

Kentucky Consortium for Carbon Sequestration

Kentucky Geological Survey

University of Kentucky

Intent to Participate

The Kentucky Geological Survey is charged under HB-1 with conducting research on carbon dioxide for enhanced oil and gas recovery and permanent sequestration in Kentucky. HB-1 encourages KGS to join with industry partners to maximize planning, technical expertise, and resources. Industry partners are needed to share the cost of the research, which will consist of the following four projects: CO₂ Enhanced Gas Recovery, Western Kentucky CO₂ Sequestration, Eastern Kentucky CO₂ Sequestration, and CO₂ Enhanced Oil Recovery. Please indicate your level of support on the attached form. An umbrella organization formalizing the partnerships, named the Kentucky Consortium for Carbon Sequestration (KyCCS), will be finalized in January 2008.

This form and a letter of commitment are due to KGS by January 2, 2008. Based on the response to the project and commitment letters, planning meetings with partners will be scheduled for late January or February 2008, to formally begin these research efforts.

Commitments of Resources

A letter of commitment stating the resources to be contributed and the effective timeframe for this commitment on letterhead signed by a duly authorized company official must accompany this form. Commitments of funds can be spread over four fiscal years 2007-08, 2008-09, 2009-10, and 2010-11. Contributions of resources can include matching funds, technical expertise, and material support such as equipment, geophysics, drilling, legal access to wells and/or drilling sites, applicable proprietary technologies, public outreach and education, and other material support.

The following named company will be a member of the Kentucky Consortium for Carbon Sequestration, will participate in the research, and will contribute resources to accomplishing the goals of the research.

_____ (company name)

The above named company designates the following person or persons as the company's representative(s) to the KyCCS. Representatives will take part in planning and business meetings.
