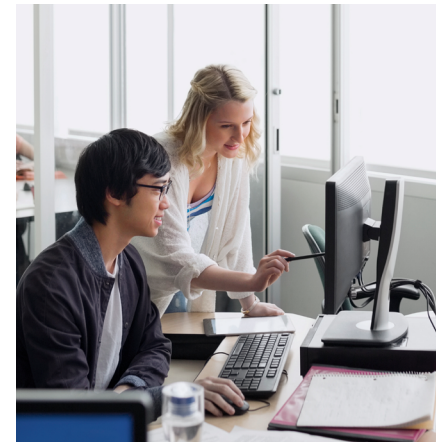

- Streamline driver management by deploying drivers from the cloud without the need for any print servers
- Define preferred default print settings, such as mono or duplex, to encourage more cost savings and environmentally responsible print behavior
- Set up zones, and as a user moves to a new zone, Print Queue Conductor can automatically push the appropriate driver
- Boost user productivity by ensuring they're always ready to print
- Reduce help desk calls and free up resources
- Use any manufacturer's driver to get the best out of your printer and avoid settling for a basic universal driver

Print Queue Conductor is the perfect cloud-based driver deployment solution for any printer.

WORK ZONES

Unlimited user zones ensure employees who move around automatically have the right driver for the nearest printer.

COMPOSE

Use the cloning tool to easily compose print queues with desired print driver and settings

CONFIGURE

Assign drivers to zones to match the printers in each location

AUTOMATE

Automatically detect and deploy the right driver to the right user at the right location

PART OF A COMPLETE PRINT MANAGEMENT SOLUTION

Print Queue Conductor is just the start. Xerox Workplace Cloud is the complete platform for authentication, security, cost control and mobility. Gain the agility you need to stay nimble for whatever's next.
