

2024 State Capability Assessment

The State of the State Capability Assessment is an annual assessment of Oregon counties, select cities, tribal partners and state agencies. Information collected in this assessment is used to complete the annual FEMA Threat Hazard Identification Risk Analysis (THIRA) and Stakeholder Preparedness Review (SPR). The results from this assessment identify the progress of emergency management initiatives and support prioritization of future planning, organization, equipment, training, and exercise efforts(POETE).

Please do not put personally identifiable information (PII) on this site or in your documentation. Refer to position and/or agency, and not a person. Personally identifiable information (PII) is information that, when used alone or with other relevant data, can identify an individual.

The following 14 core capabilities will be reviewed in 2024. Please use this document to assist with data collection in preparation of the 2024 assessment.

Contents

Planning.....	2
Public Information and Warning	7
Operational Coordination	13
Public Health, Healthcare, and EMS	19
Fatality Management.....	25
Health and Social Services	30
Housing.....	35
Mass Care Services.....	40
Critical Transportation.....	44
Operational Communication.....	50
Intelligence and Information Sharing	55
Cybersecurity	61
Infrastructure Systems	66
Risk Management for protective programs and activities	72

Planning

Description: Conduct a systematic process engaging the whole community as appropriate in the development of executable strategic, operational, and/or tactical-level approaches to meet defined objectives.

The below state capability targets will be displayed to state agencies only during the assessment.

Local and Tribal partners please provide data based on your jurisdiction's overall capacity for each core capability.

State Capability Target: Within every 2 year(s), update all emergency operations plans that define the roles and responsibilities of 33 partner organizations involved in incident management across 45 jurisdictions affected, and the sequence and scope of tasks needed to prevent, protect, mitigate, respond to, and recover from events.

Scenario: 9.0 Cascadia Subduction Zone earthquake event

Have you updated your organization's Emergency Operations Plan/ESF annex(s) within the last 2 years using training, exercise and real world events to make improvements?

Yes

No

If no, what impeded your ability to make updates to your Emergency Operations Plan/ESF annex(s)?

Please select where there was capability lost, sustained, built and/or there exists an overall capability gap towards achieving this target:

	Capability			Overall gap in capability?	
	Lost in:	Sustained In:	Built in:	Gap	No Gap
Planning	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Public Information and Warning

Description: Deliver coordinated, prompt, reliable and actionable information to the whole community using clear, consistent, accessible and culturally and linguistically appropriate methods to effectively relay information regarding any threat or hazard, as well as the actions being taken and the assistance being made available, as appropriate.

The below state capability target/s will be displayed to state agencies only during the assessment.

Local and Tribal partners please provide data based on your jurisdiction's overall capacity for each core capability.

State Capability Target: Within 6-hour(s) notice of an incident, deliver reliable and actionable information to 2,548,000 people affected, including 290,000 people with access and functional needs (affected) and 66,400 people with limited English proficiency affected.

Scenario: 9.0 Cascadia Subduction Zone earthquake event

Please select where there was capability lost, sustained, built and/or there exists an overall capability gap towards achieving this target:

Critical Transportation

Description: Provide transportation (including infrastructure access and accessible transportation services) for response priority objectives, including the evacuation of people and

animals, and the delivery of vital response personnel, equipment, and services into the affected areas.

The below state capability target/s will be displayed to state agencies only during the assessment.

Local and Tribal partners please provide data based on your jurisdiction’s overall capacity for each core capability.

State Capability Target: Within 30 days’ notice of an incident, complete the evacuation of 150,000 people requiring evacuation, including 21,600 people with access and functional needs (requiring evacuation)

State Capability Target: Within 1 year of an incident, clear 2,273 miles of road affected to enable access for public, private and non-profit emergency responders.

Scenario: 9.0 Cascadia Subduction Zone Earthquake

When answering the following questions, please consider your ability to meet both targets with respect to your own jurisdiction.

Please select where there was capability lost, sustained, built and/or there exists an overall capability gap towards achieving this target:

	Capability			Overall gap in capability?

Operational Communication

Description: Ensure the capacity for timely communications in support of security, situational awareness, and operations available, among and between affected communities in the impact area and all response forces.

The below state capability target/s will be displayed to state agencies only during the assessment.

Local and Tribal partners please provide data based on your jurisdiction's overall capacity for each core capability.

State Capability Target: Within 6 hours on an incident, establish interoperable communications across 35 jurisdictions affected and 29 partner organizations involved in incident management. Maintain for 18 months.

Scenario: 9.0 Cascadia Subduction Zone Earthquake

Please select where there was capability lost, sustained, built and/or there exists an overall capability gap towards achieving this target:

Intelligence and Information Sharing

Description: Provide timely, accurate, and actionable information resulting from the planning, direction, collection, exploitation, processing, analysis, production, dissemination, evaluation, and feedback of available information concerning physical and cyber threats to the United States, its people, property, or interests; the development, proliferation, or use of WMDs; or any other matter bearing on U.S. national or homeland security by local, state, tribal, territorial, federal, and other stakeholders. Information sharing is the ability to exchange intelligence, information, data, or knowledge among government or private sector entities, as appropriate.

The below state capability target/s will be displayed to state agencies only during the assessment.

Local and Tribal partners please provide data based on your jurisdiction's overall capacity for each core capability.

State Capability Target: During steady state, and in conjunction with the fusion center and/or Joint Terrorism Taskforce (JTTF), every 1 year, review ability to effectively execute the intelligence cycle, including the planning, direction, collection, exploitation, processing, analysis, production, dissemination, evaluation and feedback of available information and identify the 6 personnel assigned to support execution of the intelligence cycle.

Then, within 2 hours of the identification or notification of a credible threat, identify/analyze local context of the threat for the respective area of responsibility, and facilitate the sharing of threat information with 7 priority intelligence stakeholder agencies/entities in accordance with the intelligence cycle, and all dissemination protocols.

Please select where there was capability lost, sustained, built and/or there exists an overall capability gap towards achieving this target:

Infrastructure Systems

Description: Stabilize critical infrastructure functions, minimize health and safety threats, and efficiently restore and revitalize systems and services to support a viable, resilient community.

Local and Tribal partners please provide data based on your jurisdiction’s overall capacity for each core capability.

State Capability Target: Within 1 month of an incident, restore service to 364,000 customers (without water service).

State Capability Target: Within 1 month of an incident, restore service to 441,000 customers (without power service).

State Capability Target: Within 1 year of an incident, restore service to 364,000 customers (without wastewater service).

State Capability Target: Within 1 month of an incident, restore service to 898,000 customers (without communication service).

Scenario: 9.0 Cascadia Subduction Zone Earthquake
