NIGERIA

218.5 million of Nigeria's population is at risk for malaria

Nigeria accounts for **27% of global malaria cases** and **31% of global malaria deaths**, with over **66.7 million cases** and **189,300 deaths** in 2022*

Rainy season is from **June to September** in the **North** and from **March to November** in the **South**

PMI has supported Nigeria to fight malaria since **2011**, starting with **8** states in year one to **11** of 36 states in 2020

PMI'S PROGRAM IN NIGERIA

The U.S. President's Malaria Initiative (PMI) provides vital financial and technical assistance that enables the Government of Nigeria to deploy lifesaving interventions proven to fight malaria.

PMI is a critical funding source for insecticide-treated nets, malaria diagnosis and treatment, seasonal malaria chemoprevention and more. PMI investments also support stronger, more-resilient health systems. For example, PMI helps train health workers, strengthen supply chains, improve data monitoring, and reinforce health policies.

PMI Nigeria's fiscal year (FY) 2023 budget was \$73 million. PMI investments support and build on those made by the Government of Nigeria, in coordination with other stakeholders. PMI investments are detailed in the Malaria Operational Plan for Nigeria**, which was developed in consultation with the National Malaria Elimination Program, other donors, and technical organizations. Planned PMI activities reflect national and PMI strategies, draw on best-available data, and align with the country context and health system.

PMI'S IMPACT ON NIGERIA'S MALARIA FIGHT

Since partnering with PMI, Nigeria has made significant progress against malaria. Child death rates have fallen and lifesaving interventions such as mosquito nets and preventive treatment for pregnant women are reaching more people. Health systems are stronger and health workers have received more than 141,700 trainings to help them fight malaria.

SINCE PMI SUPPORT BEGAN*

* See latest PMI Annual Report on pmi.gov for more detail

The U.S. President's Malaria Initiative (PMI) supports 27 partner countries in sub-Saharan Africa and three programs in the Greater Mekong Subregion in Southeast Asia to control and eliminate malaria. Led by the U.S. Agency for International Development (USAID) and implemented together with the U.S. Centers for Disease Control and Prevention (CDC), PMI delivers cost-effective, lifesaving malaria interventions alongside catalytic technical and operational assistance to equip and empower partner countries to end malaria.
