

HAZARD SIMPLIFICATION

What Does NWS Consolidation Mean For the Extreme Cold, Freeze, and Wind Chill Product Suites?

NWS is simplifying its suite of cold weather products to improve messaging of these hazards and provide better decision-making services.

What are we doing?

Wind Chill Watch/Warning/Advisory will be consolidated into the Extreme Cold Watch/Warning and Cold Weather Advisory. Hard Freeze Watch and Warning will be consolidated into the Freeze Watch/Warning.

Nationwide Implementation in Fall 2024 - On or about October 1, 2024

What Do You Need To Know?

- As part of the ongoing National Weather Service (NWS) Hazard Simplification Project, the NWS is acting upon data collected during public and partner engagements, surveys, and social science research leading to consolidation of Wind Chill and Extreme Cold products and Freeze and Hard Freeze Products.
- The new NWS Cold Product Suite will allow NWS to communicate that cold is dangerous with or without wind. Wind chill will not go away although emphasis will be placed on “cold is cold” for public safety.
- Consolidation of NWS Freeze and Hard Freeze products into one streamlined Freeze Watch/Warning with enhanced language for hard freeze conditions as needed will simplify and improve messaging and service delivery.
- The scope of the NWS Frost/Freeze services is focused on vegetation and agriculture taking into account growing season, impacts, and precautionary/preparedness actions.

What would this look like?

Changes highlighted in yellow

New Freeze Warning with Hard Freeze Wording

URGENT - WEATHER MESSAGE
National Weather Service New Orleans LA
359 AM CST Fri Jan 19 2024

LAZ059-065>067-191800
/O.NEW.KLIX.FZ.W.0003.240120T0600Z-240120T1500Z/
Upper Lafourche-Upper Terrebonne-Lower Terrebonne-Lower Lafourche-

* IMPACTS...The dangerously cold wind chills could cause frostbite
on exposed skin in as little as 5 minutes.

What are the benefits?

- Streamline forecast process
- Unify terms across the United States
- Simplified messaging by using a single product type for Extreme Cold and Wind Chill
- Simplified messaging by using a single product for Freeze and Hard Freeze
- Ability to message that cold is dangerous with or without wind
- Ability to offer clearer Watch/Warning/Advisory maps
